Part A: General Information

1. Describe the proposed transaction, including the effect on all CCNs involved, and provide details on the existing or expected land use in the area affected by the proposed transaction. Attach all supporting documentation, such as a contract, a lease, or proposed purchase agreements:

Southeast WSC is transferring their entire CCN to the Concord Robbins WSC.

2. The proposed transaction will require (check all applicable):

For **Transferee** (Purchaser) CCN:

- ☐ Obtaining a NEW CCN for Purchaser
☒ Transfer all CCN into Purchaser's CCN (Merger)
☐ Transfer Portion of CCN into Purchaser's CCN
☐ Transfer all CCN to Purchaser and retain Seller CCN
☐ Uncertificated area added to Purchaser's CCN

For **Transferor** (Seller) CCN:

- ☒ Cancellation of Seller's CCN
☐ Transfer of a Portion of Seller's CCN to Purchaser
☐ Only Transfer of Facilities, No CCN or Customers
☐ Only Transfer of Customers, No CCN or Facilities
☐ Only Transfer CCN Area, No Customers or Facilities

Part B: Transferor Information

Questions 3 through 5 apply only to the *transferor* (current service provider or seller)

3. A. Name: Southeast Water Supply Corporation
(individual, corporation, or other legal entity)
☐ Individual ☐ Corporation ☒ WSC ☐ Other: _____
- B. Mailing Address: P.O. Box 640
Centerville, TX 75833-640
- Phone: (903) 536-7514 Email: travis@concordrobbins.com
- C. Contact Person. Please provide information about the person to be contacted regarding this application. Indicate if this person is the owner, operator, engineer, attorney, accountant, or other title.
- Name: Travis Treadway Title: General Manager
- Mailing Address: P.O. Box 640 Centerville, TX 75833-640
- Phone: (903) 536-7514 Email: travis@concordrobbins.com

4. If the utility to be transferred is an Investor Owned Utility (IOU), for the most recent rate change, attach a copy of the current tariff and complete A through B:

- A. Effective date for most recent rates: _____
- B. Was notice of this increase provided to the Public Utility Commission of Texas (Commission) or a predecessor regulatory authority?
- ☐ No ☐ Yes Application or Docket Number: _____

If the transferor is a Water Supply or Sewer Service Corporation, provide a copy of the current tariff.

5. For the customers that will be transferred following the approval of the proposed transaction, check all that apply:

☐ There are no customers that will be transferred

☒ # of customers without deposits held by the transferor 1,340

☐ # of customers with deposits held by the transferor* _____

*Attach a list of all customers affected by the proposed transaction that have deposits held, and include a customer indicator (name or account number), date of each deposit, amount of each deposit, and any unpaid interest on each deposit.

Part C: Transferee Information

Questions 6 through 10 apply only to the *transferee* (purchaser or proposed service provider)

6. A. Name: Concord-Robbins Water Supply Corporation

(individual, corporation, or other legal entity)

☐ Individual

☐ Corporation

☒ WSC

☐ Other:

B. Mailing Address: P.O. Box 35

Marquex, Texas 77865-35

Phone: (903) 626-4330

Email: travis@concordrobbins.com

C. Contact Person. Provide information about the person to be contacted regarding this application. Indicate if this person is the owner, operator, engineer, attorney, accountant, or other title.

Name: Sean Conner

Title: Engineer

Address: P.O. 4187 Palestine, TX 75801

Phone: (903) 729-6005

Email: jffontaine@jffontaine.com

D. If the transferee is someone other than a municipality, is the transferee current on the Regulatory Assessment Fees (RAF) with the Texas Commission on Environmental Quality (TCEQ)?

☐ No ☒ Yes ☐ N/A

E. If the transferee is an IOU, is the transferee current on the Annual Report filings with the Commission?

☐ No ☐ Yes ☒ N/A

7. The legal status of the transferee is:

☐ Individual or sole proprietorship

☐ Partnership or limited partnership (*attach* Partnership agreement)

☐ Corporation

Charter number (as recorded with the Texas Secretary of State): _____

☒ Non-profit, member-owned, member controlled Cooperative Corporation [Article 1434(a) Water Supply or Sewer Service Corporation, incorporated under TWC Chapter 67]

Charter number (as recorded with the Texas Secretary of State): 49830901

☒ Articles of Incorporation and By-Laws established (*attach*)

☐ Municipally-owned utility

☐ District (MUD, SUD, WCID, FWSD, etc.)

- ☐ County
- ☐ Affected County (a county to which Subchapter B, Chapter 232, Local Government Code, applies)
- ☐ Other (please explain): _____

8. If the transferee operates under any d/b/a, provide the name below:

Name: _____

9. If the transferee's legal status is anything other than an individual, provide the following information regarding the officers, members, or partners of the legal entity applying for the transfer:

Name: Elaine Trefry
Position: President Ownership % (if applicable): 0.00%
Address: 13034 Hwy 7 W Marquez, TX 77865
Phone: (903) 626-4330 Email: customerservice@concordrobbins.com

Name: Brenda Green
Position: Vice-President Ownership % (if applicable): 0.00%
Address: P.O. Box 40 Flynn, TX 77855
Phone: (903) 626-4330 Email: customerservice@concordrobbins.com

Name: Rick Morris
Position: Secretary/ Treasurer Ownership % (if applicable): 0.00%
Address: 6201 CR 428 Marquez, TX 77865
Phone: _____ Email: customerservice@concordrobbins.com

Name: Ryan O'Neal
Position: Board Memeber Ownership % (if applicable): 0.00%
Address: 19017 CR 385 Marquez, TX 77865
Phone: (903) 626-4330 Email: customerservice@concordrobbins.com

10. **Financial Information**

The transferee Applicant must provide accounting information typically included within a balance sheet, income statement, and statement of cash flows. If the Applicant is an existing retail public utility, this must include historical financial information and projected financial information. However, projected financial information is only required if the Applicant proposes new service connections and new investment in plant, or if requested by Staff. If the Applicant is a new market entrant and does not have its own historical balance sheet, income statement, and statement of cash flows information, then the Applicant should establish a five-year projection taking the historical information of the transferor Applicant into consideration when establishing the projections.

Historical Financial Information may be shown by providing any combination of the following that includes necessary information found in a balance sheet, income statement, and statement of cash flows:

1. Completed Appendix A;
2. Documentation that includes all of the information required in Appendix A in a concise format; or
3. Audited financial statements issued within 18 months of the application filing date. This may be provided electronically by providing a uniform resource locator (URL) or a link to a website portal.

Projected Financial Information may be shown by providing any of the following:

1. Completed Appendix B;
2. Documentation that includes all of the information required in Appendix B in a concise format;
3. A detailed budget or capital improvement plan, which indicates sources and uses of funds required, including improvements to the system being transferred; or
4. A recent budget and capital improvements plan that includes information needed for analysis of the operations test (16 Tex. Admin. Code § 24.11(e)(3)) for the system being transferred and any operations combined with the system. This may be provided electronically by providing a uniform resource locator (URL) or a link to a website portal.

Part D: Proposed Transaction Details

11. A. Proposed Purchase Price: \$ 0.00

If the transferee Applicant is an investor owned utility (IOU) provide answers to B through D.

B. Transferee has a copy of an inventory list of assets to be transferred (*attach*):

☐ No ☐ Yes ☐ N/A

Total Original Cost of Plant in Service: \$

Accumulated Depreciation: \$

Net Book Value: \$

C. **Customer contributions in aid of construction (CIAC):** Have the customers been billed for any surcharges approved by the Commission or TCEQ to fund any assets currently used and useful in providing utility service? Identify which assets were funded, or are being funded, by surcharges on the list of assets.

☐ No ☐ Yes

Total Customer CIAC: \$

Accumulated Amortization: \$

D. **Developer CIAC:** Did the transferor receive any developer contributions to pay for the assets proposed to be transferred in this application? If so, identify which assets were funded by developer contributions on the list of assets and provide any applicable developer agreements.

☐ No ☐ Yes

Total developer CIAC: \$

Accumulated Amortization: \$

12. A. Are any improvements or construction required to meet the minimum requirements of the TCEQ or Commission and to ensure continuous and adequate service to the requested area to be transferred plus any area currently certificated to the transferee Applicant? Attach supporting documentation and any necessary TCEQ approvals, if applicable.

☒ No ☐ Yes

B. If yes, describe the source and availability of funds and provide an estimated timeline for the construction of any planned or required improvements:

13. Provide any other information concerning the nature of the transaction you believe should be given consideration:

All liabilities and assets of Southeast W.S.C. will be merged with Concord Robbins W.S.C. liabilities and assets to be called Concord Robbins W.S.C.

14. Complete the following proposed entries (listed below) as shown in the books of the Transferee (purchaser) after the acquisition. Debits (positive numbers) should equal credits (negative numbers) so that all line items added together equal zero. Additional entries may be made; the following are suggested only, and not intended to pose descriptive limitations:

Utility Plant in Service: \$ _____
Accumulated Depreciation of Plant: \$ _____
Cash: \$ _____
Notes Payable: \$ _____
Mortgage Payable: \$ _____
(Proposed) Acquisition Adjustment*: \$ _____
Other (NARUC account name & No.): _____
Other (NARUC account name & No.): _____

* Acquisition Adjustments will be subject to review under 16 TAC § 24.41(d) and (e)

15. A. Explain any proposed billing change (NOTE: If the acquiring entity is an IOU, the IOU may not change the rates charged to the customers through this STM application. Rates can only be changed through the approval of a rate change application.)

Upon effective date all SEWSC fees will be reduced to CRWSC fees except for the monthly minimum. CRWSC will reduce the monthly minimum of these members by an estimated \$3 -\$5 every year until it matches with current CRWSC member's rate. Not to exceed 7 years.

B. If transferee is an IOU, state whether or not the transferee intends to file with the Commission, or an applicable municipal regulatory authority, an application to change rates for some or all of its customers as a result of the transaction within the next twelve months. If so, provide details below:

N/A

Part E: CCN Obtain or Amend Criteria Considerations

16. Describe, in detail, the anticipated impact or changes in the quality of retail public utility service in the requested area as a result of the proposed transaction:

CRWSC is recongnized as a superior water system and they will provide the same service to our new area/members.

17. Describe the transferee's experience and qualifications in providing continuous and adequate service. This should include, but is not limited to: other CCN numbers, water and wastewater systems details, and any corresponding compliance history for all operations.

Concord Robbins W.S.C. has been in operations 40+ years.

18. Has the transferee been under an enforcement action by the Commission, TCEQ, Texas Department of Health (TDH), the Office of the Attorney General (OAG), or the Environmental Protection Agency (EPA) in the past five (5) years for non-compliance with rules, orders, or state statutes? Attach copies of any correspondence with the applicable regulatory agency(ies)

☒ No ☐ Yes

19. Explain how the environmental integrity or the land will be impacted or disrupted as a result of the proposed transaction:

No significant environmental impact.

20. How will the proposed transaction serve the public interest?

By continuing to give the customers adequate and potable drinking water.

21. List all neighboring water or sewer utilities, cities, districts (including ground water conservation districts), counties, or other political subdivisions (including river authorities) providing the same service within two (2) miles from the outer boundary of the requested area affected by the proposed transaction:

Centerville, Tx, Normangee, TX, Consolidated WSC - CCN 10797, C & R Water Supply Inc. - CCN 13098, Hilltop Lakes WSC - 10341

Part F: TCEQ Public Water System or Sewer (Wastewater) Information

Complete Part F for EACH Public Water or Sewer system to be transferred subject to approval of the transaction. Attach a separate sheet with this information if you need more space for additional systems being transferred.

