TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A PUBLIC UTILITY COMMISSION FILING STAMP.  
If any item of a tariff on file with the Commission is proposed to be changed, use the proper initial in the right-hand column, as follows:

C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate reduction; T-Change in text, but no change in rate or regulation

and mail it to the Commission for a filing stamp. List the Revision Number \_\_\_\_\_.  
The Commission will review it, stamp and return it, or send a tariff change form for more data (all public notice provisions on the tariff change form must be followed).

SECTION B SERVICE RULES AND REGULATIONS

SAN PEDRO CANYON WATER COMPANY is operating under the Rules and Regulations for Public Water Systems by the Texas Department of Health Resources, Environmental Engineering Division, Domestic Water Supply Branch and Texas Public Utility Commission.

T

We reserve the right to refuse service to anyone not complying with our regulations or failing to pay for water charges.  
(as stated in our approved tariff)

No direct connections with residential wastelines will be allowed which might cause siphoning of wastes into and contaminating water mains.

Connections to Water Mains will be made by SAN PEDRO CANYON WATER COMPANY from the main to the customers' property line. A charge not to exceed \$225.00 will be made for this payable in advance. SAN PEDRO CANYON WATER COMPANY will extend a 3/4" galvanized pipe approximately 3 feet into customers' property with cut-off valve for customer and one faucet and tee on end of line for extension of service to residence and will install meter and meter box.

T  
T  
T-I  
T

A Reconnect Fee of \$10.00 will be charged to the customer in order to restore service discontinued in accordance with the rules and regulations of the Texas Public Utility Commission.

C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate reduction; T-Change in text, but no change in rate or regulation

and mail it to the Commission for a filing stamp. List the Revision Number \_\_\_\_\_. The Commission will review it, stamp and return it, or send a tariff change form for more data (all public notice provisions on the tariff change form must be followed).

(Name of Water Utility)

SECTION C EXTENSION POLICY

No contribution in aid of construction may be required of any customer except as provided for in the following extension policy, which must be a consistent, non-discriminatory policy which is subject to the approval of the Commission.

Water Main extensions will only be done at the option of the SAN PEDRO CANYON WATER COMPANY. Water mains will be extended to any new lots put on the market by PEEKSKILL INVESTMENT CORPORATION, N.V. and will be sized and installed according to the STATE HEALTH DEPARTMENT requirements and at the expense of SAN PEDRO CANYON WATER COMPANY.

TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A PUBLIC UTILITY COMMISSION FILING STAMP.

If any item of a tariff on file with the Commission is proposed to be changed, use the proper initial in the right-hand column, as follows:

C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate reduction; T-Change in text, but no change in rate or regulation

and mail it to the Commission for a filing stamp. List the Revision Number \_\_\_\_\_. The Commission will review it, stamp and return it, or send a tariff change form for more data. (all public notice provisions on the tariff change form must be followed).

APPENDIX: CONDENSED SUBSTANTIVE SERVICE RULES

*The following paragraphs are condensations of the Substantive Rules of the Public Utility Commission. Every water utility must comply with the Substantive Rules in their entirety and copies of the complete rules for reliance thereon are available for a nominal printing cost of \$3.00 plus 15¢ tax. (\$3.15)*

**BILLING:** Bills shall be rendered monthly (unless the Commission has specifically authorized otherwise) and shall show sufficient information to enable a customer to readily compute his own bill with a rate schedule (which must be furnished upon request). Among the items required to be shown on each bill are: amount of water used, applicable rate schedule title or code, total amount due, and date by which the bill must be paid (not less than 15 days after issuance). A penalty cannot be added to a delinquent residential customer bill.

**SERVICE REFUSAL:** If state and local regulations have been met, a service request can be refused only if: applicant has refused to make a deposit (if required), has an existing water utility debt which is not in dispute, or, an installation would be hazardous or unsuccessful. A debt or delinquency of a previous occupant cannot be used against an applicant for service or a customer.

