DOCKET NO. 52497

PETITION OF HC CELINA 414, LLC TO	§	PUBLIC UTILITY COMMISSION
AMEND MARILEE SPECIAL UTILITY	§	
DISTRICT'S CERTIFICATE OF	§	\mathbf{OF}
CONVENIENCE AND NECESSITY IN	§	
COLLIN COUNT BY EXPEDITED RELEASE	§	TEXAS

PETITIONER'S SUBMISSION OF APPRAISAL REPORT

TO THE PUBLIC UTILITY COMMISSION OF TEXAS:

In accordance with the Final Order and Order No. 5, HC Celina 414, LLC (the "Petitioner") submits its appraisal report in support of its contention the Marilee Special Utility District is not entitled to compensation in this docket.

Respectfully submitted,

COATS ROSE, P.C

Re: Compensation Determination for Area Subject to Petition of HC Celina 414, LLC to Amend Marilee Special Utility District's Certificate of Convenience and Necessity in Collin County by Expedited Release (PUC Docket No. 52497)

Dear Ms. Scott,

On behalf of Willdan Financial Services ("Willdan"), my staff and I have completed our valuation of the decertified 406.7 acre tract ("Property") that is the subject of a petition set forth by HC Celina 414, LLC ("HC Celina") for Streamlined Expedited Release from Marilee Special Utility District ("Marilee") Water CCN No. 10150. The Property is located in Collin County and is identified in Texas Public Utility Commission Docket No. 52497. The petition was approved via the issuance of an Order dated April 4, 2022, and included in this summary valuation as **Appendix A**.

Specifically, the Order's Ordering Paragraph Number 7 states that "[t]he proceeding to determine the amount of compensation to be awarded to the CCN holder, if any, commences on the date of this Order in accordance with the schedule adopted in Order No. 5. Any decision on compensation will be made by a separate order." The purpose of this summary letter is to provide our opinion on the amount of compensation, if any, owed to the prior certificate holder, Marilee, as a result of the streamlined expedited release of the Property in accordance with applicable laws and statutes.

Based on this valuation, the recommended just and adequate compensation that Marilee should receive for the decertification of the Property from its CCN service area should be \$0, as discussed in detail in the remainder of this Letter Report.

Governing Statutes and Rules

The Petition in this proceeding was filed in accordance with Texas Water Code (TWC) §13.2541 and 16 Texas Administrative Code (TAC) § 24.245(h). TWC §13.2541 provides for the following relative to the valuation to be conducted as part of this proceeding:

- (f) The utility commission may require an award of compensation by the petitioner to the certificate holder in the manner provided by this section, and
- (h) Section 13.254(g) applies to a determination of the monetary amount of compensation under this section.

In reference to TWC §13.254(g) and 16 TAC § 24.245(j), the factors ensuring that the compensation to a retail public utility is just and adequate shall include:

- (1). Specific to real property, the value of real property owned and utilized by the retail public utility for its facilities determined in accordance with the standards set forth in Chapter 21, Property Code, governing actions in eminent domain.
- (2). Specific to personal property, the factors ensuring that the compensation to a retail public utility is just and adequate shall include:
 - (A) The amount of the former CCN holder's debt allocable to service to the removed area;
 - (B) The value of the service facilities belonging to the former CCN holder that are located within the removed area;
 - (C) The amount of any expenditures for planning, design, or construction of the service facilities of the former CCN holder that are allocable to service to the removed area;
 - (D) The amount of the former CCN holder's contractual obligations allocable to the removed area;
 - (E) Any demonstrated impairment of service or any increase of cost to consumers of the former CCN holder remaining after a CCN revocation or amendment under 16 TAC § 24.245;
 - (F) The impact on future revenues lost from existing customers;
 - (G) Necessary and reasonable legal expenses and professional fees, including costs incurred to comply with TWC §13.257(r); and
 - (H) Any other relevant factors as determined by the Commission.

Documents Reviewed

Documents that Willdan reviewed in conducting this valuation analysis, include, but are not limited to the following:

- Texas Water Code Section 13.2541, 13254, and others
- 16 Texas Administrative Code Section 24.245
- Filings with the Public Utility Commission of Texas in Docket No. 52497
- The Original Petition filed by HC Celina 414, LLC to Amend Marilee Special Utility District's
 Water Certificate of Convenience and Necessity in Collin County by Expedited Release
- Order Approving Expedited Release in PUC Docket No. 52497 (included as Appendix A)
- 2021 Region C Water Plan Dated November 2020: Prepared for The Region C Water Planning Group, which includes extensive data on forecast and expected growth in Denton's service territory

Background

On November 22, 2021, HC Celina 414, LLC filed an amended petition for streamlined expedited release of the Property in Collin County from the service area under water certificate of convenience and necessity (CCN) number 10150. Marilee Special Utility District was identified as the holder of CCN number 10150. The tract of land owned by HC Celina is approximately 413.88 contiguous acres of land in Collin County, Texas. In the amended petition, HC Celina requested that the Property's acreage that was included within the Marilee CCN (approximately 406.7 acres) be released from Marilee's CCN. On April 4, 2022, the Commission issued an Order releasing the Property from the Marilee's service area under CCN numbers 10150.

