Austin, Texas 7811-3366

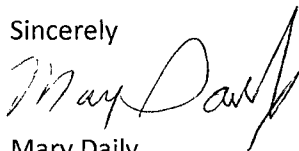

As homeowners for over 30 years in Del Lago we have had extremely high water bills and lack of service.

We are protesting this request for the sale of the water and sewer facilities to Undine Texas
Enviornmental, LLC and higher rates.

It is bad enough there is no back up generator for the water and sewer facilities serving 289 connections
let alone paying extremely high rates for years.

This will put many homeowners in a difficult position with the extra cost.

Sincerely

Mary Daily
