Enclosures: Eligibility Determination Forms for Designation as a Critical Load Public Safety Customer

cc: Lori Aylett; Smith, Murdaugh, Little & Bonham, LP

Kimberly Wright; General Manager

Tim Gordy; O&M Manager

CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC
ELIGIBILITY DETERMINATION FORM FOR DESIGNATION
AS A CRITICAL LOAD PUBLIC SAFETY CUSTOMER

SECTION A

To Be Completed By Retail Electric Provider

ESI-ID: 1008901023804686650100

Customer Name Associated with ESI-ID: Southern Montgomery County Municipal Utility District

Service Address: *SMCMUD District Office*, 25212 Interstate 45, Spring, Texas 77386

Mailing Address: (if different than Service Address): [Same]

Date Form Sent to Customer: N/A

SECTION B

To Be Completed By Retail Customer

The criteria for qualification as a “critical load public safety customer” are set out in Public Utility Commission of Texas (PUCT) Substantive Rules § 25.497(a)(1) and § 25.52(c)(1). Generally, these are:

“Loads for which electric service is considered crucial for the protection or maintenance of public safety; including but not limited to hospitals, police stations, fire stations, critical water and wastewater facilities, and customers with special in-house life sustaining equipment.”

Primary Contact:

Name: Kimberly Wright

Work Number: 281-367-5383 ext. 121

Home Number: 832-428-2647 (Cell)

Fax Number: 281-298-1657

Secondary Contact:

Name: Tim Gordy

Work Number: 281-367-5383 ext. 111

Home Number: 281-771-6748 (Cell)

Fax Number: 281-298-1657

Qualification as a critical load public safety customer is not a guarantee of an uninterrupted electric power supply. If electricity is a necessity, it is the responsibility of the Retail Customer to make its own arrangements for alternate sources of electric power.

CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC
ELIGIBILITY DETERMINATION FORM FOR DESIGNATION
AS A CRITICAL LOAD PUBLIC SAFETY CUSTOMER

SECTION C

Required Certification Information To Be Completed By Retail Customer Applying For Critical Load Public Safety Customer Status

Review PUCT Substantive Rules § 25.497(a)(1) and §25.52(c)(1) and explain the type of premise at the requested service location and why you believe that it should qualify for critical load public safety status.

Note that community water and wastewater facilities may qualify; however, individual wells, sewer lift stations or sump pumps are not considered crucial for the protection or maintenance of public safety.

My service qualifies as “critical load public safety customer” per the definition described in PUCT Substantive Rules § 25.497(a)(1) and §25.52(c)(1) for the following reason(s).

This is a critical water facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes X No _____

What is the capacity (size) of this generation resource? 24 kW

How long will this generation resource operate without refueling? Unlimited Hours

DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER INTERRUPTION: (Use additional sheet if necessary)

We are a retail public utility providing large scale water service. This facility is the main office for operations and customer service.

My service qualifies as “critical load public safety customer” per the definition described in PUCT Substantive Rules § 25.497(a)(1) and §25.52(c)(1) for the following reason(s).

This is a critical wastewater facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes X No

What is the capacity (size) of this generation resource? 1000 kW

How long will this generation resource operate without refueling? 72 Hours

DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER INTERRUPTION: (Use additional sheet if necessary)

We are a retail public utility providing large scale sewer service. The above described facility is a wastewater treatment plant, the operation of which is critical to the proper treatment and disposal of untreated sewage. An interruption of electric service may create a public health hazard by resulting in the discharge of untreated sewage into the waters of the State of Texas.

Review PUCT Substantive Rules § 25.497(a)(1) and §25.52(c)(1) and explain the type of premise at the requested service location and why you believe that it should qualify for critical load public safety status.

Note that community water and wastewater facilities may qualify; however, individual wells, sewer lift stations or sump pumps are not considered crucial for the protection or maintenance of public safety.

My service qualifies as “critical load public safety customer” per the definition described in PUCT Substantive Rules § 25.497(a)(1) and §25.52(c)(1) for the following reason(s).

This is a critical wastewater facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes X No

What is the capacity (size) of this generation resource? 100 kW

How long will this generation resource operate without refueling? 72 Hours

DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER INTERRUPTION: (Use additional sheet if necessary)

We are a retail public utility providing large scale sewer service. The above described facility is a wastewater facility, the operation of which is critical to the transmission and disposal of untreated sewage. An interruption of electric service may create a public health hazard by resulting in the discharge of untreated sewage into the waters of the State of Texas.
