Chairman Lake and Tara,

We just filed the attached in Docket 52689, for the Interim Winter Load Management Programs. We wanted to respond to the questions that Chairman Lake asked at the open meeting regarding costs of the proposed Interim Load Management Programs vs. ERS and procuring resources in the energy market.

We hope this answers the Chairman's questions. We'd love to have a quick call to answer further questions. We may be in a better position than the utilities to discuss the interaction between the Winter Programs and ERS.

Best,
Allison
