DEADLINES FOR CONTINUED PROCESSING

At its June 15, 2023 open meeting, the Commission considered the revised proposed order filed on May 24, 2023 in the above-styled and numbered docket. On the same date, the Commission filed an order remanding the proceeding to docket management for the purpose of acquiring sufficient financial assurances, a capital improvements plan, and an amended application reducing the acreage of the requested certificate of convenience and necessity (CCN).

In accordance with the above, by June 30, 2023, Big Easy Agua LLC must file the requested information, along with a motion to admit supplemental evidence. Specifically, Big Easy is required to file:

1. Loan approval documents or firm capital commitments affirming that all funds needed to install the applicant's proposed water system for the entire requested service area are available to Big Easy Agua. Further, Big Easy Agua must specify whether the current firm capital commitment of \$1,547,199 will cover the cost of *all* of the water system to be installed in the *entire* requested service area.
2. A capital improvements plan that includes a budget and estimated timeline for construction of all facilities necessary to provide full service to the entire proposed CCN area and it must be keyed to a map showing where facilities will be located to provide service.
3. An amended application reducing the acreage of the requested CCN. Big Easy Agua must amend its CCN application to only include areas in which Big Easy Agua will provide retail water service.

By July 20, 2023, Commission Staff must file a recommendation on the supplemental information provided by Big Easy Agua. Commission Staff must move to admit its recommendation.