22. A. For Public Water System (PWS):

TCEQ PWS Identification Number: Please see attached (7 digit ID)

Name of PWS: List for Southeast TCEQ PWS #'s & Letters Attached

Date of last TCEQ compliance inspection: _____ (attach TCEQ letter)

Subdivisions served: _____

B. For Sewer service:

TCEQ Water Quality (WQ) Discharge Permit Number: WQ - _____ (8 digit ID)

Name of Wastewater Facility: N/A

Name of Permittee: _____

Date of last TCEQ compliance inspection: _____ (attach TCEQ letter)

Subdivisions served: _____

Date of application to transfer permit submitted to TCEQ: _____

23. List the number of existing connections, by meter/connection type, to be affected by the proposed transaction:

Water				Sewer	
	Non-metered		2"		Residential
1,336	5/8" or 3/4"		3"		Commercial
3	1"		4"		Industrial
1	1 1/2"		Other		Other
Total Water Connections:			1,340	Total Sewer Connections:	

24. A. Are any improvements required to meet TCEQ or Commission standards?

☒ No ☐ Yes

B. Provide details on each required major capital improvement necessary to correct deficiencies to meet the TCEQ or Commission standards (attach any engineering reports or TCEQ approval letters):

Description of the Capital Improvement:	Estimated Completion Date:	Estimated Cost:

C. Is there a moratorium on new connections?

☒ No ☐ Yes:

25. Does the system being transferred operate within the corporate boundaries of a municipality?

☒ No ☐ Yes: _____ (name of municipality)

If yes, indicate the number of customers within the municipal boundary.

Water: _____ Sewer: _____

26. A. Does the system being transferred purchase water or sewer treatment capacity from another source?

☒ No ☐ Yes: If yes, attach a copy of purchase agreement or contract.

Capacity is purchased from: _____

Water: _____

Sewer: _____

B. Is the PWS required to purchase water to meet capacity requirements or drinking water standards?

☒ No ☐ Yes

C. What is the amount of water supply or sewer treatment purchased, per the agreement or contract? What is the percent of overall demand supplied by purchased water or sewer treatment (if any)?

	Amount in Gallons	Percent of demand
Water:		0.00%
Sewer:		0.00%

D. Will the purchase agreement or contract be transferred to the Transferee?

☐ No ☐ Yes:

27. Does the PWS or sewer treatment plant have adequate capacity to meet the current and projected demands in the requested area?

☐ No ☒ Yes:

28. List the name, class, and TCEQ license number of the operator that will be responsible for the operations of the water or sewer utility service:

Name (as it appears on license)	Class	License No.	Water or Sewer
Sam Posey	C	WG0013360	Water
Shelby White	C	WG0016071	Water
Ethan Payne	D	W00047560	Water
Travis Treadway	C	WG0015308	Water

Part G: Mapping & Affidavits

ALL applications require mapping information to be filed in conjunction with the STM application.
Read question 29 A and B to determine what information is required for your application.

29. A. For applications requesting to transfer an entire CCN, without a CCN boundary adjustment, provide the following mapping information with each of the seven (7) copies of the application:

1. A general location (small scale) map identifying the requested area in reference to the nearest county boundary, city, or town. The following guidance should be adhered to:
 - i. If the application requests to transfer certificated service areas for both water and sewer, separate maps must be provided for each.
 - ii. A hand drawn map, graphic, or diagram of the requested area is not considered an acceptable mapping document.

Part H: Notice Information

The following information will be used to generate the proposed notice for the application.
DO NOT provide notice of the application until it is found sufficient and the Applicants are ordered to provide notice.

30. Complete the following using verifiable man-made or natural landmarks such as roads, rivers, or railroads to describe the requested area (to be stated in the notice documents). Measurements should be approximated from the outermost boundary of the requested area:

The total acreage of the requested area is approximately: 9,538.14

Number of customer connections in the requested area: 1,340

Affected subdivision :

The closest city or town: Centerville, TX

Approximate mileage to closest city or town center: 0

Direction to closest city or town: Surrounding the City

The requested area is generally bounded on the North by: State Hwy 7 E

on the East by: Leon/Houston County Line

on the South by: Old San Antonio Road

on the West by: FM 39 N

31. A copy of the proposed map will be available at: The Concord Robbins water office located at 9066 TX 7 in Jewett, TX 75846

32. What effect will the proposed transaction have on an average bill to be charged to the affected customers? Take into consideration the average consumption of the requested area, as well as any other factors that would increase or decrease a customer's monthly bill.

☐ All of the customers will be charged the same rates they were charged before the transaction.

☒ All of the customers will be charged different rates than they were charged before the transaction.

☐ higher monthly bill ☒ lower monthly bill

☐ Some customers will be charged different rates than they were charged before
(i.e. inside city limit customers)

☐ higher monthly bill ☐ lower monthly bill

MEMORANDUM OF UNDERSTANDING

BETWEEN SOUTHEAST WATER SUPPLY CORPORATION (SEWSC) AND CONCORD ROBBINS WATER SUPPLY CORPORATION (CRWSC) REGARDING THE TRANSFER OF SOUTHEAST WATER SUPPLY CORPORATION.

WHEREAS, Southeast Water Supply Corporation is a Texas nonprofit water supply corporation, operating under the provisions of Chapter 67 of the Texas Water Code, as amended and the holder of retail water Certificate of Convenience and Necessity No. 12180 and holds public drinking water system identification numbers 1450027, 1450028, 1450029, and 1450031 issued by TCEQ;

WHEREAS, Concord Water Supply Corporation is a Texas nonprofit water supply corporation, operating under the provisions of Chapter 67 of the Texas Water Code, as amended and the holder of retail water Certificate of Convenience and Necessity No. 11717 and holds public drinking water system identification Numbers 1450018 and 1450021 issued by TCEQ;

WHEREAS, SEWSC currently has a membership comprised of approximately 1330 meters and CRWSC membership is comprised of approximately 1635 meters; and

WHEREAS, SEWSC CCN's service area is contiguous with CRWSC CCN's service area in Leon County, Texas; and

WHEREAS, the Board of Directors for both SEWSC and CRWSC have indicated that it will be in the best interest of both water suppliers for SEWSC to transfer the CCN, property, assets and liabilities of their water system to CRWSC; and

WHEREAS, the SEWSC Board of Directors authorized by Article XV of SEWSC by-laws have voted and passed by all present to approve the transfer;

WHEREAS, the CRWSC Board of Directors have voted to accept the transfer of SEWSC water system to CRWSC.

WHEREAS, SEWSC and CRWSC desire to enter into a MOU to set out the terms and conditions by which SEWSC will transfer their CCN, property, assets and liabilities pertaining to their water system to CRWSC; and

WHEREAS, by executing this MOU, SEWSC and CRWSC represent and agree that they shall abide by the terms and conditions set forth herein, and that they shall each negotiate in good faith the terms of the transfer, consistent with the terms hereof.

NOW THEREFORE, SEWSC AND CRWSC hereby consent and agree as follows:

1. CRWSC will seek any necessary approvals of the transfer of SEWSC from all County, State and Federal agencies.
2. CRWSC will prepare, file, and prosecute a transfer application with TCEQ, PUC, CoBank and Rural Development to obtain the necessary regulatory authorizations for the CCN, property, assets, and liabilities of SEWSC water system and will provide all notices to landowners and neighboring utilities as required by law with the assistance of SEWSC staff and members.
3. Upon obtaining the appropriate approvals, SEWSC and CRWSC will execute the contract which will establish the terms and conditions by which SEWSC will transfer full ownership of their water system's CCN, property, assets and liabilities to CRWSC.
4. SEWSC and CRWSC will provide the necessary consent to transfer of SEWSC's water system and CCN to the TCEQ and PUC to effectuate the transfer.
5. The contract between SEWSC and CRWSC will allow the members of SEWSC to transfer their membership to CRWSC so that all SEWSC members will become CRWSC members on the day of the execution of the contract.
6. SEWSC members will not be charged any membership fee by CRWSC when their membership is transferred and they become CRWSC members.
7. Upon transfer of their membership to CRWSC, SEWSC's members will have all rights and powers that are provided to CRWSC's existing members.
8. Until proper regulatory approvals are obtained and the contract is executed which will add SEWSC's water systems to CRWSC's water system, CRWSC will manage, operate and maintain SEWSC's water system starting November 1, 2021.
9. During the interim operational time period which begins November 1, 2021, CRWSC will operate SEWSC's water system, and will have the right to use funds from SEWSC's segregated bank account for the operation and maintenance of SEWSC's water system including the cost of repair and staff time.
10. SEWSC's board of directors and staff will provide all possible assistance to CRWSC as part of CRWSC's efforts to obtain the necessary regulatory approvals, to acquire all of SEWSC's files and records, to develop and execute the contract, and to transfer SEWSC's CCN, property, assets and liabilities to CRWSC.
11. All risk of loss or damage to the SEWSC assets to be acquired shall remain upon SEWSC prior to TCEQ and PUC approval of their transaction and closing. In the event of loss, damage or destruction of SEWSC assets to be acquired in an amount that exceeds funds available to CRWSC in the SEWSC's water system account, SEWSC shall be responsible for necessary repairs, at SEWSC's expense.
12. CRWSC commits to keep current employees of SEWSC for one (1) year as long as the employee performs his/her duties in accordance with CRWSC personnel policies. CRWSC will not reduce the hourly earnings of SEWSC employees except for Raylene Peterson which will be determined by separate employment contract.

13. CRWSC will keep the SEWSC office open for as long as it is financially feasible to do so. CRWSC ensures there will always be a payment location in the 75833-zip code.
14. Upon completion of the transfer, CRWSC will appoint two (2) SEWSC board members to an advisory board position on the CRWSC Board of Directors. CRWSC will then send a ballot to members of CRWSC to request amending CRWSC's By-Laws from five (5) to seven (7) board members. The two (2) advisory positions will become CRWSC board directors.
15. CRWSC ensures that all rates and fees except SEWSC's monthly minimum will be reduced to CRWSC fees. CRWSC will reduce SEWSC monthly minimum \$3.00 - \$5.00 per year until it matches CRWSC's monthly minimum fee with a maximum time of seven (7) years from the effective date.
16. This MOU shall be effective from and after the date of due execution of the SEWSC and CRWSC Board of Director's Presidents.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

December 4, 2020

Mr. Royce Keeling, President
Southeast WSC
P.O. Box 640
Centerville, Texas 75833-0640

Re: Comprehensive Compliance Investigation at:
Southeast Water Supply Corporation (WSC) System 1, Leon County, Texas
RN101457778, PWS ID No.: 1450027

Dear Mr. Keeling:

On November 19, 2020, Mr. Joseph Hopkins, P.G., of the Texas Commission on Environmental Quality (TCEQ) Waco Region Office conducted an investigation of the above-referenced facility to evaluate compliance with applicable requirements for a public water supply. No violations are being alleged as a result of the investigation; however, please see the enclosed Additional Issues.

The TCEQ appreciates your assistance in this matter and your compliance efforts to ensure protection of the State's environment. If you or members of your staff have any questions regarding these matters, please feel free to contact Mr. Hopkins in the Waco Region Office at (254) 751-0335.

