SUPPLEMENTAL DIRECT TESTIMONY OF DAVID J. MAGGIO

ON BEHALF OF

ELECTRIC RELIABILITY COUNCIL OF TEXAS, INC.

January 10, 2024

EXECUTIVE SUMMARY

David Maggio, who is employed by Electric Reliability Council of Texas, Inc. (“ERCOT”) as a Market Design and Analytics Principal, recommends that the Public Utility Commission of Texas (“Commission”) deny all relief sought by Engie Energy Marketing, NA, Inc. (“Engie”) and Viridity Energy Solutions, Inc. (“Viridity”) for the reasons set forth herein and in the Direct and Supplemental Testimony of ERCOT witness Kenan Ögelman.

It is undisputed that Viridity: refused to confirm trades for the Disputed Payment Period;¹ telemetered 0 megawatts of Ancillary Service Resource Responsibility during the Disputed Payment Period; and changed its Load Resources’ status to OUTL during the Disputed Payment Period. Accordingly, Viridity did not provide Responsive Reserve Service (“RRS”) during the Disputed Payment Period, and the Commission should deny Engie and Viridity the relief they seek. If so, the Commission need not address whether and in what amount Viridity is liable to ERCOT for Ancillary Service imbalance charges. However, in the unlikely event that the Commission finds that Viridity was in fact providing RRS during the Disputed Payment Period and that its Ancillary Service Supply Responsibility from February 15 should have persisted, then Viridity should be assessed and required to pay ERCOT approximately \$65.7 million of Ancillary Service imbalance charges for the Disputed Payment Period. That is the total amount of Ancillary Service imbalance charges that I have calculated Viridity would have incurred if its February 15 Ancillary Service Supply Responsibility of 117 MW arising from its February 15 trades remained in effect through the end of the Disputed Payment Period.

¹ Throughout this proceeding, the parties have agreed that the “Disputed Payment Period” is the period beginning at 12:00 a.m. on the February 16, 2021 Operating Day and ending at 9:00 a.m. on the February 19, 2021 Operating Day.

3
4 I. INTRODUCTION AND PURPOSE OF TESTIMONY

5 Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.

6 A. My name is David J. Maggio. My business address is 4018 Beach Dr. SW, Seattle, WA
7 98116.

8 Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?

9 A. I am employed by Electric Reliability Council of Texas, Inc. ("ERCOT"), as a Market
10 Design and Analytics Principal.

11 Q. ARE YOU THE SAME DAVID J. MAGGIO THAT FILED DIRECT TESTIMONY
12 IN THIS DOCKET ON JULY 11, 2023?

13 A. Yes.

14 Q. WHAT IS THE PURPOSE OF YOUR SUPPLEMENTAL DIRECT TESTIMONY
15 IN THIS DOCKET?

16 A. The purpose of my supplemental direct testimony is to address the effect of Viridity Energy
17 Solutions, Inc.'s ("Viridity") and Engie Energy Marketing NA, Inc.'s ("Engie")
18 withdrawal of certain claims for relief and changes to their complaint and testimony. In
19 that regard, I have calculated the amount of Ancillary Service imbalance charges that

1 should be assessed to Viridity if the Public Utility Commission of Texas (“Commission”)
2 accepts Complainants’ argument that ERCOT’s multi-day deployment of Responsive
3 Reserve Service (“RRS”) extended Viridity’s Ancillary Service Supply Responsibility and
4 Ancillary Service Resource Responsibilities based on trades that Viridity confirmed and
5 that were in effect on the February 15, 2021 Operating Day.² Because Viridity had trades
6 totaling 117 megawatts (“MW”) of RRS from Load Resources in effect at the time of
7 deployment and the end of Operating Day February 15, it had an Ancillary Service Supply
8 Responsibility of 117 MW at the end of that Operating Day. If Viridity’s Ancillary Service
9 Supply Responsibility and, as a result, its Ancillary Service Resource Responsibilities are
10 deemed by the Commission to continue during the period from 12:00 a.m. on February 16,
11 2021 to 9:00 a.m. on February 19, 2021 (the “Disputed Payment Period”), as Complainants
12 have argued they should,³ then Viridity is liable for approximately \$65.7 million of
13 Ancillary Service imbalance charges. To be clear, if the Commission finds that Viridity
14 was not providing RRS and did not have any Ancillary Service Supply Responsibility or
15 Ancillary Service Resource Responsibilities (which it should), then it can dismiss
16 Complainants’ claims for relief and Viridity will not be liable for any Ancillary Service
17 imbalance charges. But if the Commission accepts Complainants’ argument that Viridity
18 was providing RRS and that its Ancillary Service Supply Responsibility and Ancillary
19 Service Resources Responsibilities should persist beyond the end of February 15, then
20 Viridity should be held liable for and ordered to pay ERCOT the Ancillary Service
21 imbalance charges it would have incurred, just like other Qualified Scheduling Entities

² See Revised Direct Testimony of Jess Totten at 28:14-29:4; Revised Direct Testimony of Mike Pavo at 16:14-18; 17:3-6; 44:17-22; Second Revised Rebuttal Testimony of Mike Pavo at 8:14-10:8.

³ *Id.*

1 (“QSEs”) that retained an Ancillary Service Supply Responsibility and chose to telemeter
2 that they were providing RRS were assessed those charges. My Exhibit DJM-S1 provides
3 the calculation supporting the \$65.7 million of Ancillary Service imbalance charges.

4 **Q. IS ANY OTHER WITNESS PROVIDING SUPPLEMENTAL DIRECT**
5 **TESTIMONY ON BEHALF OF ERCOT IN THIS PROCEEDING?**

6 A. Yes. ERCOT employee Kenan Ögelman is also providing supplemental direct testimony.
7 Mr. Ögelman also explains why Viridity will owe ERCOT approximately \$65.7 million of
8 Ancillary Service imbalance charges if Complainants succeed on their argument that
9 Viridity was providing RRS during the Disputed Payment Period and his recommendations
10 for how the Commission should order ERCOT to resettle with Complainants if they are
11 entitled to relief.

12 **Q. WHAT ARE YOUR RECOMMENDATIONS IN THIS CASE?**

13 A. My primary recommendation has not changed. I recommend the Commission find the
14 Complainants are entitled to no relief for the reasons stated in my testimony and the
15 testimony of Mr. Ögelman. But if the Commission finds the Complainants are entitled to
16 some relief, I recommend that the Commission find that Viridity is liable for approximately
17 \$65.7 million of Ancillary Service imbalance charges during the Disputed Payment Period,
18 because that is the amount that Viridity would have been charged if its Ancillary Service
19 Supply Responsibility and Ancillary Service Resource Responsibilities of 117 MW at the
20 time of deployment and end of Operating Day February 15 are deemed by the Commission
21 to continue in effect during the Disputed Payment Period based on deeming the February
22 15 trades to have continued as Complainants have argued. I agree with Mr. Ögelman that
23 it would be inappropriate to let Complainants pick and choose which megawatts they

1 contend were providing RRS, or which trade should be deemed continued, in order to avoid
2 the negative consequences that naturally result to Viridity from Complainants' own
3 disputed theories in this case.

4 **Q. ARE YOU ATTACHING ANY EXHIBITS TO YOUR TESTIMONY?**

5 A. Yes. I am attaching the following Exhibits:

6	Exhibit DJM-S1:	Calculation of \$65.7 million in Ancillary Service imbalance
7		charges
8	Exhibit DJM-S2	Viridity Response to ERCOT RFI 6-15
9	Exhibit DJM-S3	Certified Copy of Plaintiff's Supplemental Brief in Support
10		of Plaintiff's Request for Clerk's Entry of Default Judgment
11		Against Defendant Lone Star Demand response; Civil
12		Action No. 4:21-CV-419-SDJ, <i>Viridity Energy Solutions,</i>
13		<i>Inc. v. Lone Star Demand response, LLC</i> , in the United
14		States District Court for the Eastern District of Texas,
15		Sherman Division.

