

Filing Receipt

Received - 2021-10-27 02:03:41 PM
Control Number - 52299
ItemNumber - 485

Name of Utility:

Moffat Water Supply Corporation

Names of Affiliates and/or Assumed Names (if any):

None

List all public water systems and sewer systems owned by your utility:

Moffat Water Supply Corporation

Please list the following for each water and sewer facility that qualifies for critical load status:

Location (may include maps if it would help):

6060 Water Supply Road, Temple, Texas 76502

12191 S. Whitehall Road, Temple, Texas 76502

General Description:

Both stations supply water into the distribution system for delivery to residential, commercial and to assist with local fire protection, making them both critical and necessary assets for protecting those within the Corporation's CCN.

Emergency Contact Information:

Name of person who will serve as a point of contact:

Damon B. Boniface – General Manager

Telephone number:

(254) 986-2457

Name of person who will serve as alternative point of contact:

Telephone number:

Lafonda Wilsey – Board President

(254) 986-2457

File this with:

- PUCT (in Central Records, Project 52299)
- Each electric utility that provides transmission and distribution services to you
- Each retail electric provider that sells electric power to you (if in competitive areas of ERCOT)
- Office of Emergency Management of each county in which utility has water and wastewater facilities that qualify for critical load status; and
- Division of emergency management of the governor:

Texas Division of Emergency Management
1033 La Posada Ste 300,
Austin, TX 78752