**SERVICE DISCONTINUANCE:** A customer may be disconnected, after at least a 7 day personal notice in writing, only for the following: a bill unpaid more than 15 days after issuance unless a deferred payment agreement is signed; a willful violation of a utility usage rule which interferes with the service of others; failure to comply with deposit or guarantee arrangements; failure to comply with terms of a deferred payment agreement; and, bypassing or tampering with a utility meter. No one may be disconnected for failure to pay for non-utility merchandise or service provided by a utility. A service may be disconnected without notice only for the duration of a known dangerous condition. Complete records of any service interruptions must be kept by the utility.

The day of a disconnection and the following day must be days when personnel of the utility are available to the public for making collections and reconnections, unless the date of disconnection is at customer request. A utility may not abandon a customer of a certificated service area without the approval of the Public Utility Commission. Problems resulting from estimated billing or underbilling due to faulty metering or misapplication of rates are addressed in the Substantive Rules of the Commission.

**METERS:** Unless the Commission has specifically authorized otherwise, each utility shall provide, install, own and maintain meters to measure amounts of water consumed by its customers. Upon request a customer may have his meter tested without charge in his presence at a convenient time (during normal working hours). A charge not to exceed \$15.00 may be assessed for an additional requested test within four years of the first test if any such additional test shows the meter to be accurate. Records of all meters and tests must be properly kept by the utility, and ~~no meter may be placed in~~ service until its accuracy has been established.

**FILMED**

DEC 16 1986

SYSTEM 200

*This condensation was revised 8-28-80 and does not incorporate changes of Substantive Rules made after that date.*

PUBLIC UTILITY COMMISSION OF TEXAS  
 APPROVED  
 JAN - 7 '82 DOCKET # 141  
 W-133-1  
 TARIFF CLERK

APPENDIX: CONDENSED SUBSTANTIVE SERVICE RULES (Continued)

**APPLICANT DEPOSIT:** Permanent residential applicants shall not be required to make a deposit if they can demonstrate a satisfactory credit rating, furnish a satisfactory guarantee, show substantial equity ownership, had been a water utility customer for one of the two previous years with but one delinquency and no disconnections for unpaid bills, or, are 65 years or older with no unpaid bill from any water utility.

A deposit may be required of temporary, weekend or seasonal residential customers if deposit policy is applied in a uniform and nondiscriminatory manner. A commercial customer may be required to pay a deposit if credit is not satisfactorily established. If disconnected for an unpaid bill, to be reconnected an applicant must pay all amounts due or execute a deferred payment agreement and establish credit.

The utility must keep a record of each desposit, issue a receipt for it, and pay at least 6% annual interest thereon. The amount of a deposit may not exceed 1/6 of an estimated annual bill for that customer. Refund of a deposit plus accrued interest shall promptly and automatically be made to residential customers who have paid service bills for 12 consecutive months without having service disconnected for nonpayment of a bill and without having more than two occasions in which a bill was delinquent and when the customer is not delinquent in the payment of current bills, and to commercial and industrial customers who have paid bills for service for 24 consecutive months without having service disconnected for nonpayment of a bill and without having more than two occasions in which a bill was delinquent and when the customer is not delinquent in the payment of the current bills. Failure of either a residential, commercial or industrial customer to meet these refund criteria permits the utility to retain the deposit and any interest which may have accrued.