16 I also discuss and rely on Exhibits KÖ-S1 and KÖ-S2, but since they are attached to Mr.
17 Ögelman's Supplemental Testimony I am not attaching duplicate copies.

18 **Q. IS THE INFORMATION INCLUDED IN YOUR EXHIBIT DJM-S1 TAKEN**
19 **FROM ERCOT'S BUSINESS RECORDS AND DATA?**

20 A. Yes. The information reflected in Exhibit DJM-S1 is generally taken directly from
21 ERCOT's business records and data, which are maintained in ERCOT's systems, and it
22 includes additional calculated data based on 117 MW of Ancillary Service Supply
23 Responsibility that would be the result of deeming Viridity's February 15 trades to continue
24 during the Disputed Payment Period. Those records were made and kept by ERCOT in the
25 ordinary course of business; they were made by, or from information transmitted by,
26 persons with knowledge of the acts, events, conditions, or opinions recorded therein; and

1 they were made at or near the time of the acts, events, conditions, or opinions therein
2 recorded.

1 **II. EFFECT OF REVISED TESTIMONY**

2 **Q. DOES COMPLAINANTS' REVISED TESTIMONY OR REVISED CLAIM FOR**
3 **RELIEF CHANGE YOUR PRIMARY RECOMMENDATION THAT THE**
4 **COMMISSION FIND COMPLAINANTS ARE ENTITLED TO NO RELIEF?**

5 A. No, it does not.

6 **Q. WHY NOT?**

7 A. Because Complainants did not provide RRS during the Disputed Payment Period. In order
8 for Viridity to provide RRS it had to have an Ancillary Service Supply Responsibility and
9 associated Ancillary Service Resource Responsibilities. Complainants agree that Viridity
10 acquired an Ancillary Service Supply Responsibility for Operating Day February 15,
11 through confirmed Ancillary Service Trades.⁴ But Viridity refused to confirm trades for
12 the Disputed Payment Period.⁵ Accordingly, it had no Ancillary Service Supply
13 Responsibility or Ancillary Service Resource Responsibility to assign to any Load
14 Resources. In fact, Viridity has admitted that it telemetered 0 MW of Ancillary Service
15 Resource Responsibility during the Disputed Payment Period.⁶ The Commission recently
16 held that a QSE that *mistakenly* telemetered 0 MW of Ancillary Service Resource
17 Responsibility for a short period failed to provide RRS during that period, even though it
18 “complied with [ERCOT’s] dispatch instructions by providing its load response.”⁷ Clearly,
19 the telemetering of non-zero Ancillary Service Resource Responsibilities combined with

⁴ Exhibit KÖ-S1, Totten Depo. at 14:3-5; 14:20-15:15; 16:14-17:8; *see also* Second Revised Rebuttal Testimony of Mike Pavo at 10:3-4.

⁵ Direct Testimony of Kenan Ögelman at 29:13-31:2; 41:3-8; 59:19-60:2; 65:3-23; Exhibit KÖ-18 (Pavo Depo.) at 175:10–176:14; *see also* Exhibit KÖ-8 (Engie ADR Memo) at p. 1; Exhibit KÖ-25 (Pavo Depo. Ex. 24); Exhibit KÖ-26 (Pavo Depo. Ex. 27).

⁶ Exhibit DJM-S2, Viridity Response to ERCOT RFI 6-15.

⁷ Dkt. No. 54710, Item No. 35 (Sept. 28, 2023, Order on Threshold Issues).

1 having an Ancillary Service Supply Responsibility are required components of what it
2 means to be providing RRS. Mr. Pavo is wrong to claim that it does not matter that Viridity
3 telemetered no Ancillary Service Resource Responsibilities during the Disputed Payment
4 Period,⁸ as evidenced by the Commission's order in the STEC Proceeding.⁹ Here, Viridity
5 telemetered 0 MW of Ancillary Service Resource Responsibility during the Disputed
6 Payment Period, refused to confirm trades resulting in 0 MW of Ancillary Service Supply
7 Responsibility, and changed its Load Resources status to OUTL. As a result, Viridity was
8 no longer providing RRS, and it avoided \$65.7 million in Ancillary Service imbalance
9 charges it would have incurred during the Disputed Payment Period under Complainants'
10 argument.
11

⁸ See Revised Direct Testimony of Mike Pavo at 46:1-8.

⁹ Dkt. No. 54710, Item No. 35 (Sept. 28, 2023, Order on Threshold Issues); *see also* Dkt. No. 54710, Item No. 49 (Jan. 5, 2024, Proposal for Decision on Motions for Summary Decision).

1 **III. ANCILLARY SERVICE IMBALANCE CHARGES**

2 **Q. PLEASE DESCRIBE HOW ERCOT CALCULATED THE ANCILLARY**
3 **SERVICE IMBALANCE CHARGES VIRIDITY WOULD HAVE INCURRED IN**
4 **EXHIBIT DJM-S1.**

5 A. DJM-S1 shows the calculation of the hypothetical Ancillary Service imbalance charges, as
6 previously discussed. The exhibit has two tabs: a tab showing a summary of the imbalance
7 charged by Operating Day titled “daily level” and a tab showing 15-minute interval level
8 data at the QSE-level titled “recalculated 15-minute level”. The following bullet points
9 describe the information in the “daily level” tab:

- 10 • Column A lists each Operating Day within the Disputed Payment Period.
- 11 • Column B reflects the amount of imbalance charges associated with the on-line
12 operating reserve demand curve (ORDC) price adder that Viridity avoided each day
13 with respect to the 117 MW of RRS Ancillary Service Supply Responsibility that would
14 have persisted if Viridity’s Ancillary Service Trades from Operating Day February 15
15 were to be deemed to have persisted through the Disputed Payment Period.
- 16 • Column C reflects the amount of imbalance charges associated with the Reliability
17 Deployment Price Adder (RDPA) that Viridity avoided each day with respect to the
18 117 MW of RRS Ancillary Service Supply Responsibility that would have persisted if
19 Viridity’s Ancillary Service Trades from Operating Day February 15 were to be
20 deemed to have persisted through the Disputed Payment Period.
- 21 • Column D provides a summation of the data from Columns B and C, which combine
22 for a total of \$65,683,545.97 across all four applicable Operating Days.

1 The following bullet points describe the information in the “recalculated 15-minute level”
2 tab:

- 3 • Column A lists the Operating Day for each applicable 15-minute interval.
- 4 • Column B lists each of the applicable 15-minute intervals.
- 5 • Columns C, D, and E list the associated Operating Hour, year, and month, respectively,
6 for each applicable 15-minute interval.
- 7 • Column F is the on-line ORDC price adder for each 15-minute interval. The title of
8 RTRSVPOR is used to be consistent with the formula in ERCOT Protocol Section
9 6.7.5(7).
- 10 • Column G is the RDPA for each 15-minute interval. The title of RTRDP is used to be
11 consistent with the formula in ERCOT Protocol Section 6.7.5(7).
- 12 • Column H is the assumed 117 MW of RRS Ancillary Service Supply Responsibility
13 that would have persisted if Viridity’s Ancillary Service Trades from Operating Day
14 February 15 were to be deemed to have persisted through the Disputed Payment Period.
- 15 • Column I is the aggregate net power consumption (NPC) of the Load Resources within
16 Viridity’s portfolio. These values are used in this calculation, even though the
17 Resources had telemetered Ancillary Service Resource Responsibilities of zero and
18 telemetered statuses of OUTL. These values were calculated using telemetered NPC
19 values for the resources, that were then averaged over the 15-minute period.
- 20 • Column J is the difference between the assumed 117 MW RRS Ancillary Service
21 Supply Responsibility in column H and the aggregate NPC data in column I. This is
22 intended to reflect the real-time on-line reserve imbalance for the QSE.

