SECTION B SERVICE RULES AND REGULATIONS

H. WATER:

A lot owner applicant shall not be required to make a deposit if he or she can demonstrate a satisfactory credit rating by means of generally acceptable credit cards, letters of credit reference, names of readily available credit references or ownership of substantial equity. Neither shall an applicant be required to make a deposit if he or she can furnish a satisfactory guarantee, has been a water company customer for one of the two previous years with but one delinquency and no disconnection for unpaid bills, or is 65 years or older with no unpaid bill from any water company or utility.

I. DEPOSIT: A deposit may be required of temporary, weekend or seasonal residential customers. The policy regarding such deposits shall be applied in a uniform and nondiscriminatory manner.

A charge not to exceed two times the applicable flat rate for one billing cycle shall be required prior to service being initiated for each residential connection unless good credit has been established. Such sum shall be held by the Company as a deposit to assure prompt payment of water charges. Interest shall be paid on such deposit in an amount as set forth in the Substantive Rules, Public Utility Commission of Texas.

J. CONSTRUCTION:

During construction and prior to initial occupancy, builders then being served shall be charged monthly for water for each single family residential connection, which is also the rate at which each single family residence shall be charged monthly.

SECTION D Emergency Rationing Program

The following water rationing program is adopted for emergency use only during periods of acute water shortage.

A. Declaration of Emergency: When system demand exceeds production or storage capability measured over a 24-hour period, and refilling the storage facilities is rendered impossible, OR when the utility is notified by its wholesale supplier of a cutback in water to be delivered to such an extent that normal use patterns will no longer be possible, the utility may declare an emergency to exist, and thereafter ration water in the following manner.

B. Notice Requirements: Written notice of the proposed rationing shall be mailed or delivered to each customer 72 hours before the utility actually starts the program, and shall also be placed in a local newspaper. The utility shall send a copy of the customer notice to the Public Utility Commission at the same time notice is sent to the customers. The customer notice shall contain the following information;

1. the date rationing shall begin,
2. the date rationing shall end,
3. the stage (level) of rationing to be employed, and
4. a copy of this rationing authority.

C. Stage Levels of Rationing:

STAGE I (mild rationing conditions): Alternate day usage of water for outdoor purposes such as lawns, gardens, car washing, etc. Customers with even number addresses (north or west side of streets) shall use water outdoors only on even numbered days; odd number addresses (south or east side of streets) shall use water outdoors only on odd numbered days.

STAGE II (moderate rationing conditions): All outdoor water usage is prohibited; however, usage for livestock is exempt.

STAGE III (severe rationing conditions): All outdoor water usage is prohibited; livestock may be exempted by the utility. All consumption shall be limited to each customer in one of the following ways:

SERVICE INSPECTION AGREEMENT:*

The Company's authorized representatives shall have access to the Customer's property or premises at all reasonable times for the purpose of inspecting for possible cross-connections between the potable (Safe) water system and any non-potable (Unsafe) water supply, as well as for any other undesirable plumbing practices as required by "The Rules and Regulations for Public Water Systems", Section .008, items I. & J., as adopted by the Texas Department of Health Water Hygiene Division.

The Consumer hereby agrees not to interfere with the Company's representatives in the discharge of their duties. The Consumer will not permit anyone except the representatives of the Company to tamper with or in any way interfere with any property of the Company installed upon the Consumer's premises.

Upon failure of the Consumer to observe these requirements, the Consumer shall be responsible to the Company for such damages as may be done, and the Company may cut off the service at once without notice to the Consumer.

The Consumer hereby further agrees that the Pecan Shadows Water Supply Co. hereinafter "System", reserves the full right and authority to enter upon the property of any and all of the System's customers which are served by direct pressure from the System supply for the purpose of inspecting any and all connections made by such customers to the System water lines.

Should the System ascertain, or have reasonable grounds to believe that there exists any condition within said customers property which might result in contamination of System's water supply, then the System shall notify the customer and the customer shall immediately correct such condition.

In the event the customer fails to correct such condition within 10 days, the System reserves the right to cease delivering water under this Contract until such condition is corrected to the satisfaction of the System.

Section 1 Declaration of Policy, Purpose, and Intent

In cases of extreme drought, periods of abnormally high usage, system contamination, or extended reduction in ability to supply water due to equipment failure, temporary restrictions may be instituted to limit non-essential water usage. The purpose of the Drought Contingency Plan is to encourage customer conservation in order to maintain supply, storage, or pressure or to comply with the requirements of a court, government agency or other authority.