Sincerely,

Richard Monreal

Summary of Investigation Findings

SOUTHEAST WSC SYSTEM 1	Investigation # 1691137
, LEON COUNTY,	Investigation Date: 11/19/2020
Additional ID(s): 1450027	

No Violations Associated to this Investigation

ADDITIONAL ISSUES

Description
Item #1

Additional Comments

Ensure the unused public water supply well, well No. G1450027A, is properly plugged or routinely tested at least once every five years. As required in 30 TAC §290.46(u), abandoned public water supply wells owned by the system must be plugged with cement according to 16 TAC Chapter 76 (relating to Water Well Drillers and Water Well Pump Installers). Wells that are not in use and are non-deteriorated as defined in those rules must be tested every five years or as required by the executive director to prove that they are in a non-deteriorated condition. The test results shall be sent to the executive director for review and approval. Deteriorated wells must be either plugged with cement or repaired to a non-deteriorated condition. Specifically, it was noted during this investigation that Well No. 1 at Plant 1, G1450027A, has been taken out of service on or about July 2019.

Item #2

Ensure the facility Sample Siting Plan is complete and up-to-date, specifically the required distribution system / sampling location map. As required in 30 TAC §290.109(d)(6), all public water systems shall develop and complete a written Sample Siting Plan as described in this paragraph that identifies routine and repeat microbial sampling sites and a sample collection schedule as required by this subsection that are representative of water throughout the distribution system. Sample Siting Plans shall be completed in a format specified by the executive director and are subject to review and revision by the executive director. As required by §290.109(d)(6)(C), the Sample Siting Plan shall include a distribution system map or series of maps which identifies distribution system valves and mains as described in §290.46(n)(2) of this title. The distribution system map shall also include the location of all routine microbial sample sites, water main sizes, entry point source locations, water storage facilities, and any pressure plane boundaries. As required by §290.46(n)(2), an accurate and up-to-date map of the distribution system shall be available so that valves and mains can be easily located during emergencies. At the time of the investigation, it was observed that the Sample Siting Plan may need to be updated with a complete and up-to-date distribution system / sampling location map.

SECTION A
RESOLUTIONS

SECTION A. RESOLUTIONS

THE BOARD OF DIRECTORS OF SOUTHEAST WATER SUPPLY CORPORATION
ESTABLISHES THAT:

1. This Tariff of the Southeast Water Supply Corporation, serving in Leon County consisting of Sections A. through K. and forms inclusive, is adopted and enacted as the current regulations and policies effective as of November 1, 2014.
2. Only those preexisting written contracts or agreements executed by the present or previous Board of Directors shall remain in effect, unless the contract or agreement requires compliance with changes of the tariff from time to time.
3. The adoption (or revisions) of this tariff does not prohibit or limit the Corporation from enforcing previous penalties or assessments from before the current effective date.
4. An official copy of this and all policies or records shall be available during regular office hours of the Corporation. The Secretary of the Corporation shall maintain the original copy as approved and all previous copies for exhibit.
5. Rules and regulations of state or federal agencies having jurisdiction shall supersede any terms of this policy. If any section, paragraph, sentence, clause, phrase, word, or words of this policy are declared unconstitutional or invalid for any purpose, the remainder of this policy shall not be affected.
6. This tariff has been adopted (revised) in compliance in Open Meeting in compliance with the Open Meeting Act, Chapter 551 of the Texas Government Code.

PASSED and APPROVED this 21st day of October 2014.

Royce Keeling
President, Southeast Water Supply Corporation

SEAL

ATTEST:

David Karrer
Secretary, Southeast Water Supply Corporation

Approved 10-21-14

SECTION B
STATEMENTS

SECTION B. STATEMENTS

1. **Organization.** The Southeast Water Supply Corporation ("Corporation") is a member-owned, non-profit corporation incorporated pursuant to the Texas Water Code Chapter 67, and the provisions of the Texas Business Organizations Code applicable to member owned member controlled non-profit corporations for the purpose of furnishing potable water utility service. Corporation operating policies, rates, and regulations are adopted by the Board of Directors elected by the Members of the Corporation.
2. **Non-Discrimination Policy.** Membership in the Corporation and service is provided to all Applicants who comply with the provisions of this Tariff regardless of race, creed, color, national origin, sex, disability, or marital status.
3. **Policy and Rule Application.** These policies, rules, and regulations apply to the water services provided by the Corporation or SEWSC. Failure on the part of the Member, Consumer, or Applicant to observe these policies, rules and regulations gives the Corporation the authority to deny or discontinue service according to the terms of this Tariff as amended from time to time by the Board of Directors of the Corporation.
4. **Corporation Bylaws.** The Corporation Members have adopted bylaws which establish the make-up of the Board of Directors and other important regulations of the Corporation. The bylaws are on file at the Corporation's office.
5. **Fire Protection Responsibility.** The Corporation does not provide nor imply that fire protection is available throughout the distribution system, except where expressly required by municipal ordinance or agreed to by SEWSC. All hydrants or flush valves are for the operation and maintenance of the system and may be used by authorized fire departments in accordance with a contract with the Corporation to supply water for use in fire suppression. The Corporation reserves the right to remove any hydrant, due to improper use or detriment to the system as determined by the Corporation, at any time without notice, refund, or compensation to the contributors unless such hydrants are installed pursuant to the terms of a Non-Standard Service Contract as provided for in Section F, in which event the terms and conditions of the Contract shall apply.
6. **Damage Liability.** The Corporation is not liable for damages caused by service interruptions, events beyond its control, and for normal system failures. The limits of liability of the Corporation is the extent of the cost of service provided. By acceptance of Membership, Member consents to waiver of such liability.
7. **Information Disclosure.** The records of the Corporation shall be kept in the Corporation office in Centerville, Texas. All information collected, assembled, or maintained by or for the Corporation shall be disclosed to the public in accordance with the Texas Public Information Act. **In no event and under no circumstances shall the Corporation disclose the Social Security Number of any member or customer to any person other than an employee of the Corporation.** Chapter 182 of the Texas Utilities code makes confidential a water utility customer's address, telephone number, account records, and information relating to the volume or units of utility usage, or the amounts billed to or collected from the individual for utility usage. However, an individual customer may request in writing that this information be released upon request. The Corporation shall give its applicants and customers notice of their right to request disclosure of this information under this

policy. This confidentiality provision in Chapter 182, Subchapter B of the Texas Utilities Code does not prohibit the utility from disclosing this information to an official or employee or the state or a political subdivision of the state acting in an official capacity or an employee of the Corporation acting in connection with the employee's duties. Further, such confidentiality does not prohibit the Corporation from disclosing the name and address of each member entitled to vote on a list to be made available to the Corporation's voting members, or their agents or attorneys, in connection with a meeting of the Corporation's members.

8. ***Customer Notice Provisions.*** The Corporation shall give written notice of monthly rate changes by mail or hand delivery to all consumers at least 30 days prior to the effective date of the new rate. The notice shall contain the old rates, new rates, effective date of the new rate, date of Board authorization, and the name and phone number of the Corporation's contact person designated to address inquiries about the rate change.
9. ***Grievance Procedures.*** Any Member of the Corporation or individual demonstrating an interest under the policies of this Tariff in becoming a Member of the Corporation shall have an opportunity to voice concerns or grievances to the Corporation by the following means and procedures:
 - a. By presentation of concerns to the Corporation's manager or authorized staff member. If not resolved to the satisfaction of the aggrieved party then,
 - b. By presenting a letter to the Board of Directors stating the individual's grievance or concern and the desired result.
 - c. The Board of Directors shall respond to the complaint by communicating the Board's decision in writing.
 - d. Any charges or fees contested as a part of the complaint in review by the Corporation under this policy shall be suspended until a satisfactory review and final decision has been made by the Board of Directors.
10. ***Customer Service Inspections.*** The Corporation requires that a customer service inspection certification be completed prior to providing continuous water service to new construction and for all new members as part of the activation of standard and some non-standard service. Customer service inspections are also required on any existing service when the Corporation has reason to believe that cross-connections or other potential contaminant hazards exist, or after any material improvement, correction or addition to the members' water distribution facilities. This inspection is limited to the identification and prevention of cross connections, potential contaminant hazards and illegal lead materials. (30 TAC 290.46(j)) (See Tariff Section G. 23.)
11. ***Submetering Responsibility.*** Submetering and Non-Submetering by Master Metered Accounts may be allowed in the Corporation's water distribution system provided the Master Metered Account customer complies with the Texas Commission on Environmental Quality Chapter 291, Subchapter H rules pertaining to Submetering. The Corporation has no jurisdiction or responsibility to the tenants; tenants receiving water under a Master Metered Account are not considered customers of the Corporation. Any interruption or impairment of water service to the tenants is the responsibility of the Master Metered Account Customer. Any complaints regarding submetering should be directed to the Texas Commission on Environmental Quality.

NOTE: The system should check with the Master Metered Account Customer to:

1. See if they have registered with the TCEQ, (Texas Water Code Chapter 13 Subchapter M.)
 2. See that they do not charge their tenants more than the total amount of charges billed. If the aggregate bill is greater than the Corporation's charge, the Master Metered Account Customer is considered by the TCEQ to be a separate Public Water System and will be required to comply with all TCEQ regulations.
 3. Protect the System's CCN. Should the Master Metered Account Customer continue to violate these or other State regulations, the Corporation will need to request a Cease and Desist Order from the TCEQ. (Texas Water Code Section 13.252 and 30 TAC Section 291.118)
12. ***Voluntary Contributions Policy.*** The Corporation's board has approved and set up guidelines for accepting Voluntary Contributions on Behalf of Emergency Service Providers in our service area. The policy adopted sets up the guidelines for collection, accounting, and distribution of funds to the respective local Emergency Service Response entities. (Texas Water Code Sections 13.143 & Section 67.017) (See Voluntary Contribution Policy in Miscellaneous Section.)
13. ***Prohibition Against Resell of Water.*** The meter and/or sewer connection is for the sole use of the Member or customer and is to provide service to only one (1) dwelling or one (1) business. Extension of pipe(s) to share or resell water to any other persons, dwellings, businesses, or property, etc., is prohibited.

SECTION C
DEFINITIONS

SECTION C. DEFINITIONS

Active Service – The status of any Member receiving authorized service under the provisions of this Tariff.

Applicant – A person, partnership, cooperative corporation, corporation, agency, public or private organization of any type applying for service with the Southeast Water Supply Corporation. A person must have reached age of majority (18) in Texas to apply for service. (Section 129.001, Civil Practice & Remedies Code)

Base Rate – The monthly charge assessed each Member/Customer for the opportunity of receiving service. The Base Rate is a fixed rate based upon the meter size as set forth in the equivalency chart in Section G.

Board of Directors – The governing body elected by the Members of the Southeast Water Supply Corporation that is vested with the management of the affairs of the Corporation. (Section 22.001(1), Texas Business Organizations Code)

Bylaws – The rules pertaining to the governing of the Southeast Water Supply Corporation adopted by the Corporation Members. (Section 22.001(2), Texas Business Organizations Code)

Certificate of Convenience and Necessity (CCN) – The authorization granted under Chapter 13 Subchapter G of the Texas Water Code for Southeast Water Supply Corporation to provide water service within a defined territory. Southeast Water Supply Corporation has been issued Certificate Number 12180. Territory defined in the CCN shall be the Certificated Service Area. (See Tariff Section D. Certificated Service Area Map)

Corporation – The Southeast Water Supply Corporation. (Section B. 1 of this Tariff)

Developer – Any person, partnership, cooperative corporation, corporation, agency, or public or private organization who subdivides land or requests two (2) or more water connections on a single contiguous tract of land [as defined in Section 13.2502 (e)(1) of the Texas Water Code].