*The above paragraphs are shortened versions of Substantive Rules 052.02.04.041 - 052.02.04.048 and 052.02.05.053. This condensation was revised 8-28-80 and does not incorporate changes of Substantive Rules made after that date.*

Model Drought Contingency Plan

DROUGHT CONTINGENCY PLAN  
FOR THE  
INVESTOR OWNED UTILITY

SAN PEDRO CANYON WATER CO.  
(Name of utility)

P.O. Box 1328 Del Rio, Tx. 78841-1328  
(Address, City, Zip Code)

11089  
(CCN#)

2330011  
(PWS #s)

11-28-00  
(Date)

Section 1 Declaration of Policy, Purpose, and Intent

In cases of extreme drought, periods of abnormally high usage, system contamination, or extended reduction in ability to supply water due to equipment failure, temporary restrictions may be instituted to limit non-essential water usage. The purpose of the Drought Contingency Plan is to encourage customer conservation in order to maintain supply, storage, or pressure or to comply with the requirements of a court, government agency or other authority.

**Please note:** Water restriction is not a legitimate alternative if water system does not meet the Texas Natural Resource Conservation Commission's (TNRCC) capacity requirements under normal conditions or if the utility fails to take all immediate and necessary steps to replace or repair malfunctioning equipment.

I JAVIER O. GONZALEZ (Please print name), being the responsible official for SAN PEDRO CANYON WATER CO. (Name of utility), request a minor tariff amendment to include the enclosed Drought Contingency Plan.

**Section 2 Public Involvement**

Opportunity for the public to provide input into the preparation of the Plan was provided by:  
(check at least one of the following)

scheduling and providing public notice of a public meeting to accept input on the Plan.

The meeting took place at:

Date: \_\_\_\_\_ Time: \_\_\_\_\_ Location: \_\_\_\_\_

mailed survey with summary of results. (attach survey and results)

bill insert inviting comment. (attach bill insert)

other method \_\_\_\_\_

**Section 3 Public Education**

The SAN PEDRO CANYON WATER CO. (name of utility) will periodically provide the public with information about the Plan, including information about the conditions under which each stage of the Plan is to be initiated or terminated and the drought response measures to be implemented in each stage.

Drought plan information will be provided by:  
(check at least one of the following)

public meeting

press releases

utility bill inserts

other \_\_\_\_\_

**Section 4 Coordination with Regional Water Planning Groups**

The service area of the SAN PEDRO CANYON WATER CO. (name of your utility) is located within:

Regional Water Planning Group (RWPG) Region "J"

SAN PEDRO CANYON WATER CO. (name of your utility) has mailed a copy of this Plan to the RWPG.

1108730112  
Lm/ee

## Section 5 Notice Requirements

Written notice will be provided to each customer **prior to implementation or termination of each stage of the water restriction program**. Mailed notice must be given to each customer 72 hours prior to the start of water restriction. If notice is hand delivered, the utility cannot enforce the provisions of the plan for 24 hours after notice is provided. The written notice to customers will contain the following information:

1. the date restrictions will begin,
2. the circumstances that triggered the restrictions,
3. the stages of response and explanation of the restrictions to be implemented, and,
4. an explanation of the consequences for violations.

The utility must notify the TNRCC by telephone at (512) 239- 6020, or electronic mail at [watermon@tnrcc.state.tx.us](mailto:watermon@tnrcc.state.tx.us) prior to implementing Stage III and **must notify in writing the Public Drinking Water Section at MC - 155, P.O. Box 13087, Austin, Texas 78711-3087 within five (5) working days of implementation including a copy of the utility's restriction notice**. The utility must file a status report of its restriction program with the TNRCC at the initiation and termination of mandatory water use restrictions (i.e. Stages III and IV).

## Section 6 Violations

1. First violation - The customer will be notified by written notice of their specific violation.
2. Subsequent violations:
  - a. After written notice, the utility may install a flow restricting device in the line to limit the amount of water which will pass through the meter in a 24 hour period. The utility may charge the customer for the actual cost of installing and removing the flow restricting device, not to exceed \$50.00.
  - b. After written notice, the utility may discontinue service at the meter for a period of seven (7) days, or until the end of the calendar month, whichever is LESS. The normal reconnect fee of the utility will apply for restoration of service.