- Column K is the amount of imbalance charges associated with the ORDC price adder that Viridity avoided each 15-minute interval with respect to the 117 MW of RRS Ancillary Service Supply Responsibility that would have persisted if Viridity's Ancillary Service Trades from Operating Day February 15 were to be deemed to have persisted through the Disputed Payment Period. This calculation uses the imbalance data in column J. The values in the column are equivalent to RTASIAMT or Real-Time Ancillary Service Imbalance Amount, using the terminology in the equations from ERCOT Protocol Section 6.7.5(7).
- Column L is the amount of imbalance charges associated with the RDPA that Viridity avoided each 15-minute interval with respect to the 117 MW of RRS Ancillary Service Supply Responsibility that would have persisted if Viridity's Ancillary Service Trades from Operating Day February 15 were to be deemed to have persisted through the Disputed Payment Period. This calculation uses the imbalance data in column J. The values in the column are equivalent to RTRDASIAMT or Real-Time Reliability Deployment Ancillary Service Imbalance Amount, using the terminology in the equations from ERCOT Protocol Section 6.7.5(7).

Q. PLEASE DESCRIBE THE ASSUMPTIONS THAT YOU MADE FOR THE CALCULATION IN EXHIBIT DJM-S1.

The calculations in EXHIBIT DJM-S1 are based on the following equations from ERCOT Protocol Section 6.7.5(7):

$$\text{RTASIAMT}_q = (-1) * [(\text{RTASOLIMB}_q * \text{RTRSVPOR}) + (\text{RTASOFFIMB}_q * \text{RTRSVPOFF})]$$

$$\mathbf{RTRDASIAMT}_q = (-1) * (\mathbf{RTASOLIMB}_q * \mathbf{RTRDP})$$

Where:

$$\mathbf{RTASOLIMB}_q = \mathbf{RTOLCAP}_q - [((\mathbf{SYS_GEN_DISCFAC} * \mathbf{RTASRESP}_q) * 1/4) - \mathbf{RTASOFF}_q - \mathbf{RTRUCNBBRESP}_q - \mathbf{RTCLRNSRESP}_q - \mathbf{RTRMRRESP}_q]$$

$$\mathbf{RTOLCAP}_q = (\mathbf{RTOLHSL}_q - \mathbf{RTMGQ}_q - \mathbf{SYS_GEN_DISCFAC} * (\sum_r \sum_p \mathbf{UGENA}_{q,r,p})) + \mathbf{RTCLRCAP}_q + \mathbf{RTNCLRCAP}_q$$

Where:

$$\mathbf{RTNCLRCAP}_q = \text{Min}(\text{Max}(\mathbf{RTNCLRNPC}_q - \mathbf{RTNCLRLPC}_q, 0.0), \mathbf{RTNCLRRRS}_q * 1.5)$$

$$\mathbf{RTNCLRNPC}_q = \mathbf{SYS_GEN_DISCFAC} * \sum_r \sum_p \mathbf{RTNCLRNPCR}_{q,r,p}$$

$$\mathbf{RTNCLRLPC}_q = \mathbf{SYS_GEN_DISCFAC} * \sum_r \sum_p \mathbf{RTNCLRLPCR}_{q,r,p}$$

The values for RTRSVPOR and RTRDP for each 15-minute Settlement Interval are equal to the actual values for these price adders posted on the ERCOT website at <https://www.ercot.com/mp/data-products/data-product-details?id=NP6-793-ER>. No assumptions or modifications were made to the posted values.

1 If the Commission agrees with Complainants that Viridity's trades for Operating
2 Day February 15, 2021 should be deemed to continue for February 16-19, 2021, then
3 Viridity would have had an Ancillary Service Supply Responsibility of 117 MW from
4 February 16-19 based on its 27 MW Ancillary Service Trade with Engie and its 90 MW
5 Ancillary Service Trade with Priority Power Management that were submitted and
6 confirmed for Operating Day February 15, 2021. ERCOT does not agree with
7 Complainants' theory. But if it is accepted, that would have to mean that the RTASRESP,
8 or Real-Time Ancillary Service Supply Responsibility for the QSE, would also have been
9 117 MW for the Disputed Payment Period. A value of 117 MW is therefore used as
10 RTASRESP for the calculation in Exhibit DJM-S1 with no additional assumptions or
11 modifications.

12 The value of SYS_GEN_DISCFACOR was set equal to 1.0. This was the actual
13 value in effect during the Disputed Payment Period and no assumptions were made.

14 For RTASOLIMB and RTOLCAP, these calculations generally look at several
15 types of resources within a QSE's portfolio, including Generation Resources, Controllable
16 Load Resources, and non-Controllable Resources. In the case of Viridity, the argument
17 being made by the Complainants is only regarding non-Controllable Load Resources.
18 Therefore, for the calculations in Exhibit DJM-S1, values associated with other types of
19 resources were ignored and effectively assumed to be zero. This includes RTASOFF,
20 RTRUCNBBRESP, RTCLRNSRESP, RTRMRRESP, RTOLHSL, RTMGQ, UGENA,
21 and RTCLRCAP, which are all associated with Generation Resources and Controllable
22 Load Resources.

1 The remaining values within the equations that need to be assumed were those
2 necessary to calculate values for RTNCLRCAP. For RTNCLRNPC, the assumed values
3 were calculated using telemetered NPC values for Viridity's non-Controllable Load
4 Resources, that were then averaged over the 15-minute period. The values for
5 RTNCLRLPC are all assumed to be zero, meaning that the relevant Load Resources all
6 had a low power consumption (LPC) equal to zero during the Disputed Payment Period.
7 Finally, while it doesn't have a direct impact on the final calculation, RTNCLRRRS is
8 assumed to be 117 MW or equal to the assumed Ancillary Service Supply Responsibility
9 for the QSE during the Disputed Payment Period.

10 With these actual and assumed values for the equations above, the amount of
11 Ancillary Service imbalance charges Viridity would have incurred is \$65,683,545.97, as
12 contained in the spreadsheet attached as EXHIBIT DJM-S1. \$4,101,501.23 would be the
13 RTASIAMT amount and \$61,582,044.74 would be the RTRDASIAMT amount.

14 **Q. HOW IS THE CALCULATION IN EXHIBIT DJM-S1 DIFFERENT THAN THE**
15 **CACLUCATION IN EXHIBIT DJM-2 YOU PREVIOUSLY SUBMITTED?**

16 A. There are two differences. First, RTNCLRNPCR values were effectively 0 in ERCOT's
17 calculation in Exhibit DJM-2. Viridity reported that its Load Resources had 0 MW of
18 Ancillary Service Resource Responsibilities and it reported resource status codes of OUTL
19 during the Disputed Payment Period. Because of that telemetry, Viridity did not have
20 validated Real-Time RRS Ancillary Service Schedules integrated over any 15-minute
21 Settlement Interval from February 16-19, 2021, for its Load Resources—as is required for
22 there to be a value in ERCOT's settlement system for RTNCLRNPCR. The calculations
23 in DJM-2 simply took the lack of data in the settlements system as fact, making the values

1 0 for purposes of the calculations. This approach was also appropriate for Exhibit DJM-2
2 because the calculation was based on the counter-factual that all the Load Resources were
3 fully curtailed for the entire Disputed Payment Period with NPC values reducing to LPC
4 for each of the resources, which is equivalent to full curtailment.

5 For purposes of Exhibit DJM-S1, the lack of settlement system data and effective
6 treatment as 0 for RTNCLRNPGR is no longer being used and it is no longer being assumed
7 that the Load Resources were fully curtailed with NPC values reducing to LPC. Instead,
8 the assumption is made that, if Viridity truly had an Ancillary Service Supply
9 Responsibility during the Disputed Payment Period, then it would have allocated that
10 aggregate amount as Ancillary Service Resource Responsibilities to its chosen Load
11 Resources and provided the real-time data for those resources accordingly (e.g., set the
12 resources status for the chosen Load Resources as ONRL). This would have then resulted
13 in an actual validated Real-Time RRS Ancillary Service Schedule and corresponding
14 values in ERCOT's systems for billing determinants RTNCLRCAP and RTNCLRNPGR.
15 Also, for Exhibit DJM-S1, there is no assumption being made that the Load Resources
16 fully curtailed and reduced NPC to LPC. As such, the values for RTNCLRCAP and
17 RTNCLRNPGR were calculated using telemetered NPC values for Viridity's non-
18 Controllable Load Resources, that were then averaged over the 15-minute period.