Please note: Water restriction is not a legitimate alternative if water system does not meet the Texas Natural Resource Conservation Commission's (TNRCC) capacity requirements under normal conditions or if the utility fails to take all immediate and necessary steps to replace or repair malfunctioning equipment.

I Don Taylor (Please print name), being the responsible official for Pecan Shadows Water Sply (Name of utility), request a minor tariff amendment to include the enclosed Drought Contingency Plan.

Don Taylor (Signature) 6-15-01 (Date)

Section 2 Public Involvement

Opportunity for the public to provide input into the preparation of the Plan was provided by:
(check at least one of the following)

Section 4 Coordination with Regional Water Planning Groups

The service area of the Pecan Shadows Water Sply (name of your utility) is located within:

Regional Water Planning Group (RWPG) LCRA

Pecan Shadows Water Sply (name of your utility) has mailed a copy of this Plan to the RWPG.

Section 5 Notice Requirements

Written notice will be provided to each customer prior to implementation or termination of each stage of the water restriction program. Mailed notice must be given to each customer 72 hours prior to the start of water restriction. If notice is hand delivered, the utility cannot enforce the provisions of the plan for 24 hours after notice is provided. The written notice to customers will contain the following information:

1. the date restrictions will begin,
2. the circumstances that triggered the restrictions,
3. the stages of response and explanation of the restrictions to be implemented, and,
4. an explanation of the consequences for violations.

The utility must notify the TNRCC by telephone at (512) 239- 6020, or electronic mail at watermon@tnrcc.state.tx.us prior to implementing Stage III and must notify in writing the Public Drinking Water Section at MC - 155, P.O. Box 13087, Austin, Texas 78711-3087 within five (5) working days of implementation including a copy of the utility's restriction notice. The utility must file a status report of its restriction program with the TNRCC at the initiation and termination of mandatory water use restrictions (i.e. Stages III and IV).

Section 6 Violations

1. First violation - The customer will be notified by written notice of their specific violation.
2. Subsequent violations:
 - a. After written notice, the utility may install a flow restricting device in the line to limit the amount of water which will pass through the meter in a 24 hour period. The utility may charge the customer for the actual cost of installing and removing the flow restricting device, not to exceed \$50.00.
 - b. After written notice, the utility may discontinue service at the meter for a period of seven (7) days, or until the end of the calendar month, whichever is LESS. The normal reconnect fee of the utility will apply for restoration of service.

Section 7 Exemptions or Variances

The utility may grant any customer an exemption or variance from the drought contingency plan for good cause upon written request. A customer who is refused an exemption or variance may appeal such action of the utility in writing to the Texas Natural Resource Conservation Commission. The utility will treat all customers equally concerning exemptions and variances, and shall not discriminate in granting exemptions and variances. No exemption or variance shall be retroactive or otherwise justify any violation of this Plan occurring prior to the issuance of the variance.

CON 119 2000
J. M. / DR

Section 8 Response Stages

Unless there is an immediate and extreme reduction in water production, or other absolute necessity to declare an emergency or severe condition, the utility will initially declare Stage I restrictions. If, after a reasonable period of time, demand is not reduced enough to alleviate outages, reduce the risk of outages, or comply with restrictions required by a court, government agency or other authority, Stage II may be implemented with Stage III to follow if necessary.

STAGE I - CUSTOMER AWARENESS

Stage 1 will begin:

Every April 1st, the utility will mail a public announcement to its customers.
No notice to TNRCC required.

Stage 1 will end:

Every September 30th, the utility will mail a public announcement to its customers.
No notice to TNRCC required.

Utility Measures:

This announcement will be designed to increase customer awareness of water conservation and encourage the most efficient use of water. A copy of the current public announcement on water conservation awareness shall be kept on file available for inspection by the TNRCC.

Voluntary Water Use Restrictions:

Water customers are requested to voluntarily limit the use of water for non-essential purposes and to practice water conservation.

STAGE II - VOLUNTARY WATER CONSERVATION:

The water utility will implement Stage 2 when any one of the selected triggers is reached:

Supply-Based Triggers (check at least one and fill in the appropriate value)

- Well level reaches _____ ft. mean sea level (m.s.l.)
- Overnight recovery rate reaches _____ ft.
- Reservoir elevation reaches _____ ft. (m.s.l.)
- Stream flow reaches _____ cfs at USGS gage # _____
- Wholesale supplier's drought Stage 2 _____
- Other _____

Demand- or Capacity-Based Triggers (check at least one and fill in the appropriate value)

- Drinking water treatment as % of capacity _____ %
- Total daily demand as % of pumping capacity _____ %
- Total daily demand as % of storage capacity _____ %
- Pump hours per day _____ hrs.
- Production or distribution limitations.
- Other _____

Upon initiation and termination of Stage 2, the utility will mail a public announcement to its customers. No notice to TNRCC required.

