CHARGES – ACTION REQUIRED BY NOVEMBER 27, 2021 TO OPT OUT**

ESI ID: 1008901000160120010100

Dear Carla Garza

ENGIE Resources LLC hereby provides notice of the ability for DSM NUTRITIONAL PRODUCTS LLC, as a transmission voltage customer, to exercise a one-time election to opt-out of securitization credits and charges by DSM NUTRITIONAL PRODUCTS LLC filing the attached Opt Out Notice and supporting documentation in PUCT Docket No. 52364. This notice is being provided pursuant to an Order of the Public Utility Commission of Texas (“PUCT”) in Docket No. 52322,¹ as part of its implementation of House Bill 4492² from the 87th Regular Texas Legislative Session.

As you may be aware, costs in the wholesale electricity market significantly increased during Winter Storm Uri, and certain entities and customers were assessed and/or paid reliability deployment price adder charges and ancillary service costs in excess of the PUCT’s system-wide offer cap (herein after “certain charges”).

The Texas Legislature recently passed House Bill 4492, establishing a new Subchapter N in the Public Utility Regulatory Act (“PURA”),³ which provides a mechanism for financing an “uplift balance”⁴ not to exceed \$2.1 billion, associated with certain charges incurred during the period of emergency of February 12, 2021 through February 20, 2021 (“period of emergency”).⁵ Under this bill, certain charges assessed during that period to load-serving entities (“LSE”) in the electric market (such as retail electric providers (“REPs”)) will be financed, and the proceeds of the financing will be paid to those LSEs who

² The text of this bill can be viewed at: <https://capitol.texas.gov/>, using the “Search Legislation” function.

³ Public Utility Regulatory Act, Tex. Util. Code §§ 11.001-66.016.

⁴ “Uplift balance” is defined in PURA § 39.652(4).

⁵ The legislature found that financing the uplift balance would allow wholesale market participants who were assessed extraordinary uplift charges due to consumption during the period of emergency to pay those charges over a longer period of time, alleviate liquidity issues, and reduce the risk of additional defaults in the wholesale market.

were exposed to the costs. The overall financed costs will be repaid over a period not to exceed 30 years, through “uplift charges”⁶ assessed to LSEs, which LSEs may recover from their customers. The total amount of these charges will depend upon the number of entities who opt out of participating in the securitization.

The Legislature provided for a **one-time ability to Opt Out** for REP customers whose premises are served at transmission voltage. These REP customers can opt out of paying the uplift charges by paying in full all invoices owed for usage during the period of emergency. If you elect this one time opt out right, for those of your premises served at transmission voltage, you will not receive any of the proceeds from the uplift financing if you are otherwise eligible, and will not be required to pay uplift charges from the securitization under PURA Subchapter N. In other words, if you opt out, you will not receive any refund or credit from your REP for charges you may have paid during the period of emergency for reliability deployment price adder charges and ancillary service costs in excess of the PUCT’s system wide offer cap.

Eligibility and Action Required to Opt Out.

DSM NUTRITIONAL PRODUCTS LLC is eligible to opt out if all invoices owed for usage during the period of emergency are paid in full, DSM NUTRITIONAL PRODUCTS LLC files the attached Opt Out Notice and supporting documentation in PUCT Docket No. 52364, and notifies ENGIE Resources LLC in writing at the email listed below that it is exercising its right to opt out.
