Re: New Second Circuit from San Miguel to Palmito

Commissioner Cobos:

Per your request, Electric Transmission Texas, LLC (ETT) is providing additional information relating to the double-circuit 345-kV transmission lines that run from San Miguel to Palmito with one circuit currently installed at most locations. As previously indicated, ETT does not need an additional certificate of convenience and necessity (CCN) to construct the additional circuit on its portion of the project. The electric utilities involved in these transmission line CCN applications filed for the approval of a 345-kV double-circuit transmission line with one circuit initially installed in PUC Docket Nos. 33033, 40728, and 41606 and the Commission approved all three CCN applications.

- Docket No. 33033, *Joint Application of AEP Texas Central Company and South Texas Electric Cooperative Inc. to Amend a Certificate of Convenience and Necessity (CCN) for a Double Circuit 345-kV Transmission Line in Atascosa, McMullen, La Salle, and Webb Counties, Texas*
- Docket No. 40728, *Application of Electric Transmission Texas, LLC to Amend its Certificate of Convenience and Necessity for the Proposed Lobo to Rio Bravo to North Edinburg 345-kV Double-Circuit Transmission Line in Webb, Zapata, Jim Hogg, Brooks, Starr, and Hidalgo Counties, Texas,*
- Docket No. 41606, *Joint Application of Electric Transmission Texas, LLC and Sharyland Utilities to Amend Their Certificates of Convenience and Necessity for the North Edinburg to Loma Alta Double-Circuit 345-kV Transmission Line in Hidalgo and Cameron Counties, Texas*

If you have any questions, please feel free to contact me at kmfox@aep.com.

Sincerely,