## Section 7 Exemptions or Variances

The utility may grant any customer an exemption or variance from the drought contingency plan for good cause **upon written request**. A customer who is refused an exemption or variance may appeal such action of the utility in writing to the Texas Natural Resource Conservation Commission. The utility will treat all customers equally concerning exemptions and variances, and shall not discriminate in granting exemptions and variances. No exemption or variance shall be retroactive or otherwise justify any violation of this Plan occurring prior to the issuance of the variance.

2000 JUN 15 10:00 AM  
LHM/LL

Demand- or Capacity-Based Triggers (check at least one and fill in the appropriate value)

- Drinking water treatment as % of capacity \_\_\_\_\_ %
- Total daily demand as % of pumping capacity \_\_\_\_\_ %
- Total daily demand as % of storage capacity \_\_\_\_\_ %
- Pump hours per day \_\_\_\_\_ hrs.
- Production or distribution limitations.
- Other \_\_\_\_\_

Upon initiation and termination of Stage 2, the utility will mail a public announcement to its customers. No notice to TNRCC required.

Requirements for termination

Stage 2 of the Plan may end when all of the conditions listed as triggering events have ceased to exist for a period of three (3) consecutive days. Upon termination of Stage 2, Stage 1 becomes operative.

Utility Measures:

Visually inspect lines and repair leaks on a daily basis. Monthly review of customer use records and follow-up on any that have unusually high usage.

*Describe additional measures, if any, to be implemented directly by the utility to manage limited water supplies and/or reduce water demand. Examples include: reduced or discontinued flushing of water mains, activation and use of an alternative supply source(s); use of reclaimed water for non-potable purposes.*

The second water source for San Pedro Canyon Water Co. (name of utility) is:  
(check one)

- Other well
- Inter-connection with other system
- Purchased water
- Other \_\_\_\_\_

Voluntary Water Use Restrictions:

1. Restricted Hours: Outside watering is allowed daily, but only during periods specifically described in the customer notice; between 10:00 PM and 5:00 AM for example; **OR**
2. Restricted Days/Hours: Water customers are requested to voluntarily limit the irrigation of landscaped areas with hose-end sprinklers or automatic irrigation systems. Customers are requested to limit outdoor water use to **Mondays for water customers with a street address ending with the numbers 1, 2, or 3, Wednesdays for water customers with a street address ending with the numbers 4, 5, or 6, and Fridays**

for water customers with a street address ending with the numbers 7, 8, 9, or 0. Irrigation of landscaped areas is further limited to the hours of 12:00 midnight until 10:00 a.m. and between 8:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of a hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.

3. Other uses that waste water such as water running down the gutter.

**STAGE III - MANDATORY WATER USE RESTRICTIONS:**

The water utility will implement Stage 3 when any one of the selected triggers is reached:

Supply-Based Triggers (check at least one and fill in the appropriate value)

- Well level reaches \_\_\_\_\_ ft. (m.s.l.)
- Overnight recovery rate reaches \_\_\_\_\_ ft.
- Reservoir elevation reaches \_\_\_\_\_ ft. (m.s.l.)
- Stream flow reaches \_\_\_\_\_ cfs at USGS gage # \_\_\_\_\_
- Wholesale supplier's drought Stage 3 \_\_\_\_\_
- Other \_\_\_\_\_

Demand- or Capacity-Based Triggers (check at least one and fill in the appropriate value)

- Drinking water treatment as % of capacity \_\_\_\_\_ %
- Total daily demand as % of pumping capacity \_\_\_\_\_ %
- Total daily demand as % of storage capacity \_\_\_\_\_ %
- Pump hours per day \_\_\_\_\_ hrs.
- Production or distribution limitations.
- Other \_\_\_\_\_

**Upon initiation and termination of Stage 3, the utility will mail a public announcement to its customers. Notice to TNRCC required.**

Requirements for termination

Stage 3 of the Plan may end when all of the conditions listed as triggering events have ceased to exist for a period of three (3) consecutive days. Upon termination of Stage 3, Stage 2 becomes operative.

