In advance of the January 27, 2022 open meeting, I filed a memo supporting the advancement of Nodal Protocol Revision Request (NPRR) 1092, *Reduce RUC Offer Floor and Remove RUC Opt-Out Provision*. Since then, ERCOT's Technical Advisory Committee (TAC) has engaged in substantial discussions around the policy points I addressed, but ultimately decided to table NPRR 1092. I appreciate the robust discussion that the memo generated among stakeholders.

Given the importance of NPRR 1092, I think the policy positions of TAC members should be fully and comprehensively articulated in written comments submitted to ERCOT. This will help develop a record to aid in the deliberative process as NPRR 1092 moves toward consideration by the ERCOT Board.

I look forward to discussing this with each of you at tomorrow's open meeting.