On May 9, 2022, HC Celina submitted its First Requests for Information (RFIs) to Marilee. On May 19, 2022, Marilee objected and entered a motion to strike the RFIs. On May 20, 2022, the Commission issued Order No. 6 which stated that "the utility has no obligation to respond to the RFIs." As of the date of this report, Marilee has provided no documentation to support any claims of valuation or response to any of the aforementioned RFIs.

As of today, the Property is vacant, and has no existing development. Further, as noted in the PUC's Decertification Order, "the CCN holder has no facilities or lines that provide water service to the tract of land."

Analysis of Valuation Criteria

In this section we evaluate each of the factors outlined in TWC §13.254(g) and 16 TAC § 24.245(j) for the purposes of assessing a valuation of the decertified CCN. I will first state the criteria and then provide my analysis and conclusions regarding an appropriate valuation.

The value of real property owned and utilized by the retail public utility for its facilities.

Findings:

Specific to the expedited release, the certificated area is being released from Marilee's water CCN. However, no real property is changing hands as a result of the decertification. Further, according to Findings of Fact Nos. 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34 and 35 in **Appendix A:**

"The tract of land is not receiving actual water service from the CCN holder."

"The petitioner has not requested that the CCN holder provide water service to the tract of land."

"The petitioner has not paid to the CCN holder any fees or charges to initiate or maintain water service for the tract of land."

"There are no billing records or other documents indicating an existing account with the CCN holder for the provision of water service to the tract of land."

"The CCN holder operates and maintains an active water meter, meter number 520, that is located just outside the tract of land, and the meter is used to provide water service to an area outside the tract of land."

"The CCN holder operates and maintains an active water meter, meter number 521, that is located outside of the tract of land. Meter number 521 is utilized by the CCN holder to provide water service to a one-story house located outside the tract of land, and it is not used to provide water service to the tract of land."

"The CCN holder owns and operates a one-and-a-half-inch water line that runs parallel to, but just outside of, a portion of the northern boundary of the tract of land."

"The CCN holder owns and operates a twelve-inch water line that runs parallel to a portion of the eastern boundary of the tract of land. For roughly half of this distance, the twelve-inch line runs just inside the boundary of the tract of land; for the remainder, it runs just outside of the boundary of the tract of land."

"Neither the one-and-a-half-inch line nor the twelve-inch line provides water service to the tract of land."

"The CCN holder owns and operates additional water system infrastructure located outside of, but in proximity to, the tract of land. None of this infrastructure provides water service to the tract of land."

"The CCN holder has not committed or dedicated any facilities or lines to the tract of land for water service."

"The CCN holder has no facilities or lines that provide water service to the tract of land."

"The CCN holder has not performed any acts for or supplied anything to the tract of land."

In summary, there are no facilities in the area to be decertified, nor to the best of my knowledge has Marilee performed acts or supplied any service to the subject area. There is no real property that is owned and utilized by Marilee ("retail public facility") for its facilities within the subject area.

This lack of documentation of specific growth in the CCN area leads to the reasonable conclusion that no growth or development would be expected in the CCN area in the foreseeable future if Marilee were to continue to possess the CCN.

Therefore, it is my opinion that the value for **Factor 1** is \$0.00 associated with real property owned and utilized by the retail public utility.

2A. The amount of the retail public utility's debt allocable for service to the removed area.

Findings:

Similar to Item No. 1 above, Marilee has no facilities and/or customers within the subject area, nor has Marilee performed acts or supplied any service to the subject area. Therefore, it is my opinion that \$0.00 in Marilee's current debt is allocable to this area for **Factor 2A**.

2B. The value of the service facilities of the retail public utility located within the removed area.

Findings:

The Findings of Fact cited above state conclusively that Marilee does not maintain service facilities on the subject area. Therefore, it is my opinion that there is \$0.00 value to be assigned to **Factor 2B**.

2C. The amount of any expenditures for planning, design, or construction of the service facilities that are allocable to service to the removed area.

Findings:

As Marilee did not provide any documentation to the contrary, it is assumed that additional investment and additional action would be necessary to provide and expand the utility's service to the subject area.