Disconnection of Service – The discontinuance of water service by the Corporation to a Member/Customer.

Easement – A private perpetual dedicated right-of-way for the installation of water pipelines and necessary facilities which allows access to property for future operation, maintenance, facility replacement, facility upgrades, and/or installation of additional pipelines (if applicable) for both service to an Applicant and system-wide service. This may also include restrictions on the adjacent area to limit the installation of sewer lines or other facilities that would restrict the use of any area of the easement. (See Sample Application Packet, Form-RUS-TX 442-8 (Rev. 6-06) or Form RUS-TX 442-9 (Rev. 6-06)) The easement will be filed in the real property records of the appropriate county or counties.

Equity Buy-In Fee – Each Applicant for new service where a new service tap is necessary shall be required to achieve parity with the contributions to the construction of the Corporations facilities

capacity that have been made previously by existing Members. This fee shall be assessed prior to providing or reserving service on a per service unit basis for each property and shall be assigned and restricted to that property for which the service was originally requested. (Tariff Section G. 5., also see Tariff Section K Miscellaneous)

Final Plat – A complete plan for the subdivision of a tract of land showing or referencing Local Tax Appraisal Maps, access to public road(s), number and size of lots, location of dedicated water easements, and location(s) of lakes, streams, or rivers through the property. The Southeast Water Supply Corporation shall determine if a plat submitted for the purpose of this Tariff shall qualify as a final plat. For purposes of evaluating Subdivision service requests under Section F. the Corporation may accept preliminary plats or plats awaiting final approval pending execution of agreement for service by the Corporation.

Hazardous Condition – A condition that jeopardizes the health and welfare of the Members/Consumers of the Corporation as determined by the Corporation or regulatory authority.

Indication of Interest Fee – A fee paid by a potential Member of the Corporation for the purpose of determining the feasibility of a construction and /or expansion project. The Indication of Interest Fee may be converted to a Membership Fee upon determination that service to the Applicant is feasible and available. This also applies to applicants applying for, or receiving, Temporary Service. (Tariff Section E. 10 b., and Sample Application Packet - USDA RUS-TX Bulletin 1780-9 (Rev. 01/09))

Liquidated Membership – A Membership that has been canceled due to delinquent charges exceeding the Membership Fee or for other reasons as specified in this Tariff.

Member – Any person, partnership, cooperative corporation, corporation, agency, or public or private organization who holds a membership in the Corporation and who is a record owner of the property served, that has qualified for service and been certified as a member in accordance with the Corporation's Tariff. (Texas Water Code Section 13.002(11), Texas Water Code Section 67.016(d))

Membership – A non-interest bearing stock or right of participation purchased from the Corporation evidencing a Member's interest in the Corporation. (See Tariff Section E. 10 b and Texas Business Organizations Code Sections 22.053, 22.151(c))

Membership Fee – A fee qualified as such under the terms of the tariff and the bylaws of the Corporation assigned to the real estate designated to receive service. The membership fee shall be non-refundable upon termination of service and surrendering the Membership. The membership fee cannot be more than 12 times the minimum monthly base rate. (30 TAC Section 291.3(25) Definitions, Texas Water Code Section 13.043(g))

Proof of Ownership – For the purpose of this tariff, applicants for service and membership shall provide proof of ownership of the real estate to be served by deed of trust, warranty deed, or other recorded documentation. (Texas Water Code Section 67.016(d))

Rural Utilities Service (RUS) – An agency of the United States Department of Agriculture Rural Development Mission Area that provides loan and grant funds for development of rural water and sewer systems serving communities with a population of less than ten thousand (10,000) people.

Renter – A consumer who rents or leases property from a Member or who may otherwise be termed a tenant. (See Tariff Section E. 11.)

Re-Service – Providing service to an Applicant at a location for which service previously existed and where there is an existing setting for a meter. Costs of such re-servicing shall be based on justifiable expenses in connection with such re-servicing. (See Tariff Section E. 7. b., and Section K Miscellaneous)

Service Application and Agreement – A written agreement between the Member/Applicant and the Corporation defining the specific type of service requirements requested on the current service application and agreement form, and the responsibilities of each party required before service is furnished. (See Sample Application Packet RUS-TX Bulletin 1780-9 (Rev. 01/09) or Non-Standard Service Contract)

Service Investigation Fee – A fee for costs associated with determining if service is available and determining cost of service. (See Tariff Section G. 1.)

Service Unit – The base unit of service used in facilities design and rate making. For the purpose of this Tariff, a service unit is a 5/8" X 3/4" water meter. (See Tariff Section G. 7. a., Section K Miscellaneous)

Subdivide – To divide the surface area of land into lots or tracts. (Texas Local Government Code Section 232.021(11) Definitions, Texas Water Code Section 13.2502(e)(1))

Subdivider – An individual, firm, corporation, or other legal entity that owns any interest in land and that directly or indirectly subdivides land into lots as a part of a common promotional plan in the ordinary course of business. (Texas Local Government Code Section 232.021(12) Definitions)

Subdivision – An area of land that has been subdivided into lots or tracts. (Local Government Code Section 232.021(13) Definitions)

Tariff – The operating policies, service rules, service extension policy, service rates, water use restriction policies, sample application packet, and miscellaneous transaction forms adopted by the Board of Directors. A copy of this Board approved tariff is on file at the Corporation office and as required by law at the State office of the TCEQ.

Temporary Service – The classification assigned an applicant that is in the process of construction. This could also apply to service for uses other than permanent (agricultural, road construction, drilling, livestock, etc.). The Board will set the length of time associated with this classification. This classification will change to permanent service after requirements in Tariff Section E. 1, E. 2, E. 3, and E. 6 are met. Applicant must have paid an Indication of Interest Fee.

Texas Commission on Environmental Quality (TCEQ) – State regulatory agency having jurisdiction of water and sewer service utilities and appellate jurisdiction over the rates and fees charged by Non-Profit Water and Sewer Service Corporations.

Transferee – An Applicant receiving a Southeast WSC Membership by legal means from a person or entity desiring to forfeit and transfer current rights of Membership to another person or entity. (See Tariff Section E. 10 c., Miscellaneous Transaction Forms, Texas Water Code Section 67.016)

Transferor – A Member who transfers Membership by legal means to another person or entity desiring to qualify for service at a property for which the Membership is currently issued or to the Corporation. (Texas Water Code, Section 67.016)

Usage – Amount billed or to be collected based on the meter reading.

Water Conservation Penalty – A penalty that may be assessed under Section H of this Tariff to enforce customer/member water conservation practices during drought contingency or emergency water demand circumstances. (Texas Water Code Section 67.011 (b)).

SECTION D
GEOGRAPHIC AREA SERVED

SECTION D. GEOGRAPHIC AREA SERVED

This section should include an area map that shows the Corporation's Certificated Service Area. Therefore, the Corporation must make sure that its current service area corresponds to the area and/or facilities as approved by the TCEQ in its Certificate of Convenience and Necessity. **It is the responsibility of the Corporation to properly file a map showing its service area with the TCEQ and to file for any changes in that service area. This copy of the Commission's official service map will serve as documentation in the event of future disputes over service areas.**

CERTIFICATE OF CONVENIENCE AND NECESSITY

To Provide Water Service Under Texas Water Code
and Texas Commission on Environmental Quality Substantive Rules

Certificate No. 12180

I. Certificate Holder:

Name: Southeast Water Supply Corporation
Address: P.O. Box 640, 103 N. Cass Street
Centerville, Texas 75833

II. General Description and Location of Service Area:

The service area covered by the certificate is for facilities only and is located 8 miles northeast and 14 miles southwest of downtown Centerville, Texas and is generally bounded on the North by the line approximately 3-4/10 miles north of Highway 75; on the east by a line approximately 3/10 of a mile west of FM 811; on the south by a line approximately 2-8/10 miles south of FM 977; on the west by a line approximately 1/10 of a mile east of CR 452; on the north and west by CR 499; on the east by FM39; and on the south by CR 458.

III. Certificate Maps:

The certificate holder is authorized to provide water service in the area identified on the Commission's official service area map, WRS-145, maintained in the offices of the Texas Commission on Environmental Quality, 12011 Park 35 Circle, Austin, Texas with all attendant privileges and obligations.

This certificate is issued under Application No. 7602-C, No. 9302-C, No. 32556-C No. 34019-C and subject to the rules and orders of the Commission, the laws of the State of Texas, conditions contained herein and may be revoked for violations thereof. The certificate is valid until amended or revoked by the Commission.

Approved Southeast WSC

This is a black and white map of a coastal region, likely the Gulf of Mexico. The map shows landmasses, water bodies, and a network of roads or railways. The map is oriented with North at the top. A legend box is visible in the upper left corner, and a scale bar is in the lower right corner. The map features several large landmasses, including a prominent one in the upper left and a large one in the center. A network of roads or railways is shown as thin lines connecting various points. The water bodies are represented by the unshaded areas. The map is oriented with North at the top. A legend box is visible in the upper left corner, and a scale bar is in the lower right corner.

APPLICATION NO. 32556-C

IN THE MATTER OF THE
APPLICATION OF SOUTHEAST
WATER SUPPLY CORPORATION TO
AMEND CERTIFICATE OF
CONVENIENCE AND NECESSITY
NO. 12180 IN LEON COUNTY,
TEXAS

§
§
§
§
§
§
§

BEFORE THE
TEXAS NATURAL RESOURCE
CONSERVATION COMMISSION

On DEC 01 2000, the Executive Director of the Texas Natural Resource Conservation Commission pursuant to Chapters 5 and 13 of the Texas Water Code considered the application of Southeast Water Supply Corporation to amend Certificate of Convenience and Necessity No. 12180 in Leon County, Texas.

No person has requested a public hearing on the application;

Notice of the application was given all affected and interested parties;

The system has no outstanding deficiencies;

The criteria set forth in *Texas Water Code* Section 13.246(c), have been considered; and

The certificate transfer requested in this application is necessary for the service, accommodation, convenience, and safety of the public.

Now, therefore, be it ordered by the TEXAS NATURAL RESOURCE CONSERVATION COMMISSION that the application is granted and Certificate of Convenience and Necessity No. 12180 be amended in accordance with the terms and conditions set forth herein and in the certificate.

IT IS FURTHER ORDERED that Southeast Water Supply Corporation shall serve every customer and applicant for service within the area certified under Certificate of Convenience and Necessity No. 12180 and that such service shall be continuous and adequate.

BEFORE THE

TEXAS COMMISSION ON

ENVIRONMENTAL QUALITY

On **MAR 07 2003**, the Executive Director of the Texas Commission on Environmental Quality pursuant to Chapters 5 and 13 of the Texas Water Code considered the application of Southeast Water Supply Corporation to amend Certificate of Convenience and Necessity No. 12180 in Leon County, Texas.

No person has requested a public hearing on the application;

Notice of the application was given to all affected and interested parties;

The criteria set forth in *Texas Water Code* Sections 13.246(c) has been considered; and

The certificate amendment requested in this application is necessary for the service, accommodation, convenience, and safety of the public.

Now, therefore, be it ordered by the Texas Commission on Environmental Quality that the application is granted and Certificate of Convenience and Necessity No. 12180 be amended in accordance with the terms and conditions set forth herein and in the certificate.

