Re: Critical Load Designation

To Whom It May Concern:

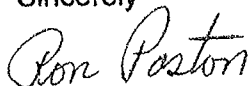

The accounts listed below are designated Critical Load by Heart of Texas Electric Cooperative for Levi Water Supply:

20341-001
20341-003

Critical Load Status cannot guarantee an uninterrupted regular or continuous power supply. If electricity is a necessity, you must make other arrangements for on site back-up capabilities or other alternatives in the event of loss of service.

If you have questions or need further information, please let me know.

Sincerely

Ron Poston
Member Services Manager

Your Touchstone Energy® Cooperative

Application for Critical Load Serving Electric Generation and Cogeneration

CRITICAL LOAD DESIGNATIONS ARE REVIEWED EACH YEAR APRIL 1 FOR SUMMER PEAK and OCTOBER 1 FOR WINTER PEAK

This Application should be completed in order to request the designation of Critical Load Serving Electric Generation and Cogeneration. A separate Application must be submitted to each electric utility provider. Do not include premises served by different electric utilities in a single Application. Multiple premises, served by a single electric utility, may be submitted with a single form, provided that the information requested below is provided for each metered location.

The designation shall only be requested for individual premises (meters) that provide electricity to natural gas production, saltwater disposal wells, processing, storage, or transportation such as a natural gas compressor station, gas control center, or other pipeline transportation infrastructure.

The customer must provide any changes to customer or premise information as soon as practicable. The electric utility may request confirmation of the Critical Load designation and the customer must timely confirm that a premise previously designated as Critical Load continues to qualify for that designation. The utility may request more information prior to implementing the Critical Load designation.

DESIGNATION OF A CRITICAL LOAD DOES NOT GUARANTEE AN UNINTERRUPTED SUPPLY OF ELECTRICITY.

It is the responsibility of the customer to make arrangements for alternative sources of electric power should a localized outage or significant load shed event occur.

UTILITY NAME: Levi Water Supply Corp.

CUSTOMER CONTACT INFORMATION

Contact Name:

Jim Sheffield

Contact Title:

General Manager

Mailing address (if different from Service Address):

P.O. Box 490 Lorena, Texas 76655-0490

Hi Jim,

Due to the recent Senate Bill 3, there is additional information that is now required for water facilities applying for Critical Load. Attached is an FAQ document to assist with the application process as well as the spreadsheet that needs to be completed and returned to Oncor at criticalload@oncor.com. Please complete all the questions to avoid delays with the application review process.

Some of the info is populated per the previous application submitted. The orange highlighted columns have drop down menus and the options listed are the only valid responses.

Please reply to this email if you have any questions or need assistance.

Thank you,

Marina Grady