Therefore, based on documentation provided and reviewed as part of the filings in Docket No. 52497, and to the best of my knowledge, I have seen no evidence that expenditures associated with the planning, design, or construction of service facilities can be allocable to the area to be decertified. As a result, I have assigned a \$0.00 value to **Factor 2C**.

2D. The amount of contractual obligations allocable to the removed area.

Findings:

As previously stated in the Findings of Fact, Marilee does not have any existing customers or infrastructure located within the subject area.

Therefore, it is unreasonable to allocate any existing contractual obligations to the removed area. As a result, my opinion of value for **Factor 2D** is \$0.00.

2E. Any demonstrated impairment of service or any increase of cost to consumers remaining after the decertification.

Findings:

There are no current customers or facilities within the subject area, and the evidence in Factor 1 leads to the reasonable conclusion that no growth or development would be expected in the CCN area for the foreseeable future if Marilee were to continue to possess the CCN.

Therefore, it is my opinion that there is no evidence of impairment of services and/or increase in costs to the remaining customers of Marilee as a result of decertification. No current customers contribute to fixed cost recovery currently from the subject area, and there is no reasonable expectation of future development that will lead to future customers contributing to fixed cost recovery. As a result, my opinion of value for **Factor 2E** is \$0.00.

2F. The impact on future revenues lost from existing customers.

Findings:

As previously stated, there are no existing customers within the subject area as specifically stated in the Findings of Fact. Therefore, there is no loss of future revenues from existing customers in the area. Given this, my opinion of value for **Factor 2F** is \$0.00.

2G. Necessary and reasonable legal expenses and professional fees.

Findings:

Marilee is entitled to recovery of any necessary and reasonable legal expenses related to its participation in Docket No. 52497, along with professional fees incurred in preparing its determination of compensation.

At this time, I do not have any information regarding any legal expenses or professional fees incurred by Marilee. I recommend that the Commission order Marilee to produce invoice documentation in support of any requested legal expenses and professional fees, as well as specific justification for the reasonableness of such expenses. Based on that evidence provided by Marilee, the Commission should make a determination as to whether Marilee is entitled to reimbursement for legal and professional expenses, and if so, the total amount of such reimbursement.

2H. Any other relevant factors.

Findings:

As indicated in Docket No. 52497, while Marilee may provide service to nearby properties in the vicinity of the property subject to decertification within this proceeding, there are no assets located within the area to be decertified. Marilee would incur additional capital cost to provide service to the subject area.

Marilee is located in northeastern Collin County and southeastern Grayson County and currently gets its water supplies from treated water purchased from Sherman and from the Trinity aquifer. As shown in the 2021 Region C Water Plan Dated November 2020 and prepared for The Region C Water Planning Group, Section 5E, pages 275-276, based on current projections, the Total Projected Demands for Sherman (including current, future direct customers, and GTUA Regional Water System Customers) will exceed its currently available supply by 16,869 ac-ft/year by 2030 within the region. According to the Water Plan, "Water management strategies for Marilee include conservation and additional water from Sherman through the GTUA Regional Water System."

Ms. Natalie B. Scott June 10, 2022 Page | 7

This refutes any argument that capacity in Marilee's existing system including water supply purchases and distribution facilities would be "stranded" or lose value due to the decertification of this portion of the CCN. First, the evidence in Factor 1 leads to the reasonable conclusion that no growth or development would be expected in the CCN area for the foreseeable future if Marilee were to continue to possess the CCN. This undermines any argument that any of Marilee's existing capacity is for the purpose of serving the CCN area. Second, even if this were the case, Marilee could use this capacity to service its expected growth in other areas. Therefore, the investment could not be considered stranded, or dedicated to the CCN area, nor should Marilee be entitled to compensation for this investment.

Selected pages from the Water Plan are included as Appendix B.

Further, I have researched other transactions involving parcels that have been decertified from both water and sewer CCN's. A summary of the transactions is included in **Appendix C**. These transactions date from 2015 through present. The majority of the transactions identified were for decertified parcels that were similar to the circumstances identified in the HC Celina petition and Order Findings of Fact for PUC Docket No. 52497. Many of the transactions involved one or more appraisals as shown on **Schedule 1**. Additionally, some of the transactions did not involve an appraisal as a settlement was reached between the two parties before the appraisal process was begun, as identified on **Schedule 2**. As shown on **Schedule 1** and **Schedule 2**, other than an allowance for "necessary and reasonable legal expenses and professional fees" the vast majority of the transactions identified resulted in a PUC Order of no compensation due.

I am unaware of any other relevant factors to be considered within this proceeding which would merit further analysis for determining just and adequate compensation.