Utility Measures:

Visually inspect lines and repair leaks on a regular basis. Flushing is prohibited except for dead end mains.

*Handwritten signature/initials*

*Describe additional measures, if any, to be implemented directly by the utility to manage limited water supplies and/or reduce water demand. Examples include: activation and use of an alternative supply source(s); use of reclaimed water for non-potable purposes; offering low-flow fixtures and water restrictors.*

Mandatory Water Use Restrictions: The following water use restrictions shall apply to all customers.

1. Irrigation of landscaped areas with hose-end sprinklers or automatic irrigation systems **shall be limited to Mondays for water customers with a street address ending with the numbers 1, 2, or 3, Wednesdays for water customers with a street address ending with the numbers 4, 5, or 6, and Fridays for water customers with a street address ending with the numbers 7, 8, 9, or 0.** Irrigation of landscaped areas is further limited to the hours of 12:00 midnight until 10:00 a.m. and between 8:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of a hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.
2. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. Such washing, when allowed, shall be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rinses. Vehicle washing may be done at any time on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety, and welfare of the public is contingent upon frequent vehicle cleansing, such as garbage trucks and vehicles used to transport food and perishables.
3. Use of water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or "jacuzzi" type pools is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight.
4. Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
5. Use of water from hydrants or flush valves shall be limited to maintaining public health, safety, and welfare.
6. Use of water for the irrigation of golf courses, parks, and green belt areas is prohibited except by hand held hose and only on designated watering days between the hours 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight.
7. The following uses of water are defined as non-essential and are prohibited:

- a. wash down of any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
- b. use of water to wash down buildings or structures for purposes other than immediate fire protection;
- c. use of water for dust control;
- d. flushing gutters or permitting water to run or accumulate in any gutter or street;
- e. failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s); and
- f. Any waste of water.

**STAGE IV - CRITICAL WATER USE RESTRICTIONS:**

The water utility will implement Stage 4 when any one of the selected triggers is reached:

Supply-Based Triggers (check at least one and fill in the appropriate value)

- Well level reaches \_\_\_\_\_ ft. (m.s.l.)
- Overnight recovery rate reaches \_\_\_\_\_ ft.
- Reservoir elevation reaches \_\_\_\_\_ ft. (m.s.l.)
- Stream flow reaches \_\_\_\_\_ cfs at USGS gage # \_\_\_\_\_
- Wholesale supplier's drought Stage 4 \_\_\_\_\_
- Supply contamination.
- Other \_\_\_\_\_

Demand- or Capacity-Based Triggers (check at least one and fill in the appropriate value)

- Drinking water treatment as % of capacity \_\_\_\_\_ %
- Total daily demand as % of pumping capacity \_\_\_\_\_ %
- Total daily demand as % of storage capacity \_\_\_\_\_ %
- Pump hours per day \_\_\_\_\_ hrs.
- Production or distribution limitations.
- System outage.
- Other \_\_\_\_\_

**Upon initiation and termination of Stage 4, the utility will mail a public announcement to its customers. Notice to TNRCC required.**

Requirements for termination :

Stage 4 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of three (3) consecutive days. Upon termination of Stage 4, Stage 3 becomes operative.

*lm/del*

Operational Measures:

The utility shall visually inspect lines and repair leaks on a daily basis. Flushing is prohibited except for dead end mains and only between the hours of 9:00 p.m. and 3:00 a.m.. Emergency interconnects or alternative supply arrangements shall be initiated. All meters shall be read as often as necessary to insure compliance with this program for the benefit of all the customers. *Describe additional measures, if any, to be implemented directly to manage limited water supplies and/or reduce water demand.*

Mandatory Water Use Restrictions: All outdoor use of water is prohibited.

1. Irrigation of landscaped areas is absolutely prohibited.
2. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is absolutely prohibited.

*[Handwritten signature]*
