PUBLIC UTILITY COMMISSION OF TEXAS
APPROVED
FEB 8 '83 DOCKET
W-140-2 BY _____
TARIFF CLERK

TO BECOME EFFECTIVE, THIS PAGE MUST BE STAMPED "APPROVED" OR "RECEIVED" BY THE PUBLIC UTILITY COMMISSION.

"Rates" include ALL charges, such as tap fee, reconnect fee, disconnect fee, returned check charge, etc., in addition to charges for monthly service.

To revise a tariff on file with the Commission, use the proper initial in the right-hand column, as follows:

NC-No Change; C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate Reduction; T-Change in text, but no change in rate or regulation

Mail the tariff to the Commission for approval. List the Revision Number _____. The Commission will review it, stamp and return it, or request additional information if needed.

SECTION B SERVICE RULES AND REGULATIONS

BILLING: Bills shall be rendered monthly (unless the Commission has specifically authorized otherwise) and shall show sufficient information to enable a customer to readily compute his own bill with a rate schedule (which must be furnished upon request). Among the items required to be shown on each bill are: amount of water used, applicable rate schedule title or code, total amount due, and date by which the bill must be paid (not less than 15 days after issuance). A penalty cannot be added to a delinquent residential customer bill.

SERVICE REFUSAL: If state and local regulations have been met, a service request can be refused only if: applicant has refused to make a deposit (if required), has an existing water utility debt which is not in dispute, or, an installation would be hazardous or unsuccessful. A debt or delinquency of a previous occupant cannot be used against an applicant for service or a customer.

SERVICE DISCONTINUANCE: A customer may be disconnected, after at least a 7 day personal notice in writing, only for the following: a bill unpaid more than 15 days after issuance unless a deferred payment agreement is signed; a willful violation of a utility usage rule which interferes with the service of others; failure to comply with deposit or guarantee arrangements; failure to comply with terms of a deferred payment agreement; and, bypassing or tampering with a utility meter. No one may be disconnected for failure to pay for non-utility merchandise or service provided by a utility. A service may be disconnected without notice only for the duration of a known dangerous condition. Complete records of any service interruptions must be kept by the utility.

The day of a disconnection and the following day must be days when personnel of the utility are available to the public for making collections and reconnections, unless the date of disconnection is at customer request. A utility may not abandon a customer of a certificated service area without the approval of the Public Utility Commission. Problems resulting from estimated billing or underbilling due to faulty metering or misapplication of rates are addressed in the Substantive Rules of the Commission.

METERS: Unless the Commission has specifically authorized otherwise, each utility shall provide, install, own and maintain meters to measure amounts of water consumed by its customers. Upon request a customer may have his meter tested without charge in his presence at a convenient time

TO BECOME EFFECTIVE, THIS PAGE MUST BE STAMPED "APPROVED" OR "RECEIVED" BY THE PUBLIC UTILITY COMMISSION.

To revise a tariff on file with the Commission, use the procedure in the following column, as follows:

NC-No Change; C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate Reduction; T-Change in text, but no change in rate or regulation

Mail the tariff to the Commission for approval. List the Revision Number BY The Commission will review it, stamp and return it, or request additional information

SECTION B SERVICE RULES AND REGULATIONS

(during normal working hours). A charge not to exceed \$15.00 may be assessed for an additional requested test within four years of the first test if any such additional test shows the meter to be accurate. Records of all meters and tests must be properly kept by the utility, and no meter may be placed in service until its accuracy has been established.

APPLICANT DEPOSIT: Permanent residential applicants shall not be required to make a deposit if they can demonstrate a satisfactory credit rating, furnish a satisfactory guarantee, show substantial equity ownership, had been a water utility customer for one of the two previous years with but one delinquency and no disconnections for unpaid bills, or, are 65 years or older with no unpaid bill from any water utility.

A deposit may be required of temporary, weekend or seasonal residential customers if deposit policy is applied in a uniform and nondiscriminatory manner. A commercial customer may be required to pay a deposit if credit is not satisfactorily established. If disconnected for an unpaid bill, to be reconnected an applicant must pay all amounts due or execute a deferred payment agreement and establish credit.

The utility must keep a record of each deposit, issue a receipt for it, and pay at least 6% annual interest thereon. The amount of a deposit may not exceed 1/6 of an estimated annual bill for that customer. Refund of a deposit plus accrued interest shall promptly and automatically be made to residential customers who have paid service bills for 12 consecutive months without having service disconnected for nonpayment of a bill and without having more than two occasions in which a bill was delinquent and when the customer is not delinquent in the payment of current bills, and to commercial and industrial customers who have paid bills for service for 24 consecutive months without having service disconnected for nonpayment of a bill and without having more than two occasions in which a bill was delinquent and when the customer is not delinquent in the payment of the current bills. Failure of either a residential, commercial or industrial customer to meet these refund criteria permits the utility to retain the deposit and any interest which may have accrued.