Conclusion

Based upon my analysis, as governed by TWC §13.254(g) and 16 TAC § 24.245(j), and on the Commission's Findings of Fact noted above, it is my opinion that the compensation determination for the streamlined expedited release of the Property from Marilee's CCN is zero dollars (\$0.00), with the exception that Marilee should be allowed to recover any necessary and reasonable legal and professional fees as approved by the Commission.

We appreciate this opportunity to assist you in this matter. If you have any questions, please do not hesitate to contact me at 972.378.6588 or djackson@willdan.com.

Respectfully submitted,

Dan V July

DOCKET NO. 52497

2022 NOR -4 PM 1:27

ORDER

This Order addresses the petition by HC Celina 414, LLC for streamlined expedited release of a tract of land in Collin County from Marilee Special Utility District's service area under certificate of convenience and necessity (CCN) number 10150. For the reasons stated in this Order, the Commission releases the tract of land from Marilee SUD's certificated service area. In addition, the Commission amends Marilee SUD's CCN number 10150 to reflect the removal of the tract of land from the service area.

Following entry of this Order, the Commission will determine the amount of compensation, if any, to be awarded to Marilee SUD, which will be addressed by separate order.

I. Findings of Fact

The Commission makes the following findings of fact.

Petitioner

1. HC Celina 414 is a Texas limited liability company registered with the Texas secretary of state under filing number 803852919.

CCN Holder

- 2. Marilee SUD is a Texas water district and special utility district operating under chapters 49 and 65 of the Texas Water Code (TWC).
- 3. Marilee SUD holds CCN number 10150 that obligates it to provide retail water service in its certificated service area in Collin County.
- 4. Marilee SUD is the successor to Gunter Special Utility District and Gunter Rural Water Supply Corporation.

Petition and Supplemental Filings

- 5. On September 1, 2021, the petitioner filed a petition for streamlined expedited release of a tract of land from the CCN holder's service area under CCN number 10150.
- 6. The petition includes an affidavit, dated August 31, 2021, of Phillip Huffines, petitioner's manager; maps of the tract of land; and a special warranty deed with an effective date of December 30, 2020.
- 7. On October 8, 2021, the petitioner supplemented the petition with higher resolution maps.
- 8. On November 22, 2021, the petitioner filed an amended petition, in which the petitioner clarified the acreage for which its seeks streamlined expedited release.
- 9. In Order No. 5 filed on December 3, 2021, the administrative law judge (ALJ) found the petition administratively complete.
- 10. On February 28, 2022, the Commission Counsel filed a memorandum that requested additional documentation from the parties on the location of meter number 521 and to identify all structures that are served by the meter.
- 11. On March 10, 2022, the petitioner filed a response to the Commission Counsel memorandum. The petitioner provided additional information and a map to demonstrate that meter number 521 is located outside the boundary of the tract of land, that meter number 521 only provides service to a house outside of the tract of land, and that the remaining nearby structures are abandoned or uninhabitable.

Notice

- 12. The petitioner sent a copy of the petition by certified mail to the CCN holder on September 1, 2021.
- 13. The petitioner sent a copy of the amended petition to the CCN holder's legal representative on November 22, 2021.
- 14. In Order No. 5 filed on December 3, 2021, the ALJ found the notice sufficient.

Intervention

15. In Order No. 4 filed on October 13, 2021, the ALJ granted the CCN holder's motion to intervene.

Response to the Petition

16. On December 23, 2021, the CCN holder filed a response to the petition, which includes an affidavit, dated December 21, 2021, of Michael Garrison, the CCN holder's assistant manager; a loan commitment letter dated April 13, 2021; a letter from the United States Department of Agriculture dated July 19, 2021, with attachments; a voting proposition form from the CCN holder dated November 2, 2021; a summary results report of general and special elections held by the CCN holder on November 2, 2021, dated November 8, 2021; an affidavit, dated December 22, 2021, of Eddy Daniel, the CCN holder's engineer of record; an affidavit, dated December 21, 2021, of Chris Boyd, general manager for the Mustang Special Utility District; an active contests options list dated November 2, 2021 for Mustang SUD; a cumulative results report for a Mustang SUD election held on November 2, 2021, dated November 9, 2021.

The Tract of Land

- 17. The petitioner owns property in Collin County that is approximately 413.88 acres.
- 18. The tract of land for which the petitioner seeks streamlined expedited release is a portion of the petitioner's property that is approximately 406.7 acres.
- 19. The tract of land is located within the CCN holder's certificated service area.

Ownership of the Tract of Land

20. The petitioner acquired their property by a special warranty deed dated December 30, 2020.

Qualifying County

- 21. Collin County has a population of more than 47,500 and is adjacent to Dallas County.
- 22. Dallas County has a population of at least one million.