IT IS FURTHER ORDERED that Southeast Water Supply Corporation shall serve every customer and applicant for service within the area certified under Certificate of Convenience and Necessity No. 12180 and that such service shall be continuous and adequate.

Texas Commission on Environmental Quality

Issued date: **MAR 07 2003**

For the Commission

SECTION E
SERVICE RULES AND REGULATIONS

SECTION E. SERVICE RULES AND REGULATIONS

1. ***Service Entitlement.*** The Applicant(s) shall be considered qualified and entitled to water utility service when proper application has been made, terms and conditions of Service and Membership have been met and continue to be met, and all fees have been paid as prescribed. (30 TAC 291.85(a))

2. ***Service Location and Classification.*** For the purposes of this Tariff, service requested by the Applicant(s) shall be for real estate designated to receive the service provided by the Corporation. Service shall be through a meter located on that designated real estate unless otherwise approved by the board. Service shall be divided into the following two classes:
 - a. **Standard Service** is defined as service on a specific property designated to receive service on an existing pipeline where pipeline or service facility extensions are not required and special design and/or engineering considerations are not necessary. Typically, this would include 5/8" X 3/4" or 3/4" sized water meter services set on existing pipelines.
 - b. **Non-Standard Service** is defined as any service request which requires a larger meter service, service to a Master Metered Account (see E 7 of this section), or an addition to the supply, storage and/or distribution/collection system. The service requirements as prescribed by Section F of this Tariff shall be required of the Non-Standard Service Applicant prior to providing service.

3. ***Service Requirements.*** The Corporation's Service Application and Agreement Form shall be completed in full and signed by the Applicant(s). Where applicable in addition to the applicant any other person sharing an ownership interest in and receiving service at that property shall sign the Service Application and Agreement Form; however, even if the spouse or other person sharing an ownership interest does not sign the Service Application and Agreement Form, they are still responsible for all terms set forth therein, and for any debt obligation related to the account. (See Sample Application RUS-TX Bulletin 1780-9 (Rev. 01/09))
 - a. A Right-of-Way Easement Form, Sanitary Control Easement, or other such easement form, required by the Corporation, must be completed by the Applicant for the purpose of allowing future facility additions. (See Sample Application - RUS-TX Bulletin 1780-9 (Rev. 01/09), 30 TAC 290.47 Appendix C.) **NOTE:** This requirement may be delayed for Non-Standard Service requests.
 - b. The Applicant shall provide proof of ownership to property for which service has been requested in a manner acceptable to the Corporation. Proof of ownership shall consist of warranty deed, deed of trust or other recordable documentation of title to the real estate designated to receive service. (Texas Water Code Sections 67.016 (e), and 13.002 (11)).
 - c. On the request by the property owner or owner's authorized agent, the Corporation shall install individual meters owned by the Corporation in an apartment house, manufactured home rental community, multiple use facility, or condominium on which construction begins after January 1, 2003, unless the Corporation determines that installation of individual meters is not feasible. If the Corporation determines that installation of meters is not feasible, the property owner or manager shall install a plumbing system that is compatible with the installation of submeters or individual meters. The Corporation shall be entitled to the payment of costs, including the costs of individual meter installations, as provided in Section G. The cost of individual meter installation shall be prepaid by the property owner as well as

the cost of any additional facilities or supply occasioned by the total water service demand represented by full occupancy of the property, as determined under applicable provisions of Section F. It shall be the responsibility of the property owner to obtain the memberships required for each individual meter.

- d. Notice of application approval and costs of service determined by the Corporation shall be presented to the Applicant in writing and shall remain in effect for a period not to exceed thirty (30) days. After that time the Applicant must re-apply for service. (30 TAC 291.81(a)(1))
- e. If the water main has been located in the public right-of-way and is adjacent to Applicant's property due to the current or previous landowner's refusal to grant easement to the Corporation for the purpose of installing the water main and appurtenances, and the Corporation has documentation of such refusal, the Applicant, prior to receiving the requested service, shall grant easement required under this Tariff and in addition to the normally required fees for new customer service, shall pay such sums as are reasonably necessary to cap the existing line in the ROW and construct the appropriate line or lines within that easement for the Corporation's system-wide service. (see Miscellaneous Transaction Forms)

4. ***Line Extension Reimbursement.*** – An approved Applicant may have to pay on a prorated basis a line reimbursement fee to the Corporation for the purpose of reimbursing a member or other party that made the capital outlay to extend service to that area. (See Miscellaneous Transaction Forms)

5. ***Ownership of equipment.*** All water meters and equipment and materials required to provide water service to the point of customer connection; water meter or service tap, is the property of the Corporation upon installation, and shall be maintained by the water system only.

6. ***Activation of Standard Service.***

- a. **New Tap** – The Corporation shall charge a non-refundable service installation fee as required under Section G of this tariff. The service installation fee shall be quoted in writing to the Applicant. Any debt owed to the Corporation and all fees shall be paid. (30 TAC 291.86 (a)(1)(A))
- b. **Re-Service** – On property where service previously existed, the Corporation shall charge the Membership Fee (where the Membership Fee has been liquidated), reconnection costs, any debt owed to the Corporation if the applicant is the person that previously incurred those charges and other applicable costs necessary to restore service.
- c. **Performance of Work** – All tap and equipment installations specified by the Corporation shall be completed by the Corporation staff or designated representative after all application requirements have been met. The tap for a standard service request shall be completed within five (5) working days whenever practicable, but not later than ten (10) working days. This time may be extended for installation of equipment for Non-Standard Service Request. (See Section F)
- d. **Inspection of Customer Service Facilities** – The property of the Applicant/Member shall be inspected to insure compliance with state required Minimum Acceptable Operating Practices For Public Drinking Water Systems as promulgated by the Texas Commission on Environmental Quality or successor agency. The customer must, at his or her expense, properly install, inspect, test, maintain and provide all required documentation of any approved backflow prevention device required by the Corporation. (30 TAC 290.46(j); Section I Service Application and Agreement)

7. **Activation of Non-Standard Service.** Activation of Non-Standard Service shall be conducted as prescribed by terms of Section F of this Tariff.
8. **Changes in Service Classification.** If at any time the Corporation determines that the customer service needs changed from those originally applied for to a different service classification and the Corporation determines that additional or different facilities are necessary to provide adequate service, the Corporation shall require the Applicant/Member to re-apply for service under the terms and conditions of this Tariff. Applicant/Members failing to comply with this provision shall be subject to the Disconnection with Notice Provisions of this Tariff, Section E 17 a.
9. **Membership.**
- a. **Eligibility** – Eligibility for Membership shall not guarantee service to the Applicant or Transferee; however, qualification for service is a prerequisite to Membership eligibility for new Applicants or continued Membership for Transferees.
 - b. **Membership** - Upon qualification for service, qualification for Membership, payment of the required fees, and any debt owed to the Corporation, the Corporation shall certify the Applicant as a Member. The Membership shall entitle the Member to one (1) connection to the Corporation's water utility service and one (1) share of Corporation Stock. The Membership entitles the Member to one (1) vote in the election of directors and in such other matters requiring the approval of the Corporation's Members at any Annual or Special Membership Meeting of the Corporation as prescribed by the Corporation Bylaws. Ownership of more than one (1) Membership shall not authorize the Member to cast more than one (1) vote at any annual or special meeting. Each Membership and Stock thereby represented may be assigned to the specified parcel of land originally designated to receive service at the time of application. (Texas Water Code Section 67.016) **NOTE (1):** In the event that the Corporation is conducting a potential Members survey for indications of interest in future service for the purpose of determining the feasibility of an initial construction or expansion project under RUS guidelines (see Sample Application Packet), regular application procedures may be modified. An Indication of Interest Fee may be required prior to qualifications for receipt of service by the Applicant but shall only be used or applied as a Membership Fee for Membership purposes (upon issuance of a Membership) if service is ultimately received or reserved by the Applicant as a result of the planned project facilities. If service is not provided within the scope of this project, Indication of Interest Fees shall be refunded, less expenses, within sixty (60) days of the loan closing with the Rural Utilities Service. **NOTE (2):** In the event the applicant is in the process of construction the Membership will be considered TEMPORARY until such time as the final Customer Service Inspection is completed and the forms are returned as required. (See Section C, Section E Sub-Section 1. Service Entitlement)
 - c. **Transfers of Membership.** – (Texas Water Code Section 67.016)
 - 1) A Member is entitled to transfer Membership in the Corporation only under the following circumstances:
 - (a) The Membership is transferred by will to a person related to the Transferor within the second degree by consanguinity; or
 - (b) The Membership is transferred without compensation to a person related to the Transferor within the second degree by consanguinity; or
 - (c) The Membership is transferred without compensation or by sale to the Corporation;

- (d) The Membership is transferred as a part of the conveyance of real estate from which the Membership arose.
- 2) In the event that Membership is transferred pursuant to the provisions of Subsection 9 c. (1) of this Section, such transfer shall not be completed or recorded on the books and records of the Corporation until such time as the transferor has provided satisfactory evidence to the Corporation of such transfer. A transfer of Membership shall be considered a new application for service and is not binding on the Corporation until such transfer has been approved as provided by Subsection 9 c. (3) of this Section.
- 3) Qualifications for service upon transfer of Membership set forth in Subsection 9 c. (1) of this and 9 c. (2) of this Section shall be subject to approval of the Corporation and shall be recorded on the books and records of the Corporation only upon the following terms and conditions:
 - (a) The Transferee has completed the required Application Packet including granting the Corporation with a private utility easement on the form provided by the Corporation;
 - (b) The membership has not been fully or partially liquidated; and
 - (c) The Transferee demonstrates satisfactory evidence of ownership of the property designated to receive service and from which the Membership originally arose.
- 4). If the application packet and other information is not completed on the day transfer of membership is requested the Corporation will give the transferee written notice of 10 additional days to produce completed documentation to the corporation office. Service will be disconnected on the day following the 10th day according to disconnection with notice requirements. Additional time may be allowed at the directions of the manager or board.
- d. **Cancellation of Membership** – To keep a Membership in good standing, a Base Rate must be paid monthly to the Corporation, whether or not water is used. Failure to pay this monthly charge to the Corporation shall jeopardize the Member's Membership standing and give rise to liquidation of the Membership Fee and forfeiture of the Membership. A Member may be relieved of this obligation to pay by surrendering the Membership, properly documented, to the Corporation. The Member shall also complete a Service Discontinuance Request Form prior to termination of service. (See Misc. Transaction Forms.) However, a Member is not relieved of any obligations incurred prior to the date of surrender of a properly endorsed Membership prior to termination of service. Rights to future service at this tap shall be extended on an as-available basis and subject to the terms of the Activation of Service Subsection E 6. of this Tariff. (Texas Water Code Section 67.016)
- e. **Liquidation Due To Delinquency** – When the amount of the delinquent charges owed by the Member equals the Membership Fee, the Membership Fee shall be liquidated and the Membership canceled and transferred back to the Corporation. In the event the Member leaves a balance due on an account guaranteed under the terms of a Service Application and Agreement, and the delinquent Member owns more than one Membership, the Corporation may liquidate as many of the Member Guarantor's Membership Fees as necessary to satisfy the balance due the Corporation, provided proper notice has been given (see Tariff Section E, Subsection 17.). The Corporation shall collect any remaining account balances by initiation of legal action. Re-instatement of service shall be subject to the terms of the Activation of Service Subsection E 6. of this Tariff.
- f. **Cancellation Due To Policy Non-Compliance** – The Corporation may cancel a Membership anytime a Member fails to comply with policies of the Corporation, including but not limited to Member's failure to provide proof of ownership of the property from which

the Membership arose. (Texas Water Code Section 67.016)

g. **Re-assignment of Canceled Membership.**

- 1) The Corporation, upon cancellation of Membership under the provisions of this Tariff, may re-assign the canceled Membership to a person or entity that has legal title to the real estate from which the canceled membership arose and for which water service is requested (Texas Water Code Section 67.016). Membership will not be re-assigned unless the person or entity that has legal title to the real estate has complied with the Corporation's current rates, charges, and conditions of service, including current membership fee, set forth in the tariff and service application package.
- 2) The Corporation shall re-assign a canceled Membership to a person or entity that acquires the real estate from which the Membership arose through judicial or non-judicial foreclosure. The Corporation will require proof of ownership resulting from the foreclosure and compliance with the Corporation's current rates, charges, and conditions of service, including current membership fee, set forth in the tariff and service application package. In the event of foreclosure by a mortgage institution, the Corporation may allow a property management company to acquire the Membership if the management company provides written documentation showing that the management company is legally responsible for the management of the property and it is not feasible for the mortgage institution to be the Member.

