RE: 16 TAC § 25.53, ELECTRIC SERVICE EMERGENCY OPERATING PLAN

EXECUTIVE SUMMARY

PROENERGY Holding Company Inc. and its subsidiaries (collectively referred to as "PROENERGY"), established the Electric Service Emergency Operations Plan (EOP/Plan) to address power plant operations and response during Emergency Events.

Per the Texas Administrative Code §25.53, PROENERGY updated its Plan to reflect changes to roles and responsibilities within the Plan and relevant Annexes. The PROENERGY Plan contains procedures for addressing weather related and non-weather-related emergencies. Specific sections of the EOP that correspond to requirements of 16 Texas Administrative Code §25.53 are as follows:

PUCT 25.53			PROENERGY EOP		Description

ELECTRIC SERVICE EMERGENCY OPERATIONS PLAN SWORN ATTESTATION

STATE OF TEXAS)

COUNTY OF HARRIS)

Before me, the undersigned authority, on this day, personally, and who, after being duly sworn, stated he is entitled to make this Sworn Attestation, and the statements contained below are based on personal knowledge and true and correct.

I, Mike Alvarado, swear or affirm the following on behalf of the below entities and generation resources, operating within the state of Texas.

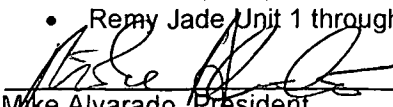

I attest all activities described in 16 Texas Administrative Code §25.53(c)(3)(A) have been completed for the below-identified Generation Resources. Further, I attest that the statements contained in the Electric Service Emergency Operations (EOP) Plan (Plan) are true and accurate. In addition, relevant operation personnel are familiar with and received training on the applicable contents and execution of the Plan and such personnel are instructed to follow the applicable portions of the EOP except to the extent deviations are appropriate as a result of specific circumstances during the course of an emergency; drills have been conducted to the extent required by subsection (f); the EOP or an appropriate summary has been distributed to local jurisdictions as needed; a business continuity plan addresses returning to normal operations after disruptions caused by an incident; and the entity's emergency management personnel who are designated to interact with local, state, and federal emergency management officials during emergency events have received the latest IS-100, IS-200, IS-700 and IS-800 National Incident Management System training.