Water Service

- 23. The tract of land is not receiving actual water service from the CCN holder.
- 24. The petitioner has not requested that the CCN holder provide water service to the tract of land.
- 25. The petitioner has not paid to the CCN holder any fees or charges to initiate or maintain water service for the tract of land.

- 26. There are no billing records or other documents indicating an existing account with the CCN holder for the provision of water service to the tract of land.
- 27. The CCN holder operates and maintains an active water meter, meter number 520, that is located just outside the tract of land, and the meter is used to provide water service to an area outside the tract of land.
- 28. The CCN holder operates and maintains an active water meter, meter number 521, that is located outside of the tract of land. Meter number 521 is utilized by the CCN holder to provide water service to a one-story house located outside the tract of land, and it is not used to provide water service to the tract of land.
- 29. The CCN holder owns and operates a one-and-a-half-inch water line that runs parallel to, but just outside of, a portion of the northern boundary of the tract of land.
- 30. The CCN holder owns and operates a twelve-inch water line that runs parallel to a portion of the eastern boundary of the tract of land. For roughly half of this distance, the twelve-inch line runs just inside the boundary of the tract of land; for the remainder, it runs just outside of the boundary of the tract of land.
- 31. Neither the one-and-a-half-inch line nor the twelve-inch line provides water service to the tract of land.
- 32. The CCN holder owns and operates additional water system infrastructure located outside of, but in proximity to, the tract of land. None of this infrastructure provides water service to the tract of land.
- 33. The CCN holder has not committed or dedicated any facilities or lines to the tract of land for water service.
- 34. The CCN holder has no facilities or lines that provide water service to the tract of land.
- 35. The CCN holder has not performed any acts for or supplied anything to the tract of land.

Map and Certificate

36. On January 6, 2022, Commission Staff filed its recommendation that included a certificate and a map on which it identified the tract of land in relationship to the CCN holder's certificated service area.

II. Conclusions of Law

The Commission makes the following conclusions of law.

- 1. The Commission has authority over this petition for streamlined expedited release under TWC §§ 13.254 and 13.2541.
- 2. The petitioner provided notice of the petition in compliance with 16 Texas Administrative Code (TAC) § 24.245(h)(3)(F).
- 3. No opportunity for a hearing on a petition for streamlined expedited release is provided under TWC §§ 13.254 or 13.2541 and, under 16 TAC § 24.245(h)(7), no hearing will be held on such a petition.
- 4. Petitions for streamlined expedited release filed under TWC §§ 13.254 or 13.2541 and 16 TAC § 24.245(h)(7) are not contested cases.
- 5. Landowners seeking streamlined expedited release under TWC §§ 13.254 and 13.2541 and 16 TAC § 24.245(h) are required to submit a verified petition through a notarized affidavit, and the CCN holder may submit a response to the petition that must be verified by a notarized affidavit.
- 6. Under 16 TAC § 24.245(h)(7), the Commission's decision is based on the information submitted by the landowner, the CCN holder, and Commission Staff.
- 7. To obtain release under TWC § 13.2541(b), a landowner must demonstrate that the landowner owns a tract of land that is at least 25 acres, that the tract of land is located in a qualifying county, and that the tract of land is not receiving service of the type that the current CCN holder is authorized to provide under the applicable CCN.
- 8. The time that the petition is filed is the only relevant time period to consider when evaluating whether a tract of land is receiving water service under TWC § 13.2541(b). Whether a tract of land might have previously received water or sewer service is irrelevant.
- 9. A landowner is not required to seek the streamlined expedited release of all of its property.
- 10. The petitioner owns the tract of land that is at least 25 acres for which it seeks streamlined expedited release.
- 11. Collin County is a qualifying county under TWC § 13.2541(b) and 16 TAC § 24.245(h)(2).

- 12. The tract of land is not receiving water service under TWC §§ 13.002(21) and 13.2541(b) and 16 TAC § 24.245(h), as interpreted in *Texas General Land Office v. Crystal Clear Water Supply Corporation*, 449 S.W.3d 130 (Tex. App.—Austin 2014, pet. denied).
- 13. The petitioner is entitled under TWC § 13.2541(b) to the release of the tract of land from the CCN holder's certificated service area.
- 14. After the date of this Order, the CCN holder has no obligation under TWC §13.254(h) to provide retail water service to the tract of land.
- 15. The Commission may release only the property of the landowner from a CCN under TWC § 13.2541(b). The Commission has no authority to decertificate any facilities or equipment owned and operated by the CCN holder to provide retail water service through the streamlined-expedited-release process under TWC § 13.2541(b).
- 16. The Commission processed the petition in accordance with the TWC and Commission rules.
- 17. Under TWC § 13.257(r) and (s), the CCN holder is required to record certified copies of the approved certificate and map, along with a boundary description of the service area, in the real property records of Collin County no later than the 31st day after the date the CCN holder receives this Order.
- 18. A retail public utility may not under TWC § 13.254(d) provide retail water service to the public within the tract of land unless just and adequate compensation under TWC § 13.254(g) has been paid to the CCN holder.

