Dear Public Utility Commission,

Mr. Letter is in concern of

the buy out of Terra Southwest Inc. to Windline

Terra, LLC. Well good for Windline Terra.

My concern is the rate increase. Most of the

people in my area are on a fixed income and

retired. My wife and I are also. For the past

20 plus years our average water bill has been

\$ 35.00 dollars. That includes base price and

usage. What I saw on the Windline website

is a base price of over \$46.00. That's about

a 32% increase. That's unreal and unjustified.

Please consider the rate increase and do some-

thing.

Thank you,

Dorey Nancy Frankham
