Main point of contact in an Emergency: PECOS POGUE (806) 282-8090

Secondary point of contact: LARRY HERRINGTON (254)631-2153

Third point of contact: LINDA MERONEY (254)433-9452

MAILING ADDRESS FOR STAFF WSC: STAFF WSC

P.O. BOX 421

RANGER, TEXAS 76470

Please see below for electrical requirements for each system.

FLATWOOD SYSTEM – We require no electricity for this system because it is pumped and treated by City of Carbon.

OLDEN AREA – This system has two 75,000-gallon standpipes located on Eastland County Road 570A, 32.387398, -98.708220 which are filled thru a valve by water being pumped by Eastland County Water Supply District. We do not treat the water at this location. **Power currently supplied is 240V of which we utilize only 120V. via a breaker mounted to the Pole at this location.**

LA CASA PUMP STATION

408 FM 717 Ranger, Texas

32.497517, -98.685140

Staff WSC gets water from the City of Ranger, Texas, and stores approx. 50,000 gallons in two above ground storage tanks located at the address above. Lat/Long 32.497517, -98.685140. Water is pumped out to system **via 2 centrifugal pumps driven by 20hp triple phase** electric motors 230/460Volts, 45/22.5 Amps. Station also has a pneumatic tank, air compressor, and fill valve all on 120V.