19 Second, for the value of RTASRESP, ERCOT accepted for the purposes of its
20 calculation in DJM-2 the representation that Viridity had an Ancillary Service Supply
21 Responsibility of 78 MW for each 15-minute settlement interval from February 16-19,
22 2021.

Exhibit DJM-S1 no longer contains that same assumption because Complainants have revised their testimony and complaint to take out the 78 MW number. While the reason for this change is unexplained, Complainants still contend that trades and therefore Viridity's Ancillary Service Supply Responsibility and Ancillary Service Resource Responsibilities should continue from February 15 through the Disputed Payment Period, even though Viridity refused to confirm those trades.¹⁰ Accordingly, the calculation in Exhibit DJM-S1 is premised on a counter-factual assumption that Viridity had a 117 MW Ancillary Service Supply Responsibility during the Disputed Payment Period, the same as it did at the time of deployment and at the end of Operating Day February 15, as can be observed in Exhibit DJM-1.

Q. IN ITS DIRECT TESTIMONY, ERCOT CALCULATED THE ANCILLARY SERVICE IMBALANCE CHARGES OWED BY VIRIDITY TO BE \$45.2 MILLION. NOW ERCOT IS ASSERTING THAT VIRIDITY WOULD OWE \$65.7 MILLION IN ANCILLARY SERVICE IMBALANCE CHARGES IF ALL OF THE FEBRUARY 15 TRADES WERE DEEMED TO HAVE CONTINUED THROUGHOUT THE DISPUTED PAYMENT PERIOD. PLEASE EXPLAIN THAT DISCREPANCY.

A. Setting aside the basic differences in those calculations I just discussed, in their direct testimony, Complainants repeatedly represented that the Viridity Load Resources supplied 78 MW of RRS during the Disputed Payment Period.¹¹ To reduce the number of disputed issues in the case, ERCOT accepted that counter-factual representation for purposes of

¹⁰ See Revised Direct Testimony of Jess Totten at 28:14-29::4; Revised Direct Testimony of Mike Pavo at 16:14-18; 17:3-6; 44:17-22.

¹¹ See, e.g., Direct Testimony of Michael Pavo at 50.

1 calculating the Ancillary Service imbalance charges that Viridity would owe if its Load
2 Resources were providing RRS during the Disputed Payment Period, as reflected in DJM-
3 2. But in fact, Ancillary Service imbalance charges are calculated based on the QSE's total
4 Ancillary Service Supply Responsibility. If the February 15 trades remained in effect
5 throughout the Disputed Payment Period, as Complainants argue, Viridity would have had
6 an Ancillary Service Supply Responsibility of 117 MW during that time, not 78 MW. As
7 demonstrated already, the Ancillary Service imbalance charges associated with 117 MW
8 of Ancillary Service Supply Responsibility is approximately \$65.7 million.

9 I would also note that ERCOT has consistently taken the position that the true
10 amount of Viridity's Ancillary Service Supply Responsibility would be 117 MW if the
11 Ancillary Service Trades were deemed to persist beyond the end of February 15 and into
12 the Disputed Payment Period. For example, in Mr. Ögelman's direct testimony, he noted
13 that at the time of deployment, "Viridity had RRS Load Resource trades of 27 MW with
14 Engie, and 90 MW with PPM, for a total of 117 MW."¹² Similarly, I stated the following
15 in my direct testimony:

16 While Viridity claims it provided 78 MW of RRS from its Load Resources
17 following the deployment, it allowed the RRS trades of 90 MW with PPM
18 to continue for 23 hours (hour ending 3:00 was 55 MW) and 27 MW with
19 Engie for all 24 hours on February 15, 2021, for a total of 117 MW for hours
20 ending 1:00-2:00 and 4:00-24:00 and 82 MW for hour ending 3:00.¹³

21 As I noted earlier, ERCOT used the 78 MW amount in earlier testimony only to reduce the
22 number of issues in dispute. But given that Complainants are seeking to redefine the
23 number of MW in dispute and their argument that the February 15 trades and

¹² Direct Testimony of Kenan Ögelman at 38; *see also id.* at 39 (stating that Viridity's Load Resources continued to reflect "an RRS Responsibility of at least 117 MW for the remaining 23 hours of the February 15 Operating Day").

¹³ Direct Testimony of David J. Maggio at 13 n.6.

responsibilities remained in effect throughout the Disputed Payment Period, it is important to insist on the correct, assumed amount for calculating Viridity's Ancillary Service imbalance charge liability.

Q. HAS ERCOT PREVIOUSLY EXPLAINED TO COMPLAINANTS THAT VIRIDITY WOULD ACTUALLY BE LIABLE FOR APPROXIMATELY \$65.7 MILLION OF ANCILLARY SERVICE IMBALANCE CHARGES IF THE COMMISSION FINDS THAT VIRIDITY WAS PROVIDING RRS DURING THE DISPUTED PAYMENT PERIOD?

A. Yes. In its Second Supplemental Response to Complainants' Request for Information No. 7-2, ERCOT explained that the actual amount of Ancillary Service imbalance charges should be \$65.7 million and provided the calculation supporting that amount of imbalance charges.¹⁴ The calculation previously provided is the same calculation in Exhibit DJM-S1.

Q. IS ERCOT TRYING TO PUNISH VIRIDITY BY INCREASING THE AMOUNT OF ITS LIABILITY IF VIRIDITY SUCCEEDS ON ITS OWN THEORY THAT IT WAS PROVIDING RRS DURING THE DISPUTED PAYMENT PERIOD?

A. No, not at all. Other QSEs that represent Load Resources and that actually had an RRS Ancillary Service Supply Responsibility and provided the associated telemetry to ERCOT during the Disputed Payment Period were charged significant Ancillary Service imbalance charges. As I previously explained in my direct testimony, another QSE, Enerwise Global Technologies, LLC, chose to provide RRS and have an Ancillary Service Supply Responsibility and thereby incurred significant Ancillary Service imbalance charges during the Disputed Payment Period. It would be unfair and discriminatory to those other

¹⁴ See Dkt. 53377, Item No. 402 (Oct. 20, 2023).

1 QSEs if they incurred Ancillary Service imbalance charges but Viridity was allowed to
2 escape any charges. That would be giving Viridity preferential treatment. Moreover,
3 Ancillary Service imbalance charges are not penalties. They are part of the market design
4 and are intended to make Market Participants indifferent regarding whether their facilities
5 are used to provide energy or Ancillary Services.

6 **Q CAN MARKET PARTICIPANTS DO ANYTHING TO PROTECT THEMSELVES**
7 **FROM THE POSSIBILITY OF ANCILLARY SERVICE IMBALANCE**
8 **CHARGES?**

9 Yes, and in fact Market Participants are in the best position to protect themselves
10 against Ancillary Service imbalance charges based on their specific contractual
11 arrangements.

12 As an example, Viridity passed through to BASA a portion of the Ancillary Service
13 imbalance charges that Viridity incurred for the February 15 Operating Day.¹⁵ If Viridity
14 had chosen to provide RRS during the Disputed Payment Period it would have incurred
15 Ancillary Service imbalance charges and presumably would have passed a portion of those
16 through to BASA, just as it did for the February 15 Operating Day. Thus, Viridity would
17 have protected itself from those charges through its private bilateral contract with BASA.
18 And BASA was able to protect itself based on its contracts with Engie. It is undisputed
19 that by not consuming power during the Disputed Payment Period, BASA received \$29
20 million from Engie.¹⁶ BASA is presumably able to use those contractual savings and any

¹⁵ Exhibit KÖ-18 (Pavo Depo.) at 95:17-96:5; *see also* Dkt. 53377, Item No. 292, Viridity's Response to ERCOT's Motion to Compel Complete Responses to Third Set of RFIs at page 5 (stating BASA incurred \$913,572.74 in Ancillary Service imbalance charges for Operating Day February 15).

