Re: Dowdell Public Utility District ("District"); Annual update for Critical Load Public
Safety submission

Ladies and Gentlemen,

The District submitted certain emergency operations information, pursuant to Section 13.1396, Texas Water Code, and received approval for qualification as critical load designation. This is the District's annual update which indicates that the District has added facilities and the secondary emergency contact has changed, as identified by the bold font. The facility and contact information is as follows:

District Facilities Qualifying for Critical Load Status Include:

Location: 8426 Creek Willow, Tomball, Texas
Description: Water Plant 1
ESI-ID: 1008901040561519068100

Location: 8807 1/2 Dowdell, Tomball, Texas
Description: Sanitary Lift Station 2
ESI-ID: 1008901023810248470100

Location: 8402 Creek Willow, Tomball, Texas
Description: Remote water well 2
ESI-ID: 1008901040561519042100

Location: 22618 Miramar Crest, Tomball, Texas
Description: Sanitary Lift Station 3
ESI-ID: 1008901023813828280103

CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC
ELIGIBILITY DETERMINATION FORM FOR DESIGNATION
AS A CRITICAL LOAD PUBLIC SAFETY CUSTOMER

SECTION A
To Be Completed By Retail Electric Provider

ESI-ID: 1008901040561519068100

Customer Name Associated with ESI-ID: Dowdell Public Utility District

Service Address: 8426 Creek Willow, Tomball, Texas

Mailing Address: (if different than Service Address): 2727 Allen Parkway, Suite 1100, Houston, Texas 77019

Date Form Sent to Customer:

SECTION B
To Be Completed By Retail Customer

The criteria for qualification as a "critical load public safety customer" are set out in Public Utility Commission of Texas (PUCT) Substantive Rules § 25.497(a)(1) and § 25.52(c)(1). Generally, these are:

"Loads for which electric service is considered crucial for the protection or maintenance of public safety; including but not limited to hospitals, police stations, fire stations, critical water and wastewater facilities, and customers with special in-house life-sustaining equipment."

Primary Contact:

Name: Mark Ivy

Work Number: 281/651-1618

Home Number: 713/829-3288

Fax Number: 281/651-9933

Secondary Contact:

Name: Josh Maas

Work Number: 281/651-1618

Home Number: 713/302-2429

Fax Number: 281/651-9933

Qualification as a critical load public safety customer is not a guarantee of an uninterrupted electric power supply. If electricity is a necessity, it is the responsibility of the Retail Customer to make its own arrangements for alternate sources of electric power.

CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC

ELIGIBILITY DETERMINATION FORM FOR DESIGNATION
AS A CRITICAL LOAD PUBLIC SAFETY CUSTOMER

SECTION C

Required Certification Information To Be Completed By Retail Customer Applying For Critical Load
Public Safety Customer Status

Review PUCT Substantive Rules § 25.497(a)(1) and § 25.52(c)(1) and explain the type of premise at the requested service location and why you believe that it should qualify for critical load public safety status.

Note that community water and wastewater facilities may qualify; however, individual wells, sewer lift stations or sump pumps are not considered crucial for the protection or maintenance of public safety.

My service qualifies as "critical load public safety customer" per the definition described in PUCT Substantive Rules § 25.497(a)(1) and § 25.52(c)(1) for the following reason(s).

This is a critical water facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes x No

What is the capacity (size) of this generation resource? 75 kW

How long will this generation resource operate without refueling? 95 Hours

**DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER
INTERRUPTION: (Use additional sheet if necessary)**

We are a retail public utility providing large scale water service. This facility is a water plant, the operation of which is critical to the provision of potable water to our customers. An interruption of electric service may result in the loss of adequate system pressure, the issuance of boil water notices and the failure of the utility to deliver its public water supply.

My service qualifies as "critical load public safety customer" per the definition described in PUCT Substantive Rules § 25.497(a)(1) and § 25.52(c)(1) for the following reason(s).

This is a critical wastewater facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes x No (portable facility)

What is the capacity (size) of this generation resource? 65 kW

How long will this generation resource operate without refueling? 36 Hours

DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER INTERRUPTION: (Use additional sheet if necessary)

We are a retail public utility providing large scale sewer service. The above described facility is a wastewater facility,
the operation of which is critical to the transmission and disposal of untreated sewage. An interruption of electric service
may create a public health hazard by resulting in the discharge of untreated sewage into the waters of the State of Texas.

This is a critical wastewater facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes x No (portable facility)

What is the capacity (size) of this generation resource? 65 kW

How long will this generation resource operate without refueling? 36 Hours

**DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER
INTERRUPTION: (Use additional sheet if necessary)**

We are a retail public utility providing large scale sewer service. The above described facility is a wastewater facility,
the operation of which is critical to the transmission and disposal of untreated sewage. An interruption of electric service
may create a public health hazard by resulting in the discharge of untreated sewage into the waters of the State of Texas.

Qualification as a critical load public safety customer is not a guarantee of an uninterrupted electric power supply. If electricity is a necessity, it is the responsibility of the Retail Customer to make its own arrangements for alternate sources of electric power.

CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC

ELIGIBILITY DETERMINATION FORM FOR DESIGNATION
AS A CRITICAL LOAD PUBLIC SAFETY CUSTOMER

SECTION C Required Certification Information To Be Completed By Retail Customer Applying For Critical Load Public Safety Customer Status

Review PUCT Substantive Rules § 25.497(a)(1) and § 25.52(c)(1) and explain the type of premise at the requested service location and why you believe that it should qualify for critical load public safety status.

Note that community water and wastewater facilities may qualify; however, individual wells, sewer lift stations or sump pumps are not considered crucial for the protection or maintenance of public safety.

My service qualifies as "critical load public safety customer" per the definition described in PUCT Substantive Rules § 25.497(a)(1) and § 25.52(c)(1) for the following reason(s).

This is a critical wastewater facility pursuant to 16 TAC §25.497(a)(1).

Is there an alternate generation resource serving this facility? Yes x No (portable facility)

What is the capacity (size) of this generation resource? kW

How long will this generation resource operate without refueling? 36 Hours

DESCRIBE THE SPECIFIC PUBLIC SAFETY ISSUE THAT MAY RESULT FROM AN EXTENDED POWER INTERRUPTION: (Use additional sheet if necessary)

We are a retail public utility providing large scale sewer service. The above described facility is a wastewater facility,
the operation of which is critical to the transmission and disposal of untreated sewage. An interruption of electric service
may create a public health hazard by resulting in the discharge of untreated sewage into the waters of the State of Texas.
