SECTION 3.0 - EXTENSION POLICYSection 3.1 Standard Extension Requirements Under Texas Water Commission Substantive Rules

The utility adopts as its extension policy the applicable Substantive Rules of the Texas Water Commission. A copy of the Commission's Substantive Rules shall be maintained in the utility's business office and shall be available for inspection along with this tariff. A copy of the Commission's Condensed Substantive Rules is included herein as Appendix B.

Section 3.2 - Specific Utility Extension Policy

When an individual residential applicant requires an extension of a main line beyond 200 feet, the charge to that applicant shall be the actual cost of such extension in excess of 200 feet, plus the applicable tap fee.

When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge based upon the capacities of production, transmission, storage, pumping and treatment facilities which must be committed to such extension.

Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction for the actual costs of any additional facilities required to maintain compliance with the Texas Department of Health minimum design criteria for water production, treatment, pumping, storage and transmission.

TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A TEXAS WATER COMMISSION FILING STAMP.

SECTION 4.0 - EMERGENCY RATIONING PROGRAMSection 4.1 - General Provisions

A. Declaration of Emergency

When system demand exceeds production or storage capability measured over a 24-hour period, and refilling the storage facilities is rendered impossible, the utility may declare an emergency to exist, and thereafter ration water in the following manner:

B. Notice Requirements

Written notice of the proposed rationing shall be mailed or delivered to each customer 72 hours before the utility actually starts the program, and shall also be placed in a local newspaper. The utility shall send a copy of the customer notice to the Texas Water Commission at the same time notice is sent to the customers. The customer notice shall contain the following information:

1. The date rationing shall begin;
2. The date rationing shall end;
3. the stage (level) and explanation of rationing to be employed;
4. explanation of penalties for violations

C. Violation of Emergency Rationing Rules:

- (1) Upon first violation the utility may install a flow restricter in the line to limit the amount of water which will pass through the meter in a 24-hour period. The cost to be charged to the customer's account shall be the actual installed cost to the utility, not to exceed \$50.00.
- (2) Upon subsequent violations the utility may terminate service at the meter for a period of seven (7) days, or until the end of the calendar month, whichever is LESS. The normal reconnect fee of the utility shall apply for restoration of service.

TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A TEXAS WATER COMMISSION FILING STAMP.

Changes indicated in the right-most column are as follows:

SYSTEM 200

D. Exemptions or Variances from Rationing Rules:

The utility may grant any customer an exemption or variance from the uniform rationing program for good cause. In such event, the utility shall notify the Texas Water Commission within 24 hours of such exemption or variance, stating the name, address and cause for the affected customer.

A customer who is refused an exemption or variance may appeal such action of the utility by written appeal to the Texas Water Commission. The utility shall treat all customers equally concerning exemptions and variances, and shall not employ discrimination in such grants.

E. Rates

All existing rates shall remain in effect during the rationing period. No charges may be levied against a customer which are not contained in the approved tariff of the utility as filed with the Commission.

The purpose of the Emergency Water Rationing Program is to conserve the total amount of water demanded from the utility until supply can be restored to normal levels. This rationing program shall not exceed sixty (60) days without written approval of the Texas Water Commission.

Section 4.2 - Stage Levels of Rationing

A. Stage I (Mild Rationing Conditions):

Usage of water for outdoor purposes such as lawns, gardens, car washing, etc. will be restricted to specified days, as determined by the customer's street address, and to specified hours on said days. The specific days and hours during which outdoor water use is permitted for each street address shall be provided to each customer and to the commission along with notice of the imposition of Stage I rationing.

B. Stage II (Moderate Rationing Conditions):

All outdoor water usage is prohibited; however usage for livestock is exempt.

TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A TEXAS WATER COMMISSION FILING STAMP.

Changes indicated in the right-most column are as follows:

FILMED
MAR 27 1987
SYSTEM 200

C. Stage III (Severe Rationing Conditions):

All outdoor water usage is prohibited. Livestock may be exempted by the Utility. All consumption shall be limited to each customer in one of the following ways:

- (1) A fixed percentage of each customer's average use in the prior month, the percentage to be uniformly applied on a systemwide basis, each customer being notified of this percentage amount, OR;
- (2) A maximum number of gallons per meter (customer) per week, with notice to each customer of this number.

All meters shall be read as often as necessary to ensure compliance with this program, for the benefit of all customers.

TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A TEXAS WATER COMMISSION FILING STAMP.
