# City of Garden Ridge

*"A way of life, not just a place to live"*

October 27, 2021

This letter is to identify that the City of Garden Ridge is an affected utility that qualifies for critical load status.

The city of Garden Ridge is located at 9400 Municipal Parkway Garden Ridge Texas 78266. We have 4 well sites, two pump from the Trinity aquifer and two pump from the Edwards aquifer. The city of garden ridge can store up to 2,650,000 gallons of water. Our water system is pressurized by elevated storage. As of 2019 our population is 3961 with 1685 water service connections.

We have recently installed a 4" forced wastewater main with an 18000-gallon collection tank. When customers start connecting to it, they will be required to purchase their own grinder pumps.

The following is a list of our well sites and wastewater collection storage tank.

- (1) Municipal water plant.  
9500 municipal Parkway Garden Ridge Texas 78266.  
1,000,000 elevated storages.
