Hi Earl,

Nice speaking with you this morning. I'm writing to confirm that the following facilities are on Austin Energy's Critical Load list:

- 719 TWIN HILLS CT
- 103 CAREFREE CIR A
- 1931 1/2 LOHMANS CROSSING RD
- 729 GOLF CREST LN
- 15909 STEWART RD
- 124 1/2 LONG WOOD AVE
- 805 DUCK LAKE DR
- 417 PALOS VERDES DR
- 417 PALOS VERDES DR
- 104 1/2 GOLF CREST LN
- 127 1/2 TOP O THE LAKE DR

I'm also attaching these as a spreadsheet with more details about the accounts in case they're helpful to you.

I'm cc'ing Elizabeth Kasprowicz, who's worked with a number of water districts over the years – if you need any help down the line, feel free to reach out to her by email or her cell at 512-554-1804.

Best,
Danielle

Danielle Murray

October 26, 2021

Dear Mr. Foster,

Your recent application submission to the PEC Critical Loads Program has been received and reviewed. The following site(s) have been designated as a Critical Load based on criteria outlined by PEC.

CRITICAL LOAD APPLICANTS		
Account	Name	Address
3000280487	Lakeway MUD	B-3 Raw Water Intake
3000361980	Lakeway MUD	Mariner Raw Water Intake
3000093765	Lakeway MUD	123 Trophy Drive S-5
3000304514	Lakeway MUD	Disposal Plant
3000210093	Lakeway MUD	1097 Lohmans Crossing Lakeway (WTP #3)*

**4105 Lakeway Blvd, Lakeway*

This Critical Load designation allows for the site(s) listed to be given priority, but **will not be exempt** from any rotating outages PEC may be called on to deploy as directed by ERCOT. At any time if rotating outages are in effect, you will be notified as such upon the deployment and recall of such events. Priority designation for these sites means that PEC anticipates the ability to provide advanced notice of any rotating outages as well as priority restoration if service at the site is interrupted due to rotating outages.

PEC does not guarantee an uninterrupted, regular, or continuous power supply. Locations registered in the program are not exempt from planned service interruptions, nor are registered members exempt from their financial responsibilities or the termination of service in accordance with PEC policies. When planned outages or service interruptions for nonpayment are scheduled, we will attempt to provide advance notice so preparations can be made. For unplanned outages, PEC will prioritize Critical Loads Program participants for restoration as much as practicable.

As part of the PEC Critical Loads Program, this application and review process will be conducted annually. Sites previously deemed as Critical Loads will be reviewed and have the ability to be added or removed from this designation. PEC will work with members to provide advanced notice when available to mitigate the impact to your business operations.

If you wish to provide any comments or have questions regarding the Critical Loads Program, you may contact criticalloadsrequests@peci.com or call 830-454-3114.