h. **Mortgaging of Memberships** – Nothing herein shall preclude a Member from mortgaging his/her Membership. However, notification to the holder of any security interest (mortgagee/lien-holder) of account status of Member/mortgagor will be provided only upon satisfactory completion of requirements for such conditions under the Membership Mortgage Agreement (See Miscellaneous Transaction Forms). Prior to the cancellation of any Membership as provided under Subsection E 9.d. (Cancellation of Membership), the Corporation will notify the holder of any security interest in the Membership. The holder of the security interest also must hold a security interest in the real property at which water service is provided under the Membership. The Corporation may transfer the Membership to the holder of such security interest in lieu of cancellation, provided the holder of the security interest pays in full all delinquent and unpaid obligations and provided further that the holder of the security interest has secured title to the real property from which the Membership arose. The Corporation may withhold cancellation of a Membership pending the resolution of any foreclosure proceedings or similar legal proceedings by the holder of the security interest.

i. **Cancellation and Re-Assignment of Membership as a Result of Bankruptcy Proceedings** – Upon notice of the filing of a petition in bankruptcy, the Corporation may require the posting of a deposit or other form of security, acceptable to the Corporation, as a condition for continuing utility service. Unless special circumstances require otherwise, the amount of security shall equal the amount of charges for the month of greatest use during the preceding 12 months. The Corporation shall not require the payment of any security prior to the expiration of 20 days following the date on which the petition is filed. Failure to provide this security by the date specified by the Corporation may result in termination of service according to the Disconnection with Notice Provisions of Section E 17. of this Tariff, with a copy of the notice to the bankruptcy Trustee.

j. **Cancellation and Re-Assignment of Membership as a Result of Divorce (or Dissolution of Joint Tenancy)** – The Corporation shall transfer the membership to a spouse (or joint tenant) who has been awarded the property designated to receive service. The Corporation

must be provided adequate documentation of the ownership rights of the spouse (or joint tenant) requesting transfer, such as final divorce decree, temporary court order, or agreement. In no event shall any membership(s) be transferred if the transferee does not otherwise meet the qualifications for membership and for service.

10. Owners and Renters. Any Member having complied with the requirements of this Tariff, renting or leasing property designated to receive service according to the terms of this tariff to other parties, is responsible for all charges due the Corporation. The membership for rental or leased properties shall be in the name of the owner of the property as required by this Tariff. The Corporation may bill the renter or lessee for utility service (at Member Request) as a third party, but the Member is fully responsible for any and all unpaid bills left by the renter/lessee. The owner shall be required to sign an Alternate Billing Agreement if the owner requests that the tenant be billed for utility service. (See Miscellaneous Transaction Forms.) The Member shall take responsibility for any necessary deposits from the renter/lessee to ensure payment of a past due bill. The Corporation will notify the Member of the renter's past due payment status. Such notification will be subject to a service charge (see Miscellaneous Transaction Forms).

If at any time the member requests that membership be canceled thereby discontinuing service to an occupied rental property, the Corporation shall provide written notice to the tenant(s) a minimum of five (5) days prior to the scheduled disconnection date.

11. Denial of Service. The Corporation may deny service for any of the following reasons:

- a. Failure of the Applicant or Transferee to complete all application requirements, including granting an easement, completing all forms, and paying all required fees and charges.
- b. Failure of the Applicant or Transferee to comply with rules, regulations, policies, and bylaws of the Corporation.
- c. Existence of a hazardous condition at the Applicant's property which would jeopardize the welfare of the Members/Users of the Corporation upon connection.
- d. Failure of Applicant or Transferee to provide representatives or employees of the Corporation reasonable access to property, for which service has been requested.
- e. Failure of Applicant or Transferee to comply with all governmental rules and regulations of the Corporation's tariff on file with the state regulatory agency governing the service applied for by the Applicant.
- f. Failure of Applicant or Transferee to provide proof of ownership, to the satisfaction of the Corporation, of property for which the tap has been requested.
- g. Applicant's service facilities are known to be inadequate or of such character that satisfactory service cannot be provided.
- h. Failure of Applicant or Transferee to comply with applicable regulations for on-site sewage disposal systems if the Corporation has been requested to deny service by the TCEQ or the TCEQ's designated representative under Chapter 366 of the Texas Health and Safety Code.
- i. Failure of the Applicant or Transferee to pay any previous outstanding delinquent account(s) in full. This could be delinquencies resulting from the same account location or other service location(s) within the system where the Applicant or Transferee received service. (Also see E 9.)

- 12. *Applicant's or Transferee's Recourse.*** In the event the Corporation refuses to serve an Applicant under the provisions of these rules, the Corporation must notify the Applicant, in writing, on the basis of its refusal. The Applicant may file for an appeal, in writing, with the Board of Directors of the Corporation.
- 13. *Insufficient Grounds for Refusal of Service.*** The following shall not constitute sufficient cause for the refusal of service to an Applicant:
- a. Delinquency in payment for service by a previous member or occupant of the premises to be served;
 - b. Failure to pay a bill to correct previous underbilling due to misapplication of rates more than six (6) months prior to the date of application;
 - c. Violation of the Corporation's rules pertaining to operation of non-standard equipment or unauthorized attachments which interferes with the service of others, unless the customer has first been notified and been afforded reasonable opportunity to comply with said requirements;
 - d. Failure to pay a bill of another member or customer as guarantor thereof unless the guarantee was made in writing to the Corporation as a condition precedent to service;
 - e. Failure to pay the bill of another member or customer at the same address except where the change of customer identity is made to avoid or evade payment of a utility bill.
- 14. *Deferred Payment Agreement.*** The Corporation may offer a deferred payment plan to a Member who cannot pay an outstanding balance in full and is willing to pay the balance in reasonable installments as determined by the Corporation, including any Late Penalty Fees or interest on the monthly balance to be determined as per agreement. (See Miscellaneous Transaction Forms) Failure to make required and timely payments as provided in any deferred payment agreement will void that agreement and service will be discontinued. Non-payment of any amount under an additional deferred payment agreement will cause service to be disconnected immediately and service will not be restored until the account is paid in full and all other charges resulting from the disconnection of service are fully paid.
- 15. *Charge Distribution and Payment Application.***
- a. **The Base Rate** is for the billing period from the first day of the month to the last day of the following month. Charges shall be prorated for meter installations and service termination's falling during the billing period. Billings for this amount shall be mailed on or about the first day of the month preceding the month for which this charge is due. All services shall be subject to this charge whether or not the service is in use by the Member.
 - b. **Gallonage Charge** shall be billed at the rate specified in Section G and billing shall be calculated in one hundred (100) gallon increments. Water charges are based on monthly meter readings and are calculated from reading date to reading date. Readings used in all billing calculations shall be taken by the Corporation's employees or designated representative.
 - c. **Posting of Payments** – All payments shall be posted against previous balances and late fees prior to posting against current billings.
 - d. **Forms of Payment:** The Corporation will accept the following forms of payment: cash, personal check, cashier's check, or money order. The Corporation will not accept two-party checks, pay checks, or any other instrument of payment that is not made out to the Corporation. The Corporation reserves the right to require exact change and may refuse to

accept payment made using more than one dollar (\$1.00) in coins.

16. *Due Dates, Delinquent Bills, and Service Disconnection Date.*

- a. The Corporation shall mail all bills on or about the 1st of the month. All bills are considered the responsibility of each person signing the Service Application and Agreement form. All bills shall be due and payable upon receipt and are past due beyond the date indicated on the bill (allowing approximately fifteen (15) days to pay), after which time a penalty shall be applied as described in Section G. The time for payment by a political subdivision may be different than your regular due date. (See Texas Government Code 2251.021) A bill is delinquent if not paid on or before the past due date. Payments made by mail will be considered late if postmarked after the past due date. Final notices shall be mailed allowing ten (10) additional days for payment prior to disconnection. The ten (10) additional days shall begin on the day the final notice is deposited with the U.S. Postal Service with sufficient postage. If the past due date for the regular or final billing is on a weekend or holiday, the past due date for payment purposes shall be the next day the Corporation office is open for business after said weekend or holiday. For all disputed payment deadlines, the date postmarked on each bill will determine the beginning of each billing cycle or final notice mailings.
- b. The board of directors or general manager may elect to not charge a late fee or disconnect fee in accordance with this Tariff during or after the occurrence of a natural disaster or other incident that impacts the property of members or interrupts the management and operation of the system.
- c. Upon written request, any residential customer 60 years of age or older who occupies the entire premises of a dwelling receiving water utility service from the Corporation shall receive extension of the past due date, without penalty. The extension shall not exceed 10 days beyond the usual 15 day payment period for a total of no more than 25 days from the date the bill is issued. The request may specify extension of the late payment periods for current and subsequent billings. (Texas Utilities Code Sections 182.001 - 182.005) If this request originates from a tenant at a rental property the owner / member will be notified in writing of any extension request.
- d. All insufficient fund checks, accounts closed or money orders that have had a “stop payment order” issued for payment of a water bill will be deemed delinquent as if no payment was received and the meter is subject to disconnection with notice on the regular disconnection day.

17. *Rules for Disconnection of Service.* The following describes the rules and conditions for disconnection of service. Notwithstanding any language to the contrary in the Service Application and Agreement Form, the Corporation may only discontinue service for the reasons set forth in this Section.

