Advanced Meter Deployment Progress Report.....	2
--	---

16 TAC §25.130(d)(9). Advanced Meter Deployment Progress Report.

(A) Number of advanced meters installed with geographic identification

SWEPCO installed 5,951 advanced meters in November 2021, 3,594 advanced meters in December 2021, 356 advanced meters in January 2022, and 105 advanced meters in February 2022 as part of its pilot program pursuant to 16 TAC §25.130(f). All of these meters were installed in Texarkana, Texas. SWEPCO has proposed to begin full AMS deployment in the second quarter of 2022, after it receives Commission approval to move to full deployment.

(B) Significant delays or deviation from the Deployment Plan and the reasons for the delay or deviation

SWEPCO has not received Commission approval of its Deployment Plan, and so has not initiated deployment outside of its pilot program. At this time, SWEPCO does not anticipate delays or deviation from the schedule proposed in its Deployment Plan.

(C) Significant problems the electric utility has experienced with an Advanced Metering System (AMS), with an explanation of how the problems are being addressed

SWEPCO has not received Commission approval of its Deployment Plan, and so has not initiated deployment outside of its pilot program. SWEPCO did not experience significant problems during the pilot program.

(D) Number of advanced meters that have been replaced as a result of problems with the AMS

SWEPCO has replaced 21 advanced meters as a result of problems with the AMS.

(E) Status of deployment of features identified in the Deployment Plan and any changes in deployment of these features

SWEPCO has not received Commission approval of its Deployment Plan, and so has not initiated deployment outside of its pilot program.