¹⁶ Direct Testimony of Kenan Ögelman at 74:8-9; Exhibit KÖ-21 (McGough Depo.) at 89:20-90:11; 90:22-91:11; *see also* Exhibits KÖ-30, KÖ-32 (McGough Depo. Exs. 1, 11).

1 avoided energy costs to make it indifferent to the Ancillary Service imbalance charges that
2 would have been passed through to it if Viridity had scheduled BASA's Load resources to
3 provide RRS—which Viridity did not.

4 It is important to note that Viridity did not have a contract in place with PPM for
5 their 90 MW trade on February 15, and would not presumably have had a contract in place
6 to pass through Ancillary Service imbalance charges to PPM if it had confirmed trades
7 with PPM during the Disputed Payment Period.¹⁷ But Viridity did have a contract with
8 Lone Star Demand Response, LLC related to the 90 MW PPM trade that protected it from
9 Ancillary Service imbalance charges.¹⁸ Viridity's Michael Pavo testified he was aware
10 before the storm of the risk of incurring Ancillary Service imbalance charges if it chose to
11 continue to provide RRS by confirming trades, thus having an Ancillary Service Supply
12 Responsibility, and telemetering Ancillary Service Resource Responsibilities.¹⁹ Viridity
13 chose not to do that and saved itself from incurring \$65.7 million in Ancillary Service
14 imbalance charges. But if Viridity continues to insist that it was providing RRS during the
15 Disputed Payment Period based on its responsibility to provide RRS on the February 15
16 Operating Day and that Ancillary Service Trades from Operating Day February 15 should
17 be deemed to have persisted through the Disputed Payment Period, then it should be liable
18 for the full amount of Ancillary Service imbalance charges it would have incurred. Viridity
19 should not expect to be able to pick and choose after-the-fact through litigation which
20 megawatts out of its 117 MW of Ancillary Service Supply Responsibility, or which of its

¹⁷ Direct Testimony of Kenan Ögelman at 72:8-10; Exhibit KÖ-18 (Pavo Depo.) at 101:2-17; 42:18-45:11; 49:4-9.

¹⁸ Direct Testimony of Kenan Ögelman at 72:7-8; Exhibit KÖ-24 (Pavo Depo. Ex. 7); Exhibit KÖ-18 (Pavo Depo.) at 57:19-58:1; 58:21-59:6; 71:19-72:6; 72:15-25; 83:14-84:8.

¹⁹ Exhibit KÖ-18 (Pavo Depo.) at 82:6-13; 83:14-84:8; 24:4-26:6; 26:12-20; 27:24-28:12.

confirmed trades for the February 15 Operating Day, are deemed to carry forward under its novel argument. Other QSEs that provided RRS incurred significant Ancillary Service imbalance charges, and there is no justifiable reason to treat Viridity better than those QSEs, which would be discriminatory.

Q. DOES VIRIDITY EXPLICITLY ASK FOR THE COMMISSION TO PROVIDE IT WITH PREFERENTIAL TREATMENT RELATIVE TO OTHER QSES THAT PROVIDED RRS?

A Not explicitly, but it insists it should not have to pay Ancillary Service imbalance charges, which is the same result. Complainants' own expert testified he does not believe Viridity should be allowed to avoid Ancillary Service imbalance charges if it is deemed to have had an Ancillary Service Supply Responsibility, because that's how the ERCOT Protocols work and how they were applied to QSEs that provided RRS:

Q And if the Commission were to agree with Viridity that it had an Ancillary Service Supply Responsibility and its load resources had Ancillary Service Resource Responsibilities on February 16th, 17th, 18th, and 19th of 2021, they would have incurred ancillary service imbalance charges. Correct?

A That's -- that's the way the protocols work.

Q And much like the North Maple ADR that you cite, there's no reason here that Viridity should be given the benefit of Resource Responsibility and not the burden, is there?

A None occurs to me at the moment.

* * *

Q And you're aware that EnerWise was a QSE that incurred ancillary service imbalance charges from February 16th to the 19th, 2021. Correct?

A Right.

Q And it's not your opinion, is it, that Viridity should receive better treatment than EnerWise if the Commission agrees with Viridity that it had ancillary service responsibilities during the disputed payment period, is it?

A Well, in general I would say no; but this has been a long, difficult process, so it's hard for me not to sympathize with Viridity.

1 Q. . . Okay. . . So is there a protocol that you're relying on that says if a PUC
2 proceeding takes a certain amount of time or is met with a certain amount of
3 opposition, that in that case, the QSE should be treated better than other
4 similarly situated QSEs?

5 A. . . No, there's not.

6 Q. . . Okay. . . So other than your general sympathy for Viridity, is there any
7 other reason that you can think of that Viridity should be treated better than
8 EnerWise was treated?

9 A. . . No.²⁰

10 I agree with Mr. Totten that Viridity should not be treated better than other QSEs that
11 provided RRS and incurred Ancillary Service imbalance charges. If Viridity is deemed by
12 the Commission to have had an Ancillary Service Supply Responsibility and provided RRS
13 during the Disputed Payment Period, then it should be ordered to pay the Ancillary Service
14 imbalance charges it would have incurred by providing RRS relative to that Ancillary
15 Service Supply Responsibility.

16 **Q. IF THE COMMISSION AGREES WITH COMPLAINANTS, SHOULD THE**
17 **COMMISSION JUST NET OUT THE AMOUNT OF ANCILLARY SERVICE**
18 **IMBALANCE CHARGES ASSOCIATED WITH 27 MW FROM ENGIE'S**
19 **RECOVERY?**

20 A. No, it should not. QSEs like Viridity are charged Ancillary Service imbalance charges at
21 the QSE level, and it is the responsibility of the QSEs to then determine the allocation of
22 those charges, as applicable to their own contractual arrangements. Viridity has
23 acknowledged this through sworn testimony related to the same type of Ancillary Service
24 imbalance charges it incurred for the February 15 Operating Day:

25 As a general point, ERCOT settles all activity at the QSE level. Statements
26 provided to QSE's only show the total or sum amounts of charges and
27 credits across all markets in which the QSE participates. It is the

²⁰ Exhibit KÖ-S1, (Totten Depo. Oct. 3, 2023) at 32:11-24; 33:2-34:2.

1 responsibility of the QSE to allocate those charges and credits among its
2 resources and customers. For QSEs like Viridity with the task of allocating
3 charges and credits to specific resources, ERCOT publishes the data
4 behind its settlement calculations, which in-turn allows QSEs to validate
5 ERCOT's settlement calculations and allocate the charges and credits to
6 the corresponding resources.²¹

7 Because ERCOT does not settle Ancillary Service imbalance charges at the Load Resource
8 level it would not be appropriate to net out amounts from the \$65.7 million in Ancillary
9 Service imbalance charges related to a specific entity or resources that are a subset of the
10 QSE's total activity. That allocation task would be a matter for Viridity to handle after it
11 has paid ERCOT those Ancillary Service imbalance charges, in the same way that it
12 previously did with respect to the Ancillary Service imbalance charges it did incur for the
13 February 15 Operating Day.²²

14 **Q WOULD VIRIDITY'S PRIVATE CONTRACT AGREEMENTS IMPACT**
15 **WHETHER VIRIDITY SHOULD BE LIABLE TO ERCOT FOR \$65.7 MILLION**
16 **IF COMPLAINANTS ARE CORRECT THAT VIRIDITY RETAINED AN**
17 **ANCILLARY SERVICE SUPPLY RESPONSIBILITY AND PROVIDED RRS**
18 **DURING THE DISPUTED PAYMENT PERIOD?**

19 A. No, they would not. Whether an entity has its own contracts in place to protect it from
20 Ancillary Service imbalance charges incurred as a QSE has no direct bearing on its liability
21 to ERCOT for Ancillary Service imbalance charges. If Viridity can recover those Ancillary
22 Service imbalance charges from other parties based on their agreements, then it may do so.
23 However, it should be part of a process that is distinct and separate from the settlement
24 between it and ERCOT. I understand that Engie has agreed to [REDACTED]

²¹ Exhibit DJM-S3, Paragraph 8 of the Affidavit of Viridity's Mark Misciagna attached to Supplemental Brief in Support of Plaintiff's Request for Clerk's Entry of Default Judgment Against Defendant Lone Star Demand Response

²² *Id.* at ¶¶ 12-30.

