RE: Docket No. 53336 – *Application of Big Easy Agua LLC for a Certificate of Convenience and Necessity in Colorado County*

The Office of Policy and Docket Management (OPDM) has identified the following issue that requires a response from the parties.

Page four of the tariff filed by Commission Staff on December 19, 2022 and attached to the proposed order following remand states the following, “Changes in fees imposed by underground water district having jurisdiction over the Brushwood Crossing Subdivision Utility shall be passed through as an adjustment to the water gallonage charge according to the following formula.”¹ The name of the utility identified in the underground water district fee pass through clause section of the tariff on page four is not consistent with the utility identified throughout the tariff. Please file a response stating whether the underground water district fee pass through clause section of the tariff as filed on December 19, 2022 is correct or whether it needs to be revised to update the name of the utility.

OPDM requests responses to this issue by Wednesday, February 7, 2024 at 12:00 PM. If the tariff must be revised, please file the revised tariff in its entirety and file a motion to admit the revised tariff as additional evidence.
