The attached Service Rules are part of this tariff.

CUSTOMER NOTICE: THIS UTILITY SERVICE PROVIDER IS EXEMPT FROM MANY OF THE REQUIREMENTS OF TEXAS NATURAL RESOURCE CONSERVATION COMMISSION (TNRCC) FOR UTILITIES, BUT IT STILL MUST COMPLY WITH THESE SERVICE RULES. THE COMMISSION WILL NOT REVIEW RATE CHANGES UNLESS PROTESTED BY AT LEAST 50% OF THE CUSTOMERS WITHIN 90 DAYS AFTER THE EFFECTIVE DATE OF THE RATE CHANGE.

REQUIRED SERVICE RULES AND REGULATIONS FOR EXEMPT UTILITIES

Rate Changes - Rates can be changed no more frequently than twice per year. Customers will be given a notice of rate change which states the effective date of the rate change, the old rates, the new rates, the Commission's address and a statement that written protests can be submitted to the Commission.

Application for and Provision of Water Service

All new applicants will be given a copy of this Exempt Utility Tariff.

Where service has been disconnected for nonpayment of a bill, service will be reconnected within one working day after the customer has met the requirements for reconnection.

The customer will be responsible for furnishing and laying the necessary customer service line from the utility's point of connection on the customer's property to the place of consumption. Customers may be required to install a customer owned cut-off valve on the customer's side of the meter or connection.

Refusal of Service

This exempt utility is not required to have a designated service area and is not obligated to serve every applicant for service but is required to provide service in a nondiscriminatory manner.

Customer Deposits

Refund of deposit - If service is not connected, or after permanent disconnection of service to a customer, the utility will promptly refund, within 30 days, the customer's deposit or the balance, if any, in excess of the unpaid bills for service furnished.

Meter Requirements, Readings, and Testing

One meter or connection may be required for each customer. The exempt utility will, upon the request of a customer, and, if the customer so desires, in his or her presence or in that of his or her authorized representative, make a test of the accuracy of the customer's meter. The test may be made using a container of known volume. A meter test will cost NA. Following the completion of any requested test, the utility will promptly advise the customer in writing of the results. If the meter is in error by more than 3% the meter should be replaced at the utility's expense. Meters will be read at NA (preferably monthly) intervals.

Billing

Bills from the utility will be mailed at intervals specified in the service agreement. The due date of bills for utility service will be at least sixteen (16) days from the date of issuance. The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the utility will constitute proof of the date of issuance. Payment for utility service is delinquent if full payment, including late fees, is not received at the designated payment location by 5:00 p.m. on the due date. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next work day after the due date.

Late Fee - A late penalty may be charged (if listed on the tariff) on bills received after the due date. The utility must maintain a record of the date of mailing to charge the late penalty.

REQUIRED SERVICE RULES AND REGULATIONS FOR EXEMPT UTILITIES (Cont.'d)

Each bill will provide at least the following: The total amount due for water service, the due date of the bill and a telephone number (or numbers) for customers to call if they have questions.

Metered Service - If service is metered the bill must also state the date and reading of the meter at the beginning and end of the period for which the bill is rendered, and the numbers of gallons consumed.

Disputed Bills - In the event of a dispute between a customer and a exempt utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. Service will not be terminated during the time of the investigation if any undisputed amounts are paid.

Service Disconnection

Utility service may be disconnected if the bill has not been paid in full or if disputed, the undisputed amount paid, by the date listed on the disconnection notice. The disconnection date must be at least 10 days after the notice is mailed or hand delivered.

The exempt utility is encouraged, but not required, to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 26 days from the date of issuance of a bill and if proper notice of disconnection has been given.

Notice of disconnection must be a separate mailing or hand delivery.

Utility service may also be disconnected without notice if an imminent hazard to the utility system exists.

The utility is required to reconnect service after a customer who has been disconnected for nonpayment pays a delinquent bill and any other applicable fees in accordance with this tariff and any applicable service agreement. The utility may permanently disconnect service to an existing customer only if authorized to in writing by the executive director of the TNRCC or his designated representative and after notice has been issued.

Reconnection of Service

Service will be reconnected within 24 hours, unless otherwise stated on the service agreement, after the past due bill, reconnection fee and any other outstanding charges are paid or correction of the conditions which caused service to be disconnected.

Service Interruptions

The utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the utility will re-establish service within the shortest possible time.

Quality of Service

The utility will provide properly treated and disinfected water and facilities with sufficient pressure and capacity for reasonable consumer uses unless otherwise stated on the service agreement.

Standard Extension Requirements

All practices and policies related to the extension of service to new applicants or restoration of service must be reasonable and nondiscriminatory.

Specific Utility Rules (May not conflict with Commission required Rules. Attach additional pages if needed.)
