VERIFICATION OF EXPOSURE OF SPARK ENERGY LLC

Spark Energy LLC files this verification of the calculations of exposure contained in ERCOT’s Calculation of Load Ratio Share and Total Exposure for Load Service Entities. On October 13, 2021, the Public Utility Commission of Texas (“PUCT” or “Commission”) entered a Debt Obligation Order in Docket No. 52322 to implement Subchapter N of Chapter 39 of the Public Utility Regulatory Act (PURA). Among other things, the Debt Obligation Order established a deadline for each load serving entity (LSE) to verify the total exposure calculation of the LSE filed by ERCOT in this docket on or before 70 days after entry of the Debt Obligation Order, which would be December 22, 2021. This verification is therefore timely filed.

Attached is the affidavit of Chris Leonard, Vice President Supply, Spark Energy, LLC, which holds REP Certificate No. 10046 in Texas, verifying that the total exposure calculation for Spark Energy LLC filed by ERCOT is correct.

Respectfully submitted,