III. Ordering Paragraphs

In accordance with these findings of fact and conclusions of law, the Commission issues the following orders.

- 1. The Commission releases the tract of land identified in the petition from the CCN holder's certificated service area under CCN numbers 10150.
- 2. The Commission does not decertificate any of the CCN holder's equipment or facilities that may lay on or under the tract of land.
- 3. The Commission amends CCN number 10150 in accordance with this Order.

- 4. The Commission approves the attached map.
- 5. The Commission issues the attached certificate.
- 6. The CCN holder must file in this docket proof of the recording required in TWC § 13.257(r) and (s) within 45 days of the date of this Order.
- 7. The proceeding to determine the amount of compensation to be awarded to the CCN holder, if any, commences with the filing of this Order in accordance with the schedule adopted in Order No. 5. Any decision on compensation will be made by a separate order.
- 8. The Commission denies all other motions and any other requests for general or specific relief not expressly granted by this Order.

By These Presents Be It Known To All That

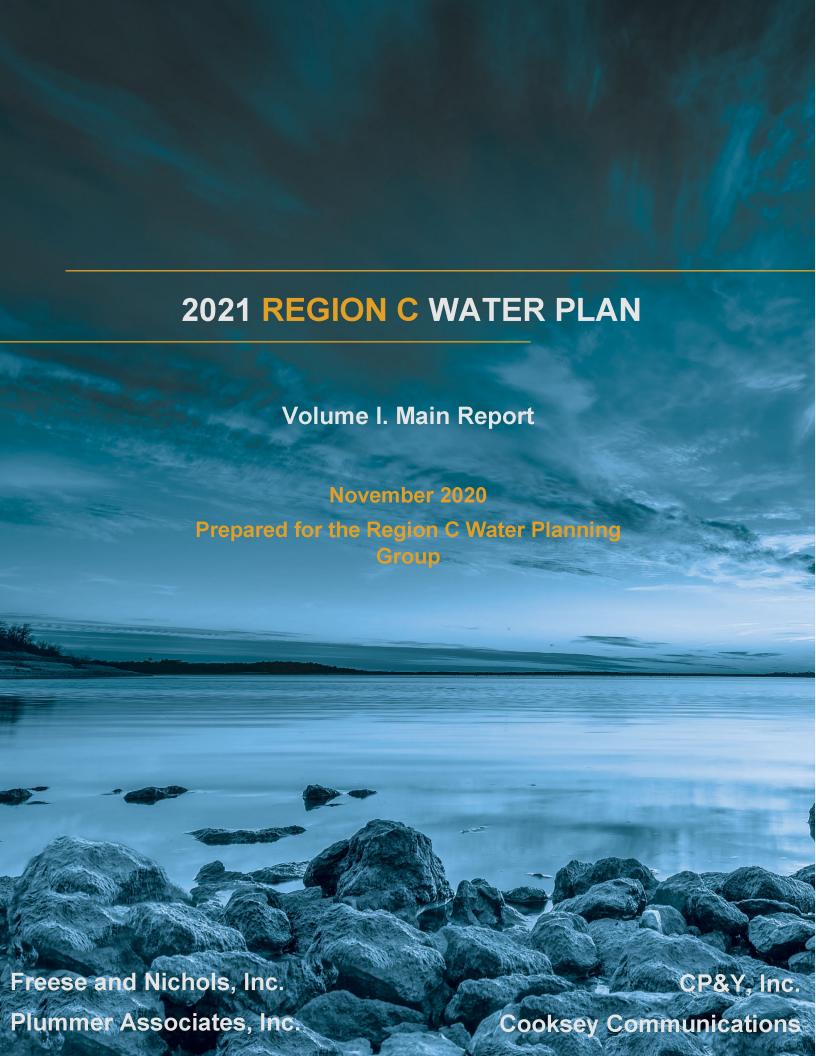

Marilee Special Utility District

having obtained certification to provide water utility service for the convenience and necessity of the public, and it having been determined by this Commission that the public convenience and necessity would in fact be advanced by the provision of such service, Marilee Special Utility District is entitled to this

Certificate of Convenience and Necessity No. 10150

to provide continuous and adequate water utility service to that service area or those service areas in Collin and Grayson Counties as by final Order or Orders duly entered by this Commission, which Order or Orders resulting from Docket No. 52497 are on file at the Commission offices in Austin, Texas; and are matters of official record available for public inspection; and be it known further that these presents do evidence the authority and the duty of the Marilee Special Utility District to provide such utility service in accordance with the laws of this State and Rules of this Commission, subject only to any power and responsibility of this Commission to revoke or amend this Certificate in whole or in part upon a subsequent showing that the public convenience and necessity would be better served thereby.

