REGISTRATION AND SHARON §
PEACH TO OBTAIN AN EXEMPT §
UTILITY REGISTRATION §**

REMAND ORDER

The Commission remands this proceeding for further processing. The Commission determines that it is appropriate to process the application in this proceeding as an amendment to an existing exempt utility, rather than as an application to cancel an exempt utility registration and obtain a new exempt utility registration. Mr. Sledge and Ms. Peach seek to change the name of the owner of the exempt water utility and notify the Commission of the change in connections for exempt utility registration number N0078.

The default for the Commission is to require strict compliance with Commission mapping requirements. But, for the set of facts in this particular case, a remand is appropriate for Commission Staff and the Department of Utility Outreach to work with Mr. Sledge and Ms. Peach to clarify what additional information, if any, is necessary to complete the processing for this application.

Signed at Austin, Texas the 29th day of June 2022.
