1701 N. Congress Ave.
Austin, TX 78701

First Name: ANDREW Last Name: BONGIANNI
Phone Number: 631-678-2537 Fax Number: _____
Address, City, State: SIS DEER CANYON WAY Princeton TX 75407
Email Address: andrewb927@gmail.com

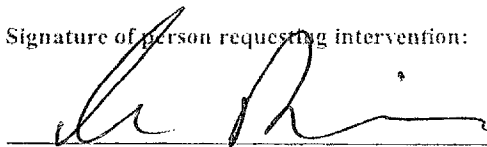

I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☐ Other. Please describe and provide comments. You may attach a separate page, if necessary.

Signature of person requesting intervention:

REF: 53053

PUC Administrator,

My name is Andrew R Bongiani, my wife and I live at:
515 Deer Canyon Way
Princeton Texas 75407

We are requesting to intervene regarding the installation of the proposed transmission lines from the Ivy League substation to be erected along the G-2 and G-1 locations according to figure 2 of the detailed route description maps.

As a property owners in this location, we find this proposal does not consider our community and the park and trails that we enjoy. This project will destroy that space for our children and the ecosystem that thrives there. When we purchased our home in this neighborhood, there were no discussions or proposals that our cherished parks would be destroyed by giant towers that not only ruin our precious landscape but will destroy our property values. There are many open and undeveloped spaces here in Princeton that would be more suitable to your needs to extend power to the community. Spaces that when are developed, the potential buyer will already know about the existence of these enormous structures and are willing to live near them.

We as a community are not willing to have these structures destroy our children's areas to play and ride.

Please take this into consideration when making your final decision.

Sincerely,

Andrew & Tracy Bongiani
