

## Filing Receipt

**Received - 2022-03-17 05:15:22 PM**  
**Control Number - 52667**  
**ItemNumber - 63**

**Cooke County Electric Cooperative Association  
d/b/a Pentex Energy  
PUC Project 52667  
HB 4150 Compliance Update**

Pentex Energy filed an affidavit on PUC Project #52667 – Filing of Attestation Demonstrating Compliance with HB 4150. The affidavit has a date of January 4, 2022.

- Pentex Energy owns two (2) distribution lines over a lake listed in PURA § 38.004(b).
  - Hubert M Moss Lake, Cooke County
    - Sivells Bend 1204 over south inlet Moss Lake
    - Sivells Bend 1204 over north inlet Moss Lake

Progress report and other documentation follows for these two distribution lines.

## Sivells Bend 1204 over south inlet Moss Lake

Progress Report: This project was completed on January 27, 2022.

Permitting: No permits were required.

Mapping: See following page.

Job Specifications:

- The project (WO 051944) was designed in Fall 2021. The project was staked on November 30, 2021.
- Construction on the project began on January 11, 2022.
- Work was completed on January 27, 2022.
- Eleven (11) wood distribution poles were replaced to increase the clearance.

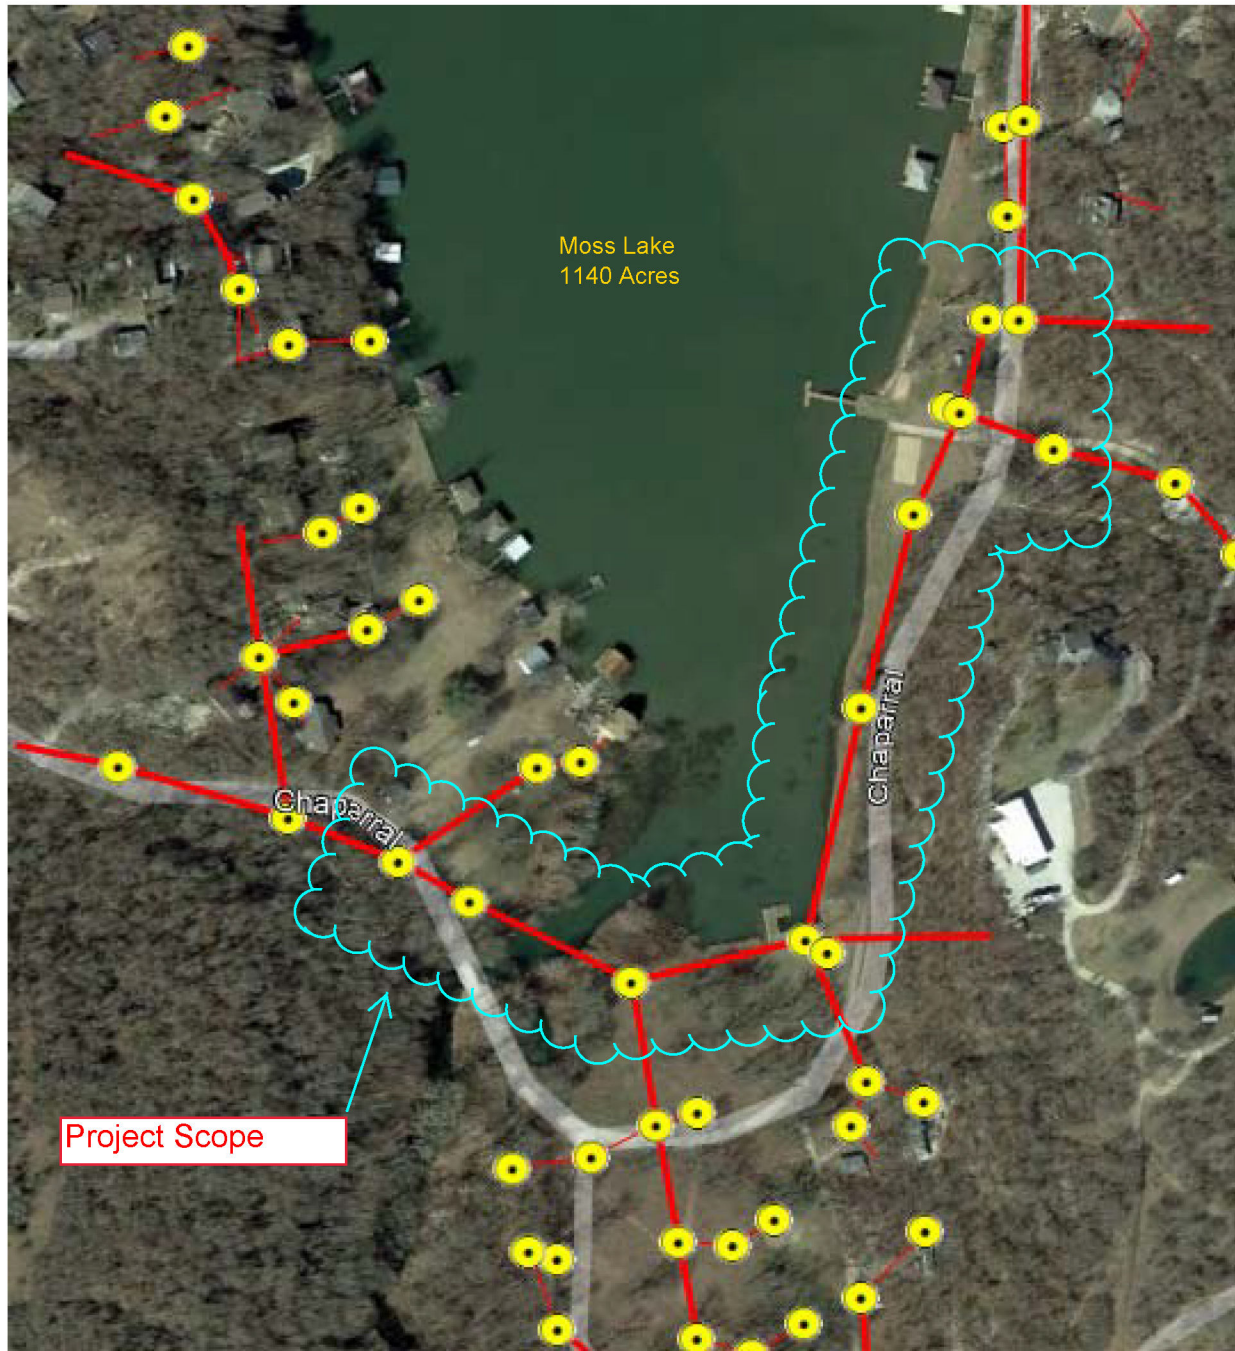

Measures taken to inform public:

- No communication measures were needed.
- The poles and distribution lines are located over land or in areas where sailboating is not suitable except during periods of flooding.
- Pentex was prepared to de-energize the electric lines should flooding take place before the project was completed.
