REGIONAL WATER DISTRICT

November 1, 2021

To whom it may concern:

Re: Critical Load Status Notification

As required by the Texas Water Code (TWC) §13.1396 established under Senate Bill 3 of the 87th Legislature of the State of Texas, **Upper Trinity Regional Water District (UTRWD)** is sending the following information out in case of an emergency in which one or multiple of our facilities lose power. We request that this letter, and all information contained within it, be filed confidentially due to the sensitive information contained within it.

Critical Load Status: Water Facilities

The UTRWD Thomas E. Taylor Regional Water Treatment Plant (Taylor RWTP) operates at a capacity of 70 MGD, with an ultimate plant capacity of 300 MGD. Taylor RWTP is in the District's Southeast service area, on the same site as the District's administrative office. The Tom Harpool Regional Water Treatment Plant (Harpool RWTP) has a current capacity of 25 MGD and has been designed to accommodate future expansions to a total capacity of 240 MGD. Harpool RWTP is in the District's Northeast service area.

The District's Water System consists of the following:

- Administrative Building
- Annex Building
- Thomas E. Taylor RWTP
- Tom Harpool RWTP
- Lewisville Lake Raw Water Intake Pump Station
- Stone Hill Pump Station
- In-Line Booster Pump Station
- Copper Canyon Elevated Tank
- Temple Dane Pump Station
- Southwest Booster Pump Station

The addresses/locations and electric meter numbers for these facilities are included in Table 1 attached.

Critical Load Status: Sewer Facilities

The Lakeview Regional Water Reclamation Plant (Lakeview RWRP) has a current design capacity of 7.5 MGD. The Riverbend Regional Water Reclamation Plant (Riverbend RWRP) and Peninsula Regional Water Reclamation Plant (Peninsula RWRP) both serve seven customers on a wholesale basis in northeast Denton County. UTRWD's newest wastewater facility, the Doe Branch Regional Water Reclamation Plant (Doe Branch RWRP) serves northeast Denton County customers, also on a wholesale basis. The Riverbend and Doe Branch RWRPs are currently permitted to treat 4 MGD each; Peninsula RWRP is permitted for 0.94 MGD and currently under expansion to treat 2.0 MGD.

The District's wastewater system consists of the following:

- Lakeview RWRP
- Riverbend RWRP
- Doe Branch RWRP
- Peninsula RWRP
- Doe Branch Lift Station

The addresses/locations and electric meter numbers for these facilities are included in Table 2 attached.

Emergency Contact Information
