Control Number - 52299

ItemNumber - 374

October 25,2021

To Whom It May Concern:

The May Water Supply Corporation, Lindley Street, May, TX 76857 is currently supplied electricity through WTU Retail. To strengthen our emergency infrastructure we have installed a 35KW propane powered backup generator. This will immediately take over if power is lost to the water system and kick off when powered is restored. This should keep our system running at capacity in case of weather or other emergencies.