2 [REDACTED] .²³

3 Whether Viridity does or does not have an agreement with PPM or Lone Star to recover
4 the cost of Ancillary Service imbalance charges has no bearing on whether Viridity is liable
5 to ERCOT for the full amount of Ancillary Service imbalance charges it would have
6 incurred if Complainants succeed on their argument that Viridity retained an Ancillary
7 Service Supply Responsibility and was providing RRS during the Disputed Payment
8 Period.

9 **Q. DOES THIS CONCLUDE YOUR SUPPLEMENTAL DIRECT TESTIMONY?**

10 A. Yes.

A TRUE COPY I CERTIFY
DAVID A O'TOOLE, CLERK
U.S. DISTRICT COURT
EASTERN DISTRICT OF TEXAS

By: Michelle Baxter

Plaintiff Viridity Energy Solutions, Inc. (“Viridity” or “Plaintiff”) files this Supplemental Brief (the “Supplemental Brief”) Pursuant to this Court’s June 15, 2022, Order (the “Order”).

I. Viridity’s Contract Damages Do Not Differ in Kind from, or Exceed in Amount, the Damages Demanded in Viridity’s Original Complaint.

As explained in more detail in the Affidavit of Mark Misciagna in Support of Plaintiff’s Supplemental Brief (the “Supplemental Affidavit”), attached hereto, Viridity reviewed its records in response to this Court’s Order to ensure that Viridity was correctly applying ERCOT’s published market settlement data in determining Viridity’s contract damages against Lone Star.¹ Viridity determined that the discrepancy in contract damages noted by this Court was the result of improper rounding errors which occurred when Viridity extracted ERCOT’s XML-based market settlement data and converted that XML-based data into Viridity’s Excel-based business records.² Viridity has thus corrected those rounding errors in Exhibit A to the Supplemental Affidavit and confirmed that \$3,382,948.46 in Total Imbalance Charges are correctly attributed to Lone Star’s failure to meet its contractual obligation to deliver 90 Megawatts (“MW”) of capacity through Lone Star’s participating customers during each hour of the day on February 15, 2021 (the “Operating Day”).³

By applying the January, February, and March Net Credit Settlements described in Viridity’s Original Complaint (\$269,666.14, \$101,472.56, and \$3,720.02, respectively) to the corrected amount of Total Imbalance Charges for which Lone Star is responsible (\$3,382,948.46), Viridity calculates its present contract damages as \$3,008,089.74 (the “Contract

¹ See Supplemental Affidavit at ¶¶ 8, 15, 24-28 (explaining that “for QSEs like Viridity with the task of allocating charges and credits to specific resources, ERCOT publishes the data behind its settlement calculations, which in-turn allows QSEs to validate ERCOT’s settlement calculations and allocate the charges and credits to the corresponding resources.”).

² Supplemental Affidavit at ¶ 27.

³ Supplemental Affidavit at ¶ 28.

Damages”).⁴ To clarify the significance of the January, February, and March Net Credit Settlements, these amounts reflect the net amount owed to Lone Star by Viridity for *all transactions* during the months of January, February, and March of 2021, with the exception of Lone Star’s share of the Total Imbalance Charges incurred on the Operating Day (February 15, 2021).⁵ In other words, the January, February, and March Net Credit Settlements are not related to the Total Imbalance Charges incurred on the Operating Day; while Viridity credited Lone Star for these unrelated transactions in the Original Complaint, it had no legal obligation to do so and could have properly sought to recover the full amount of Total Imbalance Charges attributable to Lone Star.

Nonetheless, having corrected the slight rounding error in its business records allocating the precise amount of Total Imbalance Charges for which Lone Star is responsible, and applying the identical January, February, and March Net Credit Settlements from its Original Complaint, Viridity’s Contract Damages of \$3,008,089.74 do “not differ in kind from, or exceed in amount” the damages alleged in Viridity’s Original Complaint, as required by Federal Rule of Civil Procedure 54(c). Likewise, Viridity’s present Contract Damages of \$3,008,089.74 are actually less than the total contract damages of \$3,009,078.25 that Viridity alleged in its Original Complaint. As a result, Rule 54(c) does not preclude this Court from awarding Viridity a judgment for the full amount of its present Contract Damages, \$3,008,089.74. *Ditech Fin., L.L.C. v. Naumann*, 742 Fed. Appx. 810, 814 (5th Cir. 2018) (“A prayer for breach-of-contract damages will allow recovery of breach-of-contract damages upon default, even if the exact dollars and cents were not computed and pleaded in advance.”); *see also Henry v. Sneiders*, 490 F.2d 315,

⁴ Supplemental Affidavit at ¶¶ 29-30. For comparison, Viridity’s present Contract Damages of \$3,008,089.74 are slightly less than the \$3,009,078.25 in damages that Viridity pled in the Original Complaint. *See* Dkt. #1 at 10.

⁵ Supplemental Affidavit at ¶ 29.

317 (9th Cir. 1974) (affirming default judgment of \$235,338.89 despite the complaint containing a prayer for \$71,243.68, reasoning that “plaintiff prayed for additional damages for breach of contract, the amount of which was to be proved at trial.”).

II. Viridity Waives Any Entitlement to Additional Amounts Attributable to Post-Complaint ERCOT Net Credit Settlements.

Viridity’s Request for Clerk’s Entry of Default Judgment (Dkt. #9) took into account post-Complaint additional Net Credit Settlements between Viridity and Lone Star acknowledged by ERCOT for the months of April, May, June, July, and August of 2021.⁶ Because negative amounts in some of these later Net Credit Settlements reduced the offset available to Lone Star under the Net Credit Settlements for January, February, and March of 2021, the additional Net Credit Settlements increased the total damages Viridity sought in its Request for Clerk’s Entry of Default Judgment to an amount which exceeded the damages Viridity alleged in its Original Complaint.⁷ Viridity included these additional Net Credit Settlements in its Request for Default Judgment simply because Viridity referenced earlier Net Credit Settlements in its Original Complaint; by referencing them in its Request, Viridity did not intend to increase its demand for damages beyond an amount that this Court could award under Rule 54(c).

Because the transactions between Viridity and Lone Star in these Net Credit Settlements do not directly relate to the amount of Total Imbalance Charges attributable to Lone Star, this Court may disregard any Net Credit Settlements which were not referenced in Viridity’s Original Complaint and Viridity hereby waives any right it may have to take these amounts into account.

III. Viridity’s Payments to ERCOT Reflect Credits from Unrelated Transactions.

⁶ See Dkt. #9-2 at 4, 50.

⁷ Compare Dkt. #9-2 at 4 with Dkt. #1 at 10.

This Court's Order expressed uncertainty as to why Viridity's payments to ERCOT did not equal the imbalance charges that Viridity seeks to recover from Lone Star. As explained in the Supplemental Affidavit, any discrepancy between amounts Viridity paid to ERCOT and amounts Viridity seeks to recover from Lone Star reflect credits for unrelated transactions between Viridity and ERCOT.⁸ For example, the difference between the "Billed Amount" and "Billable Amount" that this Court observed in ERCOT's Real-Time Market Statement for the Operating Day reflects a credit of \$37,496.31 for "Real-Time Energy," which is a service unrelated to the "Real-Time Ancillary Services" which included the imbalance charges attributable to Lone Star.⁹ Likewise, the "Net Amount Owed" by Viridity in ERCOT's Settlement Invoice from April 20, 2021, includes credits for "DAM Statements Subtotal" which are completely unrelated to the \$41,952 Resettlement Statement for the Operating Date.¹⁰

Accordingly, the fact that Viridity's payments to ERCOT do not exactly match the Total Imbalance Charges does not reduce Viridity's present Contract Damages against Lone Star; Viridity's payments to ERCOT are offset by credits from transactions which are completely unrelated to the Total Imbalance Charges ERCOT assessed for the Operating Day.