- a. **Disconnection with Notice** – Water utility service may be disconnected for any of the following reasons after proper notification has been given.
 - 1) **Returned Checks** – The Corporation shall mail, via the U.S. Postal Service, a notice requiring redemption of the returned instrument within ten (10) days of the date of the notice to be made in the Corporation office. Redemption of the returned instrument shall be made by cash, money order, or certified check. Failure to meet these terms shall

- initiate disconnection of service. (See Miscellaneous Transaction Forms) Any such instruments returned as insufficient or non-negotiable for any reason for any two billing periods within a 12-months period shall be considered evidence of bad credit risk by the Corporation. The Member/Customer in violation shall be placed on a “cash-only” basis for a period of 12 months. **NOTE:** “cash only” means certified check, money order, or cash.
- 2). Failure to pay a delinquent account for utility service, failure to timely provide a deposit or other security under Section E 11 (i), or failure to comply with the terms of a deferred payment agreement (Miscellaneous Transaction Forms).
 - 3). Violation of the Corporation’s rules pertaining to the use of service in a manner which interferes with the service of others or the operation of non-standard equipment if a reasonable attempt has been made to notify the Member and the Member is provided with a reasonable opportunity to remedy the situation;
 - 4). Failure of the Member to comply with the terms of the Corporation’s Service Agreement, Tariff (including, where appropriate, Section H), Bylaws, or Special Contract provided that the Corporation has given notice of said failure to comply, and Member has failed to comply within a specified amount of time after notification.
 - 5). Failure to provide access or hindering access to the meter under the terms of this Tariff or to property at which water service is received when there is reason to believe that a hazardous condition or policy violation exists for which access is necessary to verify. Conditions that may hinder access include, but are not limited to, fences with locked gates, vehicles or objects placed on top of meters or meter boxes, and unrestrained animals.
 - 6). Misrepresentation by any Applicant or Transferee of any fact on any form, document, or other agreement required to be executed by the Corporation.
 - 7). Failure of Member to re-apply for service upon notification by the Corporation that Member no longer meets the terms of the service classification originally applied for under the original service application.
 - 8). Cancellation of membership by Member on an account that the Member holds for water service to the Member’s renter/lessee, even if the renter/lessee has kept the account balance current under an Alternate Billing Agreement. (Note: The cancellation of membership must be in writing and signed by the Member. CORPORATION ASSUMES NO LIABILITY TO RENTER/LESSEE; MEMBER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH, AND LIABILITY UNDER ANY FEDERAL, STATE OR LOCAL LAW CREATING OR PROTECTING RIGHTS OF RENTERS/LESSEES.)
 - 9). Violation of any applicable regulation or pertaining to on-site sewage disposal systems if the Corporation has been requested in writing to disconnect service by the TCEQ or the TCEQ’s designated representative under Chapter 366 of the Texas Health and Safety Code.
 - 10). Failure to pay charges arising from service trip fee as defined in Section G 14., meter re-read fee, or meter read fee when customer on self-read plan failed to submit their meter reading.
 - 11). Failure by a Member to pay for all repair or replacement costs resulting from the Member damaging system facilities including, but not limited to water lines, service taps, meter boxes, valves, or meters by engaging in activities such as property excavations, installment of a driveway or roadway requiring encasements, lowering or re-routing of

- lines or system components, or by any other action. The Corporation will provide Member with notice detailing the extent of the damage, the location of the damage, the cost of repair, and whether the damage occurred on private property or on a public right-of-way. Failure to pay the cost of repair or replacement will result in the Member's service being disconnected in accordance with the Disconnection with Notice Provisions in this Section. Service will remain disconnected until payment is received or an acceptable payment plan is approved.
- 12). Failure to disconnect or secure additional service tap(s) for an RV or other service connection (See E 25. of this Section) after notification by the Corporation of violation of the Prohibition of Multiple Connections.
- b. **Disconnection Without Notice** – Water utility service may be disconnected without notice for any of the following conditions:
- 1) A known dangerous or hazardous condition exists for which service may remain disconnected for as long as the condition exists, including but not limited to a public health nuisance as defined in Texas Health and Safety Code Sections 341.011 or 343.011. If there is reason to believe a dangerous or hazardous condition exists, the Corporation may conduct a customer service inspection (CSI) to verify the hazardous condition and may notify the local county health office. The Corporation will disconnect without notice if the Member refuses to allow access for the purpose of confirming the existence of such condition and/or removing the dangerous or hazardous condition (30 TAC 290.46(i) and 290.46(j)). Service will be restored when a CSI confirms no health hazard exists, the health hazard has been removed or repaired, or the health hazard has been isolated from the Corporation's water system by the installation of a backflow prevention device.
 - 2) A line leak on the member's side of the meter is considered a potential hazardous condition under b (1). If the Corporation conducts a CSI and discovers that the line leak has created a hazardous condition, the Corporation will provide the member up to five (5) business days, or another time period determined reasonable under the circumstances, to repair the line prior to disconnection of service.
 - 3) Service is connected without authority by a person who has not made application for service or who has reconnected service without authority following termination of service for nonpayment; and
 - 4) In instances of tampering with the Corporation's meter tap or equipment, by-passing the meter or equipment, or other diversion of water service.
- NOTE:** Where reasonable, given the nature of the reason for disconnection, a written statement providing notice of disconnection and the reason therefore shall be posted at the place of common entry or upon the front door of each affected residential unit as soon as possible after service has been disconnected.
- c. **Disconnection Prohibited** – Utility service may not be disconnected for any of the following reasons:
- 1) Failure of the Member to pay for merchandise or charges for non-utility service provided by the Corporation, unless an agreement exists between the Applicant and the Corporation whereby the Member guarantees payment of non-utility service as a condition of service;
 - 2) Failure of the Member to pay for a different type or class of utility service unless a fee for such service is included in the same bill;

- 3) Failure of the Member to pay charges arising from an underbilling occurring due to any misapplication of rates more than six (6) months prior to the current billing;
- 4) Failure of the Member to pay the account of another Member as guarantor thereof, unless the Corporation has in writing the guarantee as a condition precedent to service;
- 5) Failure of the Member to pay charges arising from an underbilling due to any faulty metering, unless the meter has been tampered with or unless such underbilling charges are due under the Inoperative Meters subsection E 21. of this Tariff.
- 6) Failure of the Member to pay estimated bill other than a bill rendered pursuant to an approved meter reading plan, unless the Corporation is unable to read the meter due to circumstances beyond its control.
- d. **Disconnection on Holidays and Weekends** – Unless a dangerous condition exists or the Member requests disconnection, service shall not be disconnected on a day, or on a day preceding a day, when personnel of the Corporation are not available to the public for the purpose of making collections and reconnecting service.
- e. **Disconnection Due to Utility Abandonment** – The Corporation may not abandon a Member or a Certificated Service Area without written notice to its Members and all similar neighboring utilities and approval from the Texas Commission on Environmental Quality.
- f. **Disconnection for Ill Customers** – The Corporation may not discontinue service to a delinquent residential Member or tenant under an alternative billing agreement permanently residing in an individually metered dwelling unit when that Member or tenant establishes that discontinuance of service will result in some person at that residence becoming seriously ill or more seriously ill if service is discontinued. To avoid disconnection under these circumstances, the Member or tenant must provide a written statement from a physician to the Corporation prior to the stated date of disconnection. Service may be disconnected in accordance with Subsection (a) of this Section if the next month's bill and the past due bill are not paid by the due date of the next month's bill, unless the Member or tenant enters into a Deferred Payment Agreement (see Miscellaneous Transaction Forms). The Corporation shall provide notice to an owner of rental property in the event a tenant requests service not be discontinued due to illness as per this subsection.
- g. **Disconnection of Master-Metered Accounts** – When a bill for water utility services is delinquent for a master-metered service complex (defined as a complex in which a single meter serves two (2) or more residential dwelling unit(s), the following shall apply:
 - 1) The Corporation shall send a notice to the Member as required. This notice shall also inform the Member that notice of possible disconnection will be provided to the tenants of the service complex in five (5) days if payment is not rendered before that time.
 - 2) At least five (5) days after providing notice to the Member and at least five (5) days prior to disconnection, the Corporation shall post at notices, stating "Termination Notice" in public areas of the service complex notifying the residents of the scheduled date for disconnection of service.
 - 3) The tenants may pay the Corporation for any delinquent bill in behalf of the owner to avert disconnection or to reconnect service to the complex.
- h. **Disconnection of Temporary Service** – When an applicant with a Temporary service fails to comply with the conditions stated in the Service Application and Agreement Form or other rules of this Tariff service may be terminated with notice.

18. Billing Cycle Changes. The Corporation reserves the right to change its billing cycles if the workload requires such practice. After a billing period has been changed, the billings shall be sent

on the new change date unless otherwise determined by the Corporation.

19. **Back-billing.** The Corporation may back-bill a Member for up to four (4) years (48 months) for meter error, misapplied meter multiplier, incorrect meter readings, or error in computing a Member's bill. Failure to pay the most recent six (6) months billing will result in disconnection of service.
20. **Disputed Bills.** In the event of a dispute between the Member and the Corporation regarding any bill, the Corporation shall make and conduct an investigation as required by the particular case, and report the results in writing thereof to the Member. All disputes under this Subsection must be submitted to the Corporation, in writing, prior to the due date posted on said bill.
21. **Inoperative Meters.** Water meters found inoperative will be repaired or replaced within a reasonable time. If a meter is found not to register for any period, unless by-passed or tampered with, the Corporation shall make a charge for units used, but not metered, for a period not to exceed six (6) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years.
22. **Bill Adjustment.**
 - a. Due to Meter Error. The Corporation shall test any Member's meter upon written request of the Member. In the event the meter tests within the accuracy standards of The American Water Works Association, a test fee as prescribed in Section G of this Tariff shall be imposed. In the event the test results indicate that the meter is faulty or inaccurate, the test fee shall be waived, the meter shall be calibrated or replaced, and a billing adjustment may be made as far back as six (6) months. The billing adjustment shall be made to the degree of the meter's inaccuracy as determined by the test. The Member shall complete a Meter Test Request Form prior to the test. (See Misc. Transaction Forms.)
 - b. Due to Estimated Billing. If the Corporation has estimated usage because the Corporation is unable to access the meter due to circumstances beyond the Corporation's control, such as a natural disaster; or because access is hindered or denied by a Member, the Corporation shall adjust the bill once access has been regained and actual usage is determined.
23. **Meter Tampering and Damage to Property.**
 - a. For purposes of this Section, the term "Tampering" shall mean meter-tampering, by-passing, or diversion of the Corporation's service equipment, or other instances of diversion, including:
 1. removing a locking or shut-off device used by the Corporation to discontinue service,
 2. physically disorienting the meter,
 3. attaching objects to the meter to divert service or to by-pass,
 4. inserting objects into the meter,
 5. other electrical and mechanical means of tampering with, by-passing, or diverting service,
 6. connection or reconnection of service without Corporation authorization;
 7. connection into the service line of adjacent customers of the Corporation; and
 8. preventing the supply from being correctly registered by a metering device due to adjusting the valve so that flow is reduced below metering capability.

The burden of proof of Tampering is on the Corporation. Photographic evidence or any other reliable and credible evidence may be used; however, any evidence shall be accompanied by a sworn affidavit by the Corporation's staff when any action regarding Tampering is initiated. A court finding of Tampering may be used instead of photographic or other evidence, if applicable. Unauthorized users of services of the Corporation shall be prosecuted to the extent allowed by law under the Texas Penal Code Sections 28.03 and 12.21 and 12.22.

- b. If the Corporation determines under section (a) that Tampering has occurred, the Corporation shall disconnect service without notice as set forth in E. 17. (b). and charge the person who committed the Tampering the total actual loss to the Corporation Including the cost of repairs, replacement of damaged facilities, and lost water revenues.
 - c. A person who otherwise destroys, defaces, damages or interferes with Corporation property will be charged the total actual loss to the Corporation including but not limited to the cost of repairs, replacement of damaged facilities, and lost water revenues. The Corporation also will prosecute the offending party to the extent allowed under law pursuant to Texas Water Code Section 49.228 and other applicable laws.
 - d. In addition to actual damages charged under subsection (b), the Corporation may assess a penalty against the offending part. The penalty shall not exceed six (6) times the Base Rate.
- Note:** For purposes of this section, "offending party" means the person who committed the Tampering or damaged the property.

