<p>PETITION OF LGI HOMES LLC TO AMEND MOUNTAIN PEAK SPECIAL UTILITY DISTRICT'S CERTIFICATE OF CONVENIENCE AND NECESSITY IN JOHNSON COUNTY BY EXPEDITED RELEASE</p>	<p>§ § § § §</p>	<p>PUBLIC UTILITY COMMISSION OF TEXAS</p>
---	----------------------------------	--

**AMENDED PETITION FOR EXPEDITED RELEASE FROM CERTIFICATE OF
CONVENIENCE AND NECESSITY FOR WATER SERVICE**

COMES NOW LGI Homes – Texas, LLC, (“Petitioner”) and files this Amended Petition for Expedited Release from Certificate of Convenience and Necessity for Water Service pursuant to Texas Water Code § 13.254(a-1) and 16 Texas Administrative Code § 24.245(f), and in support thereof respectfully shows the following:

I.

The Petitioner holds fee simple title to a 73.5241 acre tract of land located in Johnson County, Texas (the “Property”), as evidenced by the Deeds attached hereto as **Exhibit A**. The Property is more particularly shown on the small-scale (general location) map attached hereto as **Exhibit B**, the large-scale (detailed) map attached hereto as **Exhibit C**, and in the digital data submitted on compact disc. These maps are provided in compliance with 16 Texas Administrative Code § 24.245(m).

II.

The Property is comprised of a tract of land that is at least 50 contiguous acres and is located in Johnson County, Texas.

III.

All 73.5241 acres of the Property are subject to certificate of convenience and necessity No. 10908 for water service (the “CCN”) held by Mountain Peak Special Utility District (the “CCN Holder”). As of the date of this Amended Petition, the Property is not receiving water service from the CCN Holder.

IV.

Petitioner hereby requests that the Property be released from the CCN, including all portions of the Property reflected in the deed attached hereto as **Exhibit A**.

V.

A written request for service was submitted to the CCN Holder on November 30, 2021 as required by Texas Water Code § 13.254(a-1)(1). A copy of the request is attached hereto as **Exhibit D**. The CCN Holder has been allowed at least 90 calendar days to review and respond to the written request. Although since the filing of the Petition in this matter the CCN Holder’s attorney has advised the undersigned that the CCN Holder desires to serve the Property, the CCN Holder has not responded or communicated in any way that it is presently capable of providing the service.

VI.

The undersigned certifies that in addition to the service of this Amended Petition on its counsel, a copy of this Amended Petition has been mailed to the CCN Holder via certified mail on the day that this Petition is filed with the Commission.

VII.

Petitioner's notarized Affidavit in support of the required information to be included in this Amended Petition pursuant to 16 Texas Administrative Code § 24.245(1)(4)(A) is attached hereto as **Exhibit E**.

WHEREFORE, the Petitioner respectfully requests that this Petition be heard and granted in all respects, and that such other orders, acts, procedures, and relief be granted as are proper, necessary, and appropriate to complete the release of the CCN Subject Property from the CCN, as the Commission shall deem proper and necessary.

Date: April 27, 2022

Respectfully submitted,

November 30, 2021

Mr. Randel Kirk, CWP
General Manager
Mountain Peak Special Utility District
5671 Waterworks Road
Midlothian, TX 76065

Dear Mr. Kirk:

This letter shall serve as a written request for service from Mountain Peak Water Supply Corporation ("Mountain Peak" or the "CCN holder"), holder of Certificate of Convenience and Necessity No. 10908, to property owned by LGI Homes – Texas, LLC ("LGI") in Johnson County, Texas. LGI owns a tract of approximately 73.5 acres nine hundred (900) feet west of County Road 109 where it intersects with Farm-to-Market Road 157, as shown on the attached boundary survey map. LGI seeks to develop the property for a multi-residential development and seeks service in this regard, which is for other than standard residential or commercial service.

