**ORDER NO. 4  
REQUIRING CLARIFICATION**

This Order addresses the need for clarification regarding Quadvest LP's January 4, 2022 application for a pass-through rate change.

In the tariff filed by Commission Staff on March 2, 2022, the tariff states on page four, "Each pass through pass through gallonage charge is represented in the table below and is applicable only to the subdivisions and public water systems listed in the table on tariff pages 2 and 3." According to the table of public water systems in the tariff, the North Fort Bend Water Authority pass-through gallonage change applies to the Brazos Lakes, Lake Pointe Estates, and Vacek Country Meadows subdivisions. However, in its application, Quadvest stated that the North Fort Bend Water Authority pass-through rate change would only affect customers in the Brazos Lakes and Lake Pointe Estates subdivisions.

By March 23, 2022, the parties must clarify whether the requested pass-through rate change would affect customers in the Vacek Country Meadows subdivision. If the requested pass-through rate change would affect customers in the Vacek Country Meadows subdivision, Quadvest must also clarify whether notice was provided to said customers. If the requested the pass-through rate change would not affect customers in the Vacek Country Meadows subdivision, Commission Staff must file a revised tariff by March 30, 2022.
