Re: Project 52299
Style: COORDINATION OF EMERGENCY OPERATIONS PURSUANT TO TWC §13.1396(C)
Filing Party: City of Albany

Dear Sir / Madam:

The City of Albany is providing the coordination of emergency operations pursuant to TWC §13.1396(C). The required information is provided as follows:

- Water / Wastewater Utility Name: City of Albany
- Public Water System: City of Albany
PWS ID: TX2090002
- Wastewater System: City of Albany
- Location and general description of the facility of all critical load water and sewer facilities:

The location and general description information along with additional details for each facility were provided to the electric utilities that provide transmission and distribution service (AEP) and retail electric provider that sells electric power to the utility (Reliant in the AEP service area); the critical load application for AEP is attached which contains the required information.

All facilities are located in Shackelford County.

The notification was previously provided to the electric utilities that provides transmission and distribution service (AEP) and the retail electric provider that sells electric power to the utility in the AEP service area. This letter is being sent to the Public Utility Commission, the Shackelford County Emergency Management office in which the utility has water and wastewater facilities that qualify for critical load, and the Texas Department of Emergency Management (TDEM).

Please feel free to contact me with any questions or comments

Sincerely,

Attachments City of Albany Critical Load Facilities Application (AEP)

AEP Texas Application for Critical Load Industrial or Critical Load Public Safety Designation

SEND COMPLETED FORM TO: CriticalLoadAEPTX@aep.com

This Application should be completed in order to request the designation of Critical Load Industrial Customer or Critical Load Public Safety Customer with AEP Texas, as defined below. The Application must be submitted to AEP Texas at the email address above. Do not include premises served by another utility in this Application.

Critical Load Public Safety Customer -- A customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities.

Critical Load Industrial Customer – An industrial customer for whom an interruption or suspension of electric service will create a dangerous or life-threatening condition on the retail customer's premises, is a "critical load industrial customer."

Designation of Critical Load does not guarantee an uninterrupted supply of electricity. It is the responsibility of the customer to make arrangements for alternative sources of electric power should a localized outage or load shed event occur.

AEP Texas may request more information prior to implementing a designation.