24. *Meter Relocation.* Relocation of services shall be allowed by the Corporation provided that:

- a. The relocation is limited to the existing property designated to receive service;
- b. A current easement for the proposed location has been granted to the Corporation; and
- c. The Member pays the actual cost of relocation plus administrative fees.

25. *Prohibition of Multiple Connections To A Single Tap.*

- a. No more than one (1) residential, commercial, or industrial service connection is allowed per meter. The Corporation may consider allowing an apartment building or mobile home/RV park to apply as a "Master Metered Account" and have a single meter (See Section E 26.) If the Corporation has sufficient reason to believe a Multiple Connection exists, the Corporation shall discontinue service under the Disconnection with Notice provisions of this Tariff for a first violation and for subsequent violations, service will be disconnected without notice in accordance with E 17. b. (See Sample Application Packet RUS-TX Bulletin 1780-9 (Rev. 01/09))
- b. For purposes of this section, the following definitions shall apply:
 - 1) A "multiple connection" is the connection to any portion of a member's water system that is connected to a primary delivery point already servicing one residence, one commercial or industrial facility of a water or sewer line serving another residence or commercial or industrial facility. Water lines to outbuildings, barns or other accessory structures shall not be consider a multiple connection if: (i) those structures are located on the same tract as the primary delivery point and (ii) such structures are not used as a residence or as a commercial or industrial facility.
 - 2) A "primary delivery point" shall mean the physical location of a meter that is installed in accordance with this Tariff and applicable law and which provides water service to the residence or commercial or industrial facility of a member.

- 3) A “residence” shall mean any structure which is being used for human habitation, which may include kitchen and bathroom facilities or other evidence of habitation as defined by the Corporation.
 - 4) “Commercial” facility shall mean any structure or combination of structures at which any business, trade, occupation, profession, or other commercial activity is conducted. A business conducted within a member’s residence or property that does not require water in addition to that provided to the member’s residence shall not be considered a separate commercial facility.
- c. The Corporation agrees to allow members in good standing to share water usage with a visitor on their property with a recreation vehicle (RV) or travel trailer for a period of no longer than three months. If the recreation vehicle/travel trailer is being used for a permanent residence, this Tariff requires that an additional meter installation and membership be purchased. If the member routinely has more than one visitor at a time with recreation vehicles or travel trailers or has multiple visitors throughout the year, the corporation may require that a second or additional meter(s) be purchased. The member must submit a written request to the Corporation’s business office at least five (5) business days prior to sharing Corporation water with a visitor. The Corporation has the right to refuse or deny the shared usage for any reason. The Corporation also has the right to inspect the premises for any potential cross-contamination issues as outlined in the Customer Service Inspection requirements and to ensure that the meter is properly sized for the additional usage at the time of total peak water demand. These requirements pertain to visitors ONLY. No commercial usage where fees for water are charged is allowed. If a member is found to violate these conditions, the member will be sent a letter of notice stating that water service will be cut off in ten days if the situation is not corrected.

26. Master Metered Account Regulations. An apartment building, condominium, manufactured housing (modular, mobile or RV) community, business center or other similar type enterprise may be considered by the Corporation to be a single commercial facility if the owner applies for a meter as a “master metered account” and complies with the requirements set forth in TCEQ rules, this Tariff and applicable law. The Corporation may allow master metering service to these facilities at an Applicant’s request.

27. Member’s Responsibility.

- a. The Member shall provide access to the meter location as per the easement and service agreement. If access to the meter is hindered or denied preventing the reading of the meter, an estimated bill shall be rendered to the Member for the month; and a notice shall be sent to the effect that access could not be gained. If access is denied for three (3) consecutive months after proper notification to the Member, then service shall be discontinued and the meter removed with no further notice. Conditions that may hinder access include, but are not limited to, fences with locked gates, vehicles or objects placed on top of meters or meter boxes, and unrestrained animals.
- b. The Member shall be responsible for compliance with all utility, local, and state codes, requirements, and regulations concerning on-site service and plumbing facilities.
 - 1) All water connections shall be designed to ensure against on-site sewage contamination, back-flow or siphonage into the Corporation’s water supply. In particular, livestock water troughs shall be plumbed above the top of the trough with air space between the discharge and the water level in the trough. (30 TAC 290.46, Texas Health & Safety Code Chapter 366)

- 2) The use of pipe and pipe fittings that contain more than 8.0% lead or solder and flux that contain more than 0.2% lead is prohibited for any plumbing installation or repair of any residential or non-residential facility providing water for human consumption and connected to the Corporation's facilities. Customer service pipelines shall be installed by the applicant. (30 TAC 290.46)
- c. A Member owning more than one (1) Membership shall keep all payments current on all accounts. Failure to maintain current status on all accounts shall be enforceable as per Service Application and Agreement executed by the Member.
- d. The Corporation's ownership and maintenance responsibility of water supply and metering equipment shall end at the meter or other service equipment as installed. Therefore, all water usage registering upon and/or damages occurring to the metering equipment owned and maintained by the Corporation shall be subject to charges as determined by the Corporation's Tariff as amended from time to time by the Board of Directors.
- e. The Corporation shall require each Member to have a cut-off valve within two feet of the meter on the Member's side of the meter for purposes of isolating the Member's service pipeline and plumbing facilities from the Corporation's water pressure. The valve shall meet AWWA standards (a ball valve is preferred). The Member's use of the Corporation's curb stop or other similar valve for such purposes is prohibited. Any damage to the Corporation's equipment shall be subject to service charges. (This cut-off valve may be installed as a part of the original meter installation by the Corporation.)
- f. The member is required to notify the system 48 hours prior to digging or excavation activities along or near water lines and appurtenances.

SECTION F
DEVELOPER, SUBDIVISION AND NON-STANDARD
SERVICE REQUIREMENTS

SECTION F. DEVELOPER, SUBDIVISION AND NON-STANDARD SERVICE REQUIREMENTS

Part I. General Requirements. This section details the requirements for all types of non-standard service requests.

1. ***Purpose.*** It is the purpose of this Section to define the process by which the specific terms and conditions for service to subdivisions and other kinds of Non-Standard Service are determined, including the Non-Standard Service Applicant's and the Corporation's respective costs.

For purposes of the Section, the term "Applicant" shall refer to the individual or entity that desires to secure Non-Standard Service from the Corporation. The Applicant must be the same person or entity that is authorized to enter into a contract with the Corporation setting forth the terms and conditions pursuant to which Non-Standard Service will be furnished to the property. In most cases, the Applicant shall be the owner of real property for which Non-Standard Service is sought. In the event that the Applicant is other than the owner of real property, the Applicant must furnish evidence to the Corporation that it is authorized to request Non-Standard Service on behalf of such owner, or that it otherwise has authority to request Non-Standard Service for the real property.

2. ***Application of Rules.*** This Section is applicable to subdivisions, additions to subdivisions, developments, or whenever additional service facilities are required for a single tract of property. Examples of non-standard services for a single tract of land can include, but are not limited to, road bores, extensions to the distribution system, service lines exceeding 1" diameter and service lines exceeding twelve (12) feet. Non-residential or residential service applications requiring a larger sized meter typically will be considered non-standard. For the purposes of this Tariff, Applications subject to this Section shall be defined as Non-Standard. This Section may be altered or suspended for planned facility expansions when the Corporation extends its indebtedness. The Board of Directors of the Corporation or their designee shall interpret on an individual basis whether or not the Applicant's service request shall be subject to all or part of the conditions of this Section.

This Section sets forth the general terms and conditions pursuant to which the Corporation will process Non-Standard Service Requests. The specific terms and conditions pursuant to which the Corporation will provide non-standard service in response to any request will depend upon the nature of such request and may be set forth in a legally enforceable, contractual agreement to be entered into by the Corporation and the service Applicant. The agreement may not contain any terms or conditions that conflict with this Section.

3. ***Non-Standard Service Application.*** The Applicant shall meet the following requirements prior to the initiation of a Non-Standard Service Contract by the Corporation:
 - a. The Applicant shall provide the Corporation a completed Non-Standard Service Application (See Section I this Tariff). The Applicant shall specify any Special Service Needs, such as large meter size, size of subdivision or multi-use facility.
 - b. A final plat (see Tariff Definition Section- Final Plat) approved by the Corporation must accompany the Application showing the Applicant's requested service area. The plat must be approved by all governmental authorities exercising jurisdiction over lot sizes, sewage control, drainage, right-of-way, and other service facilities. Plans, specifications, and special requirements of such governmental authorities shall be submitted with the plat. Applicants for

single taps involving extension or upsizing of facilities shall be required to submit maps or plans detailing the location of the requested extension and details of demand requirements.

NOTE: It is the responsibility of the Applicant to secure all necessary approvals of the subdivision once an Agreement is in place between the Corporation and the Applicant.

- c. A Non-Standard Service Investigation Fee shall be paid to the Corporation in accordance with the requirements of Section G of this Tariff for purposes of paying initial administrative, legal, and engineering fees. The Corporation shall refund any balance that remains after it has completed its service investigation, and has completed all legal and engineering services associated with processing a request. In the event such a fee is not sufficient to pay all expenses incurred by the Corporation, the Applicant shall pay to the Corporation upon the Corporation's request all additional expenses that have been, or will be incurred by the Corporation and Corporation shall have no obligation to complete processing of the Application until all remaining expenses have been paid.
 - d. If after the service investigation has been completed, the Corporation determines that the Applicant's service request is for property located, in whole or in part, outside the area described in the Corporation's Certificate of Convenience and Necessity, service may be extended provided that:
 - 1). The service location is not in an area receiving similar service from another retail Corporation;
 - 2). The service location is not within another retail Corporation's Certificate of Convenience and Necessity; and
 - 3). The Corporation's Certificate of Convenience and Necessity shall be amended to include the entirety of Applicant's property for which service is requested. Applicant shall pay all costs incurred by Corporation in amending its CCN, including but not limited to engineering and professional fees. If the service location is contiguous to or within one-fourth (1/4) mile of Corporation's Certificate of Convenience and Necessity, Corporation may extend service prior to completing the amendment to its CCN, but will do so only upon Applicant's legally enforceable agreement to fully support such amendment (including but not limited to payment of all professional fees, including legal, surveying and engineering fees incurred by Corporation in securing the amendment).
4. **Design.** The Corporation shall approve the design requirements of the Applicant's required facilities prior to initiation of a Non-Standard Service Contract in accordance with the following schedule:
- a. The Corporation's engineer shall design, or review and approve plans for, all on-site and off-site service facilities for the Applicant's requested service within the Corporation's specifications, incorporating any applicable municipal or other governmental codes and specifications.
 - b. The engineer's fees shall be paid out of the Non-Standard Service Investigation Fee under Tariff Section F 3.
 - c. The engineer shall submit to the Corporation a set of detailed plans, specifications, and cost estimates for the project.
 - d. The Corporation's engineer shall ensure that all facilities for any Applicant meet the demand for service as platted and/or requested in the plans or plat submitted in application for service. The Corporation reserves the right to upgrade design of service facilities to meet future demands provided however, that the Corporation shall pay the expense of such upgrading in excess of that which is reasonably allocable to the level and manner of service requested by the Applicant.
 - e. The Corporation's engineer will determine the fireflow design for any non-standard service request, including new subdivisions, based on density, type of structure, and other factors.