NC-No Change; C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate Reduction; T-Change in text, but no change in rate or regulation

Mail the tariff to the Commission for approval. List the Revision Number _____. The Commission will review it, stamp and return it, or request additional information if needed.

SECTION C EXTENSION POLICY

No contribution in aid of construction may be required of any customer except as provided for in the following extension policy, which must be a consistent, non-discriminatory policy which is subject to the approval of the Commission.

- (1) Customers residing in service area that are capable of being served by the existing distribution system or that can be served by addition of fifty (50) linear feet of service pipe shall pay NO additional fees. Fees charged shall be in accordance with those stated in rate schedule, section A.
- (2) Customers residing in the service area that are capable of being served by modifying the distribution system by means of additional construction consisting of new supply lines farther than fifty (50) feet from the existing distribution system shall be required to pay for the actual cost of construction beyond the fifty (50) feet to the point of his service connection. All other fees charged shall be in accordance with Section A rate schedule.

BULK METER FEES

Deposit	Cost of flush valve meter installation
Cost of water per thousand gallons	Same rate as Member

WEST BELL COUNTY WATER SUPPLY CORPORATION
EXISTING & CONSERVATION RATES
(Revised December 14, 2015)

EXISTING RATES:

0	gallons	\$25.00 monthly minimum
0 to 10,000		4.20 per thousand gallons
10,000 to 30,000		4.40 per thousand gallons
over 30,000		4.70 per thousand gallons

CONSERVATION RATES: (Effective during Mandatory Water Rationing)

0	gallons	\$25.00 monthly minimum
0 to 10,000		4.20 per thousand gallons
10,000 to 20,000		4.40 per thousand gallons
20,000 to 30,000		4.70 per thousand gallons
30,000 to 50,000		6.00 per thousand gallons
over 50,000		10.00 per thousand gallons

WATER RATIONING

If the Corporation has to implement mandatory water rationing, Members will be notified of the rationing schedule and rates in writing. Water rationing will be ***enforced*** by the following methods:

- A. First Violation - Corporation shall notify the Member of violation in writing to include consequences of second violation.
- B. Second Violation - Corporation may terminate service at the meter. The normal reconnect fee of \$60.00 will apply for restoration of service.

The rate schedule and water rationing are part of the Corporation's "Water Conservation and Emergency Water Demand Management Plan" which is required by the Texas Commission on Environmental Quality, the governing body of public water systems. The intent of the conservation rates and water rationing programs is to **conserve water**.

NOTICE TO ALL CUSTOMERS

Rate Increase:

Central Texas WSC (water supplier) will increase the cost of water per 1,000 gallons effective January 2016. This increase impacts not only West Bell County WSC but fifteen other water providers in the Central Texas area.

The reason for the rate increase is to fund the cost of expanding the current infrastructure, the 85% capacity regulations enforced by Texas Commission on Environmental Quality (TCEQ), and the exploration of new water sources.

West Bell County WSC's last rate increase was August 2014. Therefore, due to the increase cost of purchasing water to supply West Bell County WSC's customers as well as the rising cost of living, the Board of Directors' voted December 14, 2015 to increase the rate per 1,000 gallons. There will be no increase in the monthly minimum of \$25.00. This rate increase will meet the needs of West Bell County WSC and keep the corporation financially strong.

NEW RATE STRUCTURE EFFECTIVE JANUARY 2016 BILLING

Base Minimum	\$ 25.00
0 – 10,000 gallons	\$ 4.20 per 1,000 gallons
10,000 – 20,000 gallons	\$ 4.40 per 1,000 gallons
Over 30,000 gallons	\$ 4.70 per 1,000 gallons

~~ Example of the Cost Increase to Customers ~~

<u>Customer Usage</u>	<u>Old Rate</u>	<u>New Rate</u>
0 usage	\$ 25.00	\$ 25.00
10,000 gallons	\$ 66.00	\$ 67.00
30,000 gallons	\$ 148.00	\$ 155.00
50,000 gallons	\$ 240.00	\$ 247.00

West Bell County WSC's water tariff has been revised to reflect the above changes and is on file with the Public Utility Commission.

RE: Updated Water Tariff - CCN 10045

TO WHOM IT MAY CONCERN:

Per a conversation with Central Records on March 3, 2015, it was verified that TCEQ transferred West Bell's Water Tariff to the PUC. However, the last update to the tariff was not included in the transfer.

Therefore, please find enclosed the July 2014 update to West Bell County WSC's Water Tariff. The update consisted of: Pages 36 -37 - Section G – Rates and Service Fees and Page 38 – Existing & Conservation Rates.

If you have any questions or further information is needed contact our office.

Thank you,

Karen Dunn