5D.2.2 Greater Texoma Utility Authority

The Greater Texoma Utility Authority (GTUA) is a political subdivision of the State and is governed by a Board of Directors. GTUA provides its member cities with assistance in financing and construction of water and wastewater facilities. GTUA may also be requested to provide operations services for water and wastewater facilities by member cities and others.

An example of such services is the Collin-Grayson Municipal Alliance (CGMA). The Collin-Grayson Municipal Alliance is a pipeline to deliver water from NTMWD to Anna, Howe, Melissa and Van Alstyne in southern Grayson and northern Collin Counties. **Table 5D.20** lists the projected demands for GTUA and customers.

The GTUA has an existing water right for 83,200 acre-feet per year from Lake Texoma. Of this amount, 11,200 acre-feet per year (limited by the Sherman water treatment plant capacity) is available to existing customers as potable water. Several water users in the surrounding Cooke, Collin, Denton, and Grayson counties have water rights in Lake Texoma but no infrastructure to transport or treat the

supplies. GTUA is currently sponsoring a study to evaluate potential configurations of a Regional Water System to treat and transport these supplies.

To meet the needs of GTUA's current and future demands, the following strategies are recommended:

- Conservation
- GTUA Regional Water System Phase 1
- GTUA Regional Water System Phase 2
- Connection from Sherman to CGMA
- Parallel CGMA Pipeline (NTMWD)

If any of the projects identified in the recommended plan are not implemented, GTUA may wish to pursue an alternative strategy.

The following alternative water management strategy is recommended for GTUA:

 Grayson County Water Supply Project

These strategies are discussed individually below.

Railway Bridge over Lake Texoma

Conservation. Conservation is the projected conservation savings for the GTUA's existing and potential customers, based on the recommended Region C water conservation program. Water savings by the GTUA and customers is projected to reach 4,418 acre-feet per year by 2070.

GTUA Regional Water System (Phase I and II). A regional water system strategy was developed for communities in northern Collin, Cooke, northern Denton and Grayson counties. Several of the entities in this area hold water rights in Lake Texoma but currently do not have access to this resource. This strategy focuses on treating

and connecting these entities to Lake Texoma supplies. Phase One will connect participating entities south of Sherman and Phase Two will connect entities west of Sherman.

Connection from Sherman to CGMA. The proposed connection from Sherman to CGMA plans for 5 MGD peak delivery from Sherman.

Parallel CGMA Pipeline (NTMWD). The proposed parallel pipeline for the CGMA is needed to increase the delivery capacity for the system beyond 16,800 acre-feet per year.

Figure 5D.8 Recommended Strategies for Greater Texoma Utility Authority

^aGTUA has a water right in Texoma for 83,200 acre-feet per year. Currently, they have facilities to use 11,210 acrefeet per year of treated water and 6,163 acre-feet per year of raw water. Use of additional water will require additional facilities.

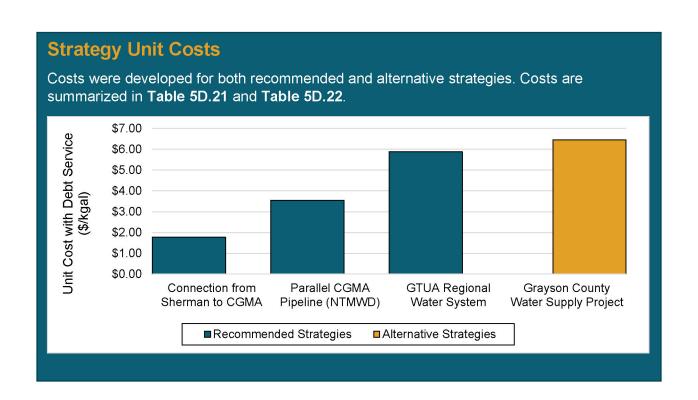

Table 5D.21 Summary of Costs for Recommended Strategies - GTUA

Strategy	Date to be Developed	Quantity for GTUA (Ac- Ft/Yr)	GTUA GTUA Share of (\$/1000 gal) (Ac- Capital Costs With After (5/1/17) Debt Debt			Table for Details

Total GTUA Capital Costs			\$657,965,000			

Marilee Special Utility District

Marilee SUD is located in northeastern Collin County and southwestern Grayson County. The SUD currently gets its water supplies from treated water purchased from Sherman and from the Trinity aquifer. Water management strategies include conservation and additional water from Sherman through the GTUA Regional Water System. **Table 5E.212** shows the projected population and demand, the current supplies, and the water management strategies for Marilee SUD.

