DOCKET NO. 53336

APPLICATION OF BIG EASY AGUA LLC FOR A CERTIFICATE OF CONVENIENCE AND NECESSITY IN COLORADO COUNTY	§ § § §	PUBLIC UTILITY COMMISSION OF TEXAS
---	----------------------------	--

**ORDER NO. 30
REQUIRING CLARIFICATION AND PROPOSED MAP**

On June 15, 2023, the Commission remanded this proceeding to Docket Management and required Big Easy Agua LLC to reduce the acreage of the requested certificate of convenience and necessity (CCN), among other things. At that time, Big Easy had a requested service area of 1,039 acres. On July 17, 2023, Big Easy filed an amended application that reduced the requested service area to 303.57 acres.

On December 19, 2022, Commission Staff filed a proposed tariff, CCN, and a map for the Commission's approval; however, the map relates to the larger requested service area. There is not a current proposed map for the reduced requested service area comprising approximately 304 acres.

The administrative law judge requires Commission Staff to clarify whether a new map needs prepared that reduces the requested service area to the approximately 304 acres.

The following procedural schedule applies for the further processing of this docket:

Event	Date
Deadline for Commission Staff to provide clarification and, if necessary, provide a revised final map to applicant with consent form	December 22, 2023
Deadline for applicant to file signed consent form with the Commission	January 5, 2024
Deadline for parties to file a joint motion to admit evidence that includes the proposed final map and executed consent form	January 12, 2024

Signed at Austin, Texas the 30th day of November 2023.