In order to develop this property, LGI needs full water and sewer service to the property no later than September 2023. Water service and fire flow capacity will be required for approximately two hundred and eighty (280) single-family residential homes. This will require approximately 1,300 GPM (max. daily flow) to serve the development, including 1,000 GPM fire flow and approximately 280 residential connections. Eight-inch waterlines are to be used throughout the development. A minimum pressure of 40 PSI will be necessary to maintain under normal conditions. A minimum pressure of 20 PSI will be maintained while delivering fire flow under maximum day conditions.

It is LGI's understanding from previous communications with Mountain Peak that it is not currently able to provide suitable service to the property and would need to construct new pipe for approximately two miles at an estimated cost of two million dollars (\$2MM). LGI requests that Mountain Peak confirm that this estimate is current and, if not, provide an updated cost of service estimate. LGI has inquired as to alternative retail public utilities to provide the necessary service to the property. The City of Venus, Texas, is able to provide service to the property without the need to construct additional water pipeline infrastructure. The City of Venus currently has twelve-inch (12") water line adjacent to the site along County Road 109 that has the capacity to serve the property for its anticipated needs.

If Mountain Peak is unable to provide service without substantial additional cost to LGI, it is LGI's intent to seek expedited release from Mountain Peak's CCN in order to obtain the available service from the City of Venus. This letter provides notice pursuant to 16 TAC 24.245 (f)(5) and the Texas Water Code. Please do not hesitate to contact us to discuss this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read 'ET', written over a horizontal line.

Dear Mr. Kirk:

In response to your request, we have examined the hydraulic capability of your system to provide the above referenced service. For this evaluation, we modeled the system for 288 meters at a 0.72 gpm per connection (max day) plus a 1,000 gpm fire flow (based on ISO requirements less than 20' spacing) for a total of 1,207 gpm. The demands were placed on the entrance to the development. We ran the model numerous times evaluating different alternatives in order to minimize the expense for the developer. We assumed the elevated tank levels at the low water setting.

At this time, in order to serve the proposed development, as well as the rest of the existing system, in conformity with Texas Commission on Environmental Quality (TCEQ) standards for water distribution, we recommend that an off-site line of the district's minimum size of 12" be extended from the intersection of V.V Jones & CR 109 approximately 9,000 LF to and across the subject property.

Please call if you have any questions or would like to meet to discuss this matter.

Exhibit E

AFFIDAVIT

THE STATE OF TEXAS §
 §
COUNTY OF COLLIN §

BEFORE ME, the undersigned authority, on this day personally appeared Elaine Torres, whom, being first duly sworn by me, upon her oath stated:

1. My name is Elaine Torres acting in my capacity as a Member of LGI Homes — Texas, LLC, ("Petitioner"). I am of sound mind, more than eighteen (18) years of age, and am capable of making this affidavit.
2. The Petitioner has submitted a Petition for Expedited Release from Certificate of Convenience and Necessity for Water Service ("Petition") with the Public Utility Commission of Texas ("PUC" or "Commission") and is now submitting an Amended Petition ("Amended Petition") clarifying the amount of acreage for which the Petition was originally filed ("Property"). That acreage was correctly described in the description of the Property contained on Exhibits "A", "B", and "C" attached to the Petition but was not fully described in the contents of the Petition itself.
3. The Amended Petition is being submitted pursuant to Texas Water Code § 13.254(a-1) and 16 Texas Administrative Code § 24.245(f).
4. The Property (as defined in the Amended Petition) is at least 50 contiguous acres in size and is not located in a platted subdivision currently receiving service.
5. The Property is subject to certificate of convenience and necessity ("CCN") No. 10908 for water service held by Mountain Peak Water Supply Corporation (the "CCN Holder"), and is located in Johnson County, Texas.
6. The Property is not receiving water service from the CCN Holder.
7. The Petitioner owns the Property, as evidenced by the deeds submitted with the Amended Petition.
8. A written request for service was submitted to the CCN Holder on November 30, 2021 as required by Texas Water Code § 13.254(a-1)(1).

9. A copy of the Amended Petition shall be mailed to the CCN Holder via certified mail on the day the Petition is filed with the Commission.
10. The required mapping documents are being submitted to the Commission with the Amended Petition.