IV. An Evidentiary Hearing is Not Necessary to Award Viridity a Default Judgment.

As this Court noted in its Order, the Fifth Circuit Court of Appeals has stated that an evidentiary hearing is not necessary to support an award of damages on default judgment "where the amount claimed is a liquidated sum or one capable of mathematical calculation." *James v. Frame*, 6 F.3d 307, 310 (5th Cir. 1993). Viridity's Supplemental Affidavit and related attachments demonstrate that Viridity's present Contract Damages of \$3,008,089.74 are "capable

⁸ Supplemental Affidavit at ¶¶ 17-20.

⁹ Supplemental Affidavit at ¶¶ 17-20.

¹⁰ Supplemental Affidavit at ¶ 22 (citing to Exhibit E of the Supplemental Affidavit).

of mathematical calculation.” As described in the Supplemental Affidavit, Exhibit A to the Affidavit demonstrates how Viridity was able to allocate the exact amount of Total Imbalance Charges attributable to Lone Star’s individual participating customers during any given 15-minute interval during the Operating Day.¹¹ This Court is thus well within its discretion to award Viridity its present Contract Damages of \$3,008,089.74 (or a lesser amount that the Court deems appropriate) without first conducting an evidentiary hearing. *See James*, 6 F.3d at 310 (Rule 55(b)(2) “explicitly grants the district court wide latitude[.]” including discretion to award additional collection fees and attorneys’ fees without first conducting an evidentiary hearing)

PRAYER

Viridity therefore requests the Court enter default judgment against Lone Star in the amount of \$3,008,089.74 in sum-certain damages in the record, and for such other relief, in law or at equity, to which Viridity is entitled.

Respectfully submitted,

**AFFIDAVIT OF MARK MISCIAGNA IN SUPPORT OF
PLAINTIFF'S SUPPLEMENTAL BRIEF**

STATE OF TEXAS	§	
	§	
COUNTY OF DALLAS	§	

BEFORE ME, the undersigned Notary Public on this day personally appeared Mark Misciagna, who being by me duly sworn, stated as follows:

1. My name is Mark Misciagna. I am over 21 years of age, of sound mind, and capable of making this affidavit. The facts stated in this affidavit are within my personal knowledge and are true and correct.
2. I am a Financial Analyst for Plaintiff Viridity Energy Solutions, Inc. ("Viridity" or "Plaintiff") in this case.
3. Prior to assuming my current position, I was employed by Viridity as a Staff Accountant.

**AFFIDAVIT OF MARK MISCIAGNA IN SUPPORT OF
PLAINTIFF'S SUPPLEMENTAL BRIEF**

Page 1

69FE1CF3-4F55-4AE8-94C7-BE6C3718CC73 --- 2022/06/29 14:46:49 -8:00 --- Remote Notary

4. In my role as Financial Analyst for Viridity, I have personal knowledge of Viridity's accounting records and calculations of amounts owed to Viridity by Lone Star Demand Response, LLC ("Lone Star").

5. Prior to executing this Declaration, I reviewed portions of documents prepared and maintained by Viridity in the ordinary course of its business with Lone Star, as well as pleadings filed by Viridity in the above-captioned matter.

6. The relationship between Viridity and Lone Star is governed by the Parties' Energy Management Agreement (the "EMA"), effective April 26, 2017, and subsequent amendments thereto.

7. Pursuant to the EMA, Viridity agreed to act as an intermediary between The Electricity Reliability Council of Texas ("ERCOT") and Lone Star's portfolio of participating customers by providing Qualified Scheduling Entity ("QSE") dispatch services notifying Lone Star's customers of the need to curtail electricity usage in response to market signals from ERCOT.

8. As a general point, ERCOT settles all activity at the QSE level. Statements provided to QSE's only show the total or sum amounts of charges and credits across all markets in which the QSE participates. It is the responsibility of the QSE to allocate those charges and credits among its resources and customers. For QSEs like Viridity with the task of allocating charges and credits to specific resources, ERCOT publishes the data behind its settlement calculations, which in-turn allows QSEs to validate ERCOT's settlement calculations and allocate the charges and credits to the corresponding resources.

9. Under Section 5.1 of the EMA, Viridity agreed to provide Lone Star and its portfolio of customers with energy management services in return for an Energy Management Fee

based on the amount of capacity in Megawatts (“MW”) that Lone Star’s portfolio was able to commit to ERCOT’s Demand Response program.

10. In providing these energy management services, Viridity not only alerted Lone Star’s participating customers of the need to curtail energy usage, but also monitored Lone Star’s compliance in causing its customers to respond to ERCOT market signals and remitted payments from ERCOT to Lone Star based on the MWs of electricity provided by Lone Star’s participating customers during Demand Response program events.

11. Under Section 3.4 of the EMA, Viridity expressly agreed to “defend, indemnify, and hold harmless [Viridity] and its Affiliates from and against any and all Claims that may arise, and any liability, claim, penalty or other damages that may be incurred by [Viridity] as a result of [Lone Star’s] failure to cause the [participating customers] to respond to a Market Award.”

12. For each hour of the February 15, 2021, operating day (the “Operating Day”), Viridity scheduled 90MW of ancillary services for Lone Star’s resources. This meant that Lone Star was obligated to deliver 90MW of available capacity to the market via its participating customers every hour during the Operating Day.

13. In the event that Lone Star failed to deliver the specific MW of capacity scheduled by Viridity during any given 24-hour period, an Ancillary Service Imbalance would result, with ERCOT assessing Ancillary Service Imbalance Charges to Viridity, and Viridity passing along a share of the Ancillary Service Imbalance Charges which are attributable to Lone Star’s participating customers.

14. On the Operating Day, Lone Star failed to meet its 90MW capacity obligations for a substantial portion of the 24-hour period. As indicated in the spreadsheet “Lone Star Final Settlement (Feb. 15, 2021),” attached hereto as Exhibit A, many Lone Star participating

customers—each referred to as a “Resource” within Lone Star’s “Group”—failed to deliver any capacity during the 96 15-minute intervals comprising the 24-hour period during the Operating day. Specifically, by scrolling down to the “Capacity” table from rows 101 to 192 in Exhibit A, you can see that the vast majority of Lone Star’s Resources failed to deliver any capacity during any 15-minute interval throughout the Operating Day, as demonstrated by a “0.000” within any given cell within the Capacity table.

15. While Exhibit A was created by Viridity, it incorporates market settlement data which is published by ERCOT in XML format; while these files contain a massive amount of data regarding the capacity of any individual Resource during any given interval during any particular 24-hour period, they allow QSEs like Viridity to precisely determine the capacity delivered by specific Resources for purposes of allocating credits or debits to that Resource’s Group.

16. Because there was a substantial deficit between the capacity that Viridity scheduled on the Operating Day and the amount of capacity that was actually delivered by Resources controlled by Lone Star and other unrelated entities (with the latter entities referred to as “Other VESI” in Exhibit A), ERCOT assessed \$4,321,681.52 in “Total Imbalance Charges” for the Operating Day. The Total Imbalance Charges were determined by multiplying the total deficit in capacity across all Resources by the Real Time “Price Adders” calculated by ERCOT as the market value of capacity during any given 15-minute interval. ERCOT will occasionally revise specific variables used in the calculation of the market value of capacity in the weeks or months following a given operating day. In this case, ERCOT resettled the market value of capacity for the Operating Day on three separate occasions between February and April of 2021.

