TO: Public Utility Commission of Texas

Greetings,

I am requesting an intervention in regards to the proposed transaction between Terra Southwest Inc. and Undine Texas LLC.

The sale is fine but not the new rates.

- ① The new rate is app 66% higher and is pretty much criminal.
- ② The new rate is this:
2000 gal = \$55.75
(my B.I. last month was 4000 gal for \$35.45) 5000 gal = \$62.98
10,000 gal = \$78.71

So..... Does this mean if I use 2001 gal the price will be \$62.98?

- ③ Shouldn't the price be per gallon? We do have meters.
- ④ Why should we pay such prices for water that is unfit to consume? (We use a faucet filter and a pitcher filter for cooking & drinking)

Please intervene for us and Thank you for your help.