Mustang Special Utility District

Mustang SUD is located in northeastern Denton County and Grayson County. The SUD is a wholesale water provider, and the discussion of its water supply plans is under Denton County in **Section 5E.4.**

Sherman

Sherman is the largest city in Grayson County and is located in the center of the county. Sherman is a wholesale water provider (WWP) that provides water to Grayson County Steam Electric Power, Grayson County Manufacturing, Grayson County Other, Dorchester and Marilee Special Utility District.

In the future, Sherman is assumed to treat water for other water suppliers in Collin, Grayson, Denton, and Cooke Counties through their own Texoma supplies, the GTUA Regional Water System and the existing Collin-Grayson Municipal Alliance (Anna, Howe, Melissa and Van Alstyne).

Several water users in the county plan to participate in the GTUA Regional Water System. Several entities hold water rights in Lake Texoma but currently do not have access to this resource. The GTUA Regional Water System strategy would make additional supplies available by treating Lake Texoma water and delivering to these WUGs. The strategy assumes that supplies will be transported to and then treated at the existing Sherman WTP. Details on the GTUA Regional Water System are discussed further in **Appendix G**.

Sherman uses groundwater from the Trinity and Woodbine aquifers and water from Lake Texoma purchased from the Greater Texoma Utility Authority. Sherman's existing water treatment plant has a peak capacity of 20 MGD and is capable of treating the high TDS levels from Lake Texoma without needing to blend with other sources. There are sufficient supplies in Lake Texoma to meet needs for Sherman and its customers over the planning period. Recommended water management strategies include expanding the existing treatment plant and the necessary raw water delivery infrastructure. Planned WTP expansions will be located at the existing site.

Table 5E.218 shows the projected demand, the current supplies, and the water management strategies for Sherman.

5E.8.2 Summary of Costs for Grayson County

Table 5E.228 summarizes the costs of the water management strategies recommended for the WUGs and WWPs who have the majority of their demand located in Grayson County. Total quantities from Table 5E.228 will not necessarily match total county demands. This is due mainly to water users whose sum of strategies results in a reserve as well as due to water users located in multiple counties (or wholesale water providers who develop strategies and then sell water to users in other counties). Quantities from infrastructure projects needed to deliver and/or treat water (shown in gray italics) are not included since the supplies are associated with other strategies. To avoid double-counting quantities of supplies, the quantities in gray italics are not included in the total.

The majority of the future supplies needed to meet demands within Collin County are projected to come through purchases from wholesale water providers and the GTUA Regional System Project. Other strategies include conservation and groundwater.

Table 5E.229 summarizes the recommended water management strategies within Grayson County individually. Alternative strategies are also included. More detailed cost estimates are located in **Appendix H.**

Table 5E.228 Summary of Recommended Water Management Strategies for Grayson County

Type of Strategy	Quantity (Ac-Ft/Yr)	Capital Costs
Conservation ^a	4,491	\$2,036,218
Purchase from WWP	28,114	\$0
Additional Infrastructure	45,167	\$543,531,000
Groundwater	790	\$10,214,000
Total	33,395	\$555,781,218

^aThe conservation quantities represent the sum of the individual water user groups who have the majority of their service areas located in the county, not the total conservation in the county.

Rainbow Bridge — Fiction — Mirador Publishing

36 Years' Experience

Dan V. Jackson. M.B.A.

Vice President and Principal in Charge

Mr. Jackson has 35 years of experience as an international financial expert, having completed more than 400 water, wastewater, electric, gas, solid waste and stormwater rate/cost of service studies and long-term financial plans for clients in the USA and the Pacific region. He also has served as an expert witness in state court, federal court and before several public utility commissions. Mr. Jackson's prior experience includes positions with Deloitte and Touche, Reed-Stowe & Company and Arthur Andersen. In 1997, Mr. Jackson co-founded Economists.com LLC, an international consulting firm with offices in Dallas and Portland, Oregon. Willdan acquired Economists.com in 2015, and Mr. Jackson now serves as Vice President and Managing Principal. Mr. Jackson has given dozens of lectures and presentations before professional associations. He is also an accomplished author; his award-winning novel Rainbow Bridge is now available in bookstores and on Amazon.com and bn.com.

His experience is summarized below.

Water/Wastewater – Rate Studies and Long-Term Financial Plans for which Mr. Jackson served as Project Manager