17. The Total Imbalance Charges assessed to Viridity by ERCOT are evidenced, in part, by a number of billing statements issued to Viridity by ERCOT, with the total amount shifting

over time as ERCOT modified its initial Real-Time Market Statements to incorporate updated information regarding capacity and pricing during any given interval on any given date. As indicated by the Real Time Market Statement for the Operating Day, attached hereto as Exhibit B, ERCOT initially assessed \$4,592,956.70 in charges to Viridity for “Real-Time Ancillary Services” due to imbalance and reliability charges during that 24-hour period.¹

18. To respond to the Court’s question about the difference between the “Billable Amount” of \$4,592,956.70 and the “Billed Amount” of \$4,555,460.39 in Exhibit B, the “Billed Amount” of \$4,555,460.39 is net of Real-Time Ancillary Services Charges on line 1 of Exhibit B (\$4,592,956.70) minus Real-Time Energy Credits on line 6 of Exhibit B (\$37,496.31). The Real-Time Energy Credits were related to other Viridity assets—assets unrelated to Lone Star’s Real-Time Ancillary Services—and therefore the \$37,496.31 reduction in the Billed Amount in Exhibit B does not indicate a reduction in the imbalance charges incurred for Real-Time Ancillary Services.

19. As indicated by the attached ERCOT Settlement Invoice, dated February 23, 2021, Viridity owed a net amount of \$1,348,896.34, including the net \$4,555,460.39 “Billed Amount” from Exhibit B, as well as charges and credits for other operating days.² Just as the “Billed Amount” in Exhibit B did not reflect the full amount of imbalance charges assessed for the Operating Day, the “Net Amount Owed” in Exhibit C reflects additional credits to Viridity which were unrelated to the Total Imbalance Charges for the Operating day.

¹ A true and correct copy of the 2/15/21 Real-Time Market Statement is attached, hereto, as “Exhibit B.”

² A true and correct copy of the 2/23/2021 ERCOT Settlement Invoice is attached, hereto, as “Exhibit C.”

20. Viridity paid all outstanding amounts owed to ERCOT on February 25, 2021.³ In Exhibit C, the “Net Amount Owed” (\$1,348,896.34) is the net amount between the credit total of the Day Ahead Market Statements for Operating Days February 19-21 (\$3,450,625.80) and the total charges of the Real Time Market Initial Statements for the operating days of February 15-18 (\$4,799,522.14). The Day Ahead Market Statement credits represent revenue related to other Viridity assets which partially offset the total charges for Real-Time Initial Statements, but which were ultimately unrelated to the imbalance charges that Viridity incurred from ERCOT due to the failure of Lone Star and other entities to meet their capacity obligations on the Operating Day.

21. On April 12, 2021, ERCOT *decreased* the initial imbalance charges of \$4,592,956.70 for the Operating Day by \$313,214.80, effectively resettling the then-current amount of imbalance charges for the Operating day to \$4,279,741.90.

22. ERCOT subsequently *increased* the total charges in the Real Time Market Resettlement for the Operating Day by \$41,952.14 in a “Resettlement Statement,” as reflected in a Settlement Invoice dated April 20, 2021.⁴ Of the \$41,952.14 listed in that line item, \$41,939.62 is related to the Ancillary Service Imbalance Charges, with the remaining \$12.52 related to non-Lone Star assets. By adding \$41,939.62 to the remaining imbalance charge of \$4,279,741.90 from the April 12th resettlement, ERCOT determined the Total Imbalance Charges of \$4,321,681.52 (which are reflected in line 399 of Exhibit A).

23. As with the earlier ERCOT invoice, Viridity timely paid the Net Amount Owed in Exhibit E.

³ A true and correct copy of Viridity’s Checking Account Statement evidencing payment to ERCOT is attached, hereto, as “Exhibit D.”

⁴ A true and correct copy of the 4/21/2021 ERCOT Settlement Invoice is attached, hereto, as “Exhibit E.”

24. The Total Imbalance Charges are also evidenced by market settlement data for the Operating Day that ERCOT published in XML format. As described in more detail below, Viridity used this XML data received from ERCOT to calculate the Total Imbalance Charges in Exhibit A (\$4,321,681.52), as well as the subset of Total Imbalance Charges attributable to Lone Star's Resources for the Operating Day (\$3,382,948.46).

25. By compiling the Total Imbalance Charges of \$4,321,681.52 based on charges that ERCOT invoiced to Viridity for the Operating Day (as summarized in line 399 of Exhibit A) and cross-referencing amounts of MW capacity attributable to Lone Star's Resources within any given 15-minute interval during the Operating Day, Viridity was able to determine that \$3,382,948.46 of the charges were allocable solely to Resources within Lone Star's Group based on the deficit between the MW capacity Lone Star was obligated to deliver on the Operating Day and the MW capacity that those Lone Star's Resources actually delivered.⁵ In sum, Viridity calculated the amount of Total Imbalance Charges for which Lone Star was solely responsible by multiplying the Total Imbalance Charges by the share of the cumulative deficit in MWs attributable to LSDR's participating customers during each 15-minute monitoring interval on the Operating Day (2/15/2021).

26. The remaining amounts of Total Imbalance Charges are attributable to two unrelated entities (the "Other VESI") that were responsible for Resources outside of Lone Star's Group.⁶ In other words, the MW capacity delivered by those other entities had no bearing on the amount of imbalance charges for which Lone Star is solely responsible; they were simply other entities for whom Viridity also provided QSE services on the Operating Day.

⁵ See Exhibit A at lines 395-399.

⁶ See Exhibit A, at lines 395-396.

27. In preparation for this update to my Affidavit, and in order to address the Court's stated concerns regarding the precise amount of Total Imbalance Charges attributable to Lone Star, I reviewed ERCOT's published market settlement data for the Operating Day and corrected some small discrepancies in the spreadsheets that Viridity previously used to calculate its damages. In Viridity's original calculation of the Total Imbalance Charges, some of the extract data was rounded improperly when Viridity attempted to extract ERCOT's XML-based market settlement data and convert that XML-based data into an Excel spreadsheet format. These minute rounding errors were responsible for the slight shift in the Total Imbalance Charges attributable to Lone Star that Viridity alleged in its Original Complaint (\$3,383,936.97) and its Request for Clerk's Entry of Default Judgment Against Lone Star Demand Response (\$3,383,022.52).⁷

28. In the subsequent settlements incorporated into Exhibit A of this affidavit, those rounding errors have been corrected. As a result, the \$3,382,948.46 in Total Imbalance Charges attributable to Lone Star's Resources in Exhibit A is the correct and final amount that Lone Star owes to Viridity for the Operating Day. Exhibit A is a true and correct summary of both the Total Imbalance Charges for the Operating Day, as well as the specific amounts of imbalance charges attributable to Lone Star.

29. While \$3,382,948.46 is the correct amount of Lone Star's share of Total Imbalance Charges, Viridity subsequently credited Lone Star for its share of "Net Credit Settlements" for all transactions between Viridity and Lone between January and August of 2021, with the exception of Lone Star's share of the Total Imbalance Charges.⁸ Applying the credits for January, February, and March, as described in the Original Complaint, Viridity reduced its claimed contract damages

⁷ Compare Dkt. #1 at 6 with Dkt. #9-2 at 50.

⁸ See Dkt. #9-2 at 50.

against Lone Star by \$269,666.14, \$101,472.56, and \$3,720.02 respectively.⁹ By applying those same credits from Viridity's Original Complaint to the corrected amount of Lone Star's share of Total Imbalance Charges (\$3,382,948.46), Viridity's claimed contract damages are reduced to \$3,008,089.74.

30. Thus, by applying the amounts of the January, February, and March Net Credit Settlements included in Viridity's Original Complaint to the correct and final amount of Total Imbalance Charges solely attributable to Lone Star (\$3,382,948.46), Viridity calculates its present contract damages as \$3,008,089.74.

31. I declare under penalty of perjury that the foregoing is true and correct. Executed on June 29, 2022.

Martin Mark Misciagna
