Public Utility Commission
Emergency Water Rationing Program Director
7800 Shoal Creek Boulevard
Suite 400N
Austin, TX 78757

Attached is a copy of the standard Public Utility Commission Emergency Water Rationing tariff submitted for your approval and inclusion in this company's tariff.

I understand that all customers must be notified in writing at least 72 hours before implementation of the Emergency Water Rationing Plan. The Public Utility Commission will be provided a copy of the written notice provided to the customers (which will include a copy of the approved tariff) before this plan is implemented. The customer notification will also clearly state which stage of the Emergency Water Rationing Plan will be implemented and the beginning date.

I agree to administer the Emergency Water Rationing Plan in accordance with the attached tariff.

SECTION D Emergency Rationing Program

The following water rationing program is adopted for emergency use only during periods of acute water shortage.

A. Declaration of Emergency: When system demand exceeds production or storage capability measured over a 24-hour period, and refilling the storage facilities is rendered impossible, OR when the utility is notified by its wholesale supplier of a cutback in water to be delivered to such an extent that normal use patterns will no longer be possible, the utility may declare an emergency to exist, and thereafter ration water in the following manner.

B. Notice Requirements: Written notice of the proposed rationing shall be mailed or delivered to each customer 72 hours before the utility actually starts the program, and shall also be placed in a local newspaper. The utility shall send a copy of the customer notice to the Public Utility Commission at the same time notice is sent to the customers. The customer notice shall contain the following information;

1. the date rationing shall begin,
2. the date rationing shall end,
3. the stage (level) of rationing to be employed, and
4. a copy of this rationing authority.

C. Stage Levels of Rationing:

STAGE I (mild rationing conditions): Alternate day usage of water for outdoor purposes such as lawns, gardens, car washing, etc. Customers with even number addresses (north or west side of streets) shall use water outdoors only on even numbered days; odd number addresses (south or east side of streets) shall use water outdoors only on odd numbered days.

STAGE II (moderate rationing conditions): All outdoor water usage is prohibited; however, usage for livestock is exempt.

STAGE III (severe rationing conditions): All outdoor water usage is prohibited; livestock may be exempted by the utility. All consumption shall be limited to each customer in one of the following ways;

 TARIFF CLERK

SECTION D Emergency Rationing Program

(1) A fixed percentage of each customer's average use in the prior month, the percentage to be uniformly applied on a systemwide basis, each customer being notified of this percentage amount, OR

(2) A maximum number of gallons per meter (customer), per week, with notice to each customer of this number.

All meters shall be read as often as necessary to insure compliance with this program, for the benefit of all the customers.

D. Violation of Emergency Rationing Rules:

(1) First violation-the utility may install a flow restricter in the line to limit the amount of water which will pass through the meter in a 24 hour period. The cost to be charged to the customer's account shall be the actual installed cost to the utility, not to exceed \$50.00.

(2) Subsequent violations-the utility may terminate service at the meter for a period of seven (7) days, or until the end of the calendar month, whichever is LESS. The normal reconnect fee of the utility shall apply for restoration of service.

E. Exemptions or Variances From Rationing Rules:

The utility may grant any customer an exemption or variance from the uniform rationing program, for good cause. In such event, the utility shall notify the Public Utility Commission within 24 hours of such exemption or variance, stating the name, address, and cause for the affected customer.

A customer who is refused an exemption or variance may appeal such action to the utility by written appeal to the Public Utility Commission. The utility shall treat all customers equally concerning exemptions and variances, and shall not employ discrimination in such grants.

Rates:

All existing rate schedules shall remain in effect during the rationing period, and no charges may be levied against a customer which are not contained in the approved tariff of the utility as filed with the Commission.

The purpose of this Emergency Rationing Program is to conserve the total amount of water demanded from the utility until supply can be restored to normal levels. This rationing program shall not exceed sixty (60) days without written approval of the Public Utility Commission.

TO BECOME EFFECTIVE, THIS PAGE MUST CONTAIN A PUBLIC UTILITY COMMISSION FILING STAMP.

If any item of a tariff on file with the Commission is proposed to be changed, use the proper initial in the right-hand column, as follows:

C-Regulation Change; D-Discontinued; I-Increase; N-New; R-Rate reduction; T-Change in text, but no change in rate or regulation

and mail it to the Commission for a filing stamp. The Commission will review it, stamp and return it, or send a change form for more data (all public notice provisions on the tariff change form must be followed).