Requirements for termination

Stage 2 of the Plan may end when all of the conditions listed as triggering events have ceased to exist for a period of three (3) consecutive days. Upon termination of Stage 2, Stage 1 becomes operative.

Utility Measures:

Visually inspect lines and repair leaks on a daily basis. Monthly review of customer use records and follow-up on any that have unusually high usage.

Describe additional measures, if any, to be implemented directly by the utility to manage limited water supplies and/or reduce water demand. Examples include: reduced or discontinued flushing of water mains, activation and use of an alternative supply source(s); use of reclaimed water for non-potable purposes.

- Total daily demand as % of pumping capacity _____ %
- Total daily demand as % of storage capacity _____ %
- Pump hours per day _____ hrs.
- Production or distribution limitations.
- Other _____

Upon initiation and termination of Stage 3, the utility will mail a public announcement to its customers. Notice to TNRCC required.

Requirements for termination

Stage 3 of the Plan may end when all of the conditions listed as triggering events have ceased to exist for a period of three (3) consecutive days. Upon termination of Stage 3, Stage 2 becomes operative.

Utility Measures:

Visually inspect lines and repair leaks on a regular basis. Flushing is prohibited except for dead end mains.

Describe additional measures, if any, to be implemented directly by the utility to manage limited water supplies and/or reduce water demand. Examples include: activation and use of an alternative supply source(s); use of reclaimed water for non-potable purposes; offering low-flow fixtures and water restrictors.

Mandatory Water Use Restrictions: The following water use restrictions shall apply to all customers.

1. Irrigation of landscaped areas with hose-end sprinklers or automatic irrigation systems shall be limited to Mondays for water customers with a street address ending with the numbers 1, 2, or 3, Wednesdays for water customers with a street address ending with the numbers 4, 5, or 6, and Fridays for water customers with a street address ending with the numbers 7, 8, 9, or 0. Irrigation of landscaped areas is further limited to the hours of 12:00 midnight until 10:00 a.m. and between 8:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of a hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.
2. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. Such washing, when allowed, shall be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rinses. Vehicle washing may be done at any time on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety, and welfare of the public is contingent upon frequent vehicle cleansing, such as garbage trucks and vehicles used to transport food and perishables.
3. Use of water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or "jacuzzi" type pools is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight.
4. Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
5. Use of water from hydrants or flush valves shall be limited to maintaining public health, safety, and welfare.
6. Use of water for the irrigation of golf courses, parks, and green belt areas is prohibited except by hand held hose and only on designated watering days between the hours 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight.
7. The following uses of water are defined as non-essential and are prohibited:

- a. wash down of any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
- b. use of water to wash down buildings or structures for purposes other than immediate fire protection;
- c. use of water for dust control;
- d. flushing gutters or permitting water to run or accumulate in any gutter or street;
- e. failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s); and
- f. Any waste of water.

STAGE IV - CRITICAL WATER USE RESTRICTIONS:

The water utility will implement Stage 4 when any one of the selected triggers is reached:

Supply-Based Triggers (check at least one and fill in the appropriate value)

- Well level reaches _____ ft. (m.s.l.)
- Overnight recovery rate reaches _____ ft.
- Reservoir elevation reaches _____ ft. (m.s.l.)
- Stream flow reaches _____ cfs at USGS gage # _____
- Wholesale supplier's drought Stage 4 _____
- Supply contamination.
- Other _____

Demand- or Capacity-Based Triggers (check at least one and fill in the appropriate value)

- Drinking water treatment as % of capacity _____ %
- Total daily demand as % of pumping capacity _____ %
- Total daily demand as % of storage capacity _____ %
- Pump hours per day _____ hrs.
- Production or distribution limitations.
- System outage.
- Other _____

Upon initiation and termination of Stage 4, the utility will mail a public announcement to its customers. Notice to TNRCC required.

Requirements for termination :

Stage 4 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of three (3) consecutive days. Upon termination of Stage 4, Stage 3 becomes operative.

[Handwritten signature]

Operational Measures:
