RE: July 29, 2021 Open Meeting – Item No.28

As our state enters the hottest days of the summer, it is important that the Commission and public receive grid reliability updates from ERCOT for the remainder of the summer. Therefore, I am requesting that ERCOT provide a grid reliability update, including information about anticipated electricity demand, renewable generation performance, and generation outages, at the July 29, 2021, August 19, 2021, and September 2, 2021 open meetings. Finally, I am also requesting that ERCOT provide the Commission and public with a recap of this summer's grid reliability performance at the October 7, 2021 open meeting.
