Executive Summary

Buckthorn Wind Project, LLC (“Buckthorn”) Emergency Site Plan, referred to in this document as the Emergency Operations Plan or “EOP”, highlights Buckthorn’s planned response to extraordinary emergency / disaster situations associated with natural disasters, human caused events, technological incidents, and security emergencies to ensure the sustained operation of the entity during an emergency situation.

The EOP is a preparedness document – intended to be read, understood, and exercised prior to an emergency. The plan incorporates concepts and principles from the Incident Command System (ICS) into the Buckthorn’s emergency operations.

The EOP assigns responsibilities to various business units at Capital Power¹ for coordinating emergency response activities before, during, and after emergency. The plan remains flexible and does not prescribe specific instructions as to how each business unit will respond to an emergency; The event or incident will determine the scope of an emergency and the activating resources necessary to manage it.

Buckthorn’s Site Manager is responsible for coordination and scheduling of training and exercising the EOP. Additionally, Buckthorn’s Site Manager will prepare, coordinate, publish, and distribute any necessary changes to the plan to the applicable individuals as shown on the distribution list (**also available on page iii of the EOP**).

The EOP was reviewed in 2023 by all applicable business units and no material changes were made since the 2022 submission. The only changes made were to the list of emergency contacts listed below.

Emergency Contacts

A list of individuals who can immediately address urgent requests and questions from the commission during an emergency is as followed:

Name	Title	Contact Type	Phone	Email
Aaron Loera	Site Manager	Primary	(325) 219-2160	aloera@capitalpower.com

Sworn Attestation

Resource Entity: Buckthorn Wind Project, LLC

I attest that I am the highest-ranking representative, official, or officer with binding authority over the Resource Entity identified above.

I attest that all activities described in Tex. Admin. Code (TAC) § 25.53 have been completed for the above-identified Resource Entity. Further, I attest that the following statements are true and accurate:

- the Emergency Operations Plan has been reviewed by the appropriate Executives and there are no material changes since the last submission;
- minimum of one drill or activation of the Emergency Operations Plan will be conducted to the extent required;
- the Emergency Operations Plan or an appropriate summary has been distributed to local jurisdictions (i.e., PUCT, ERCOT) as needed;
- the entity maintains a business continuity plan that addresses returning to normal operations after disruptions caused by an incident; and
- the entity's emergency management personnel who are designated to interact with local, state, and federal emergency management officials during emergency events have received the latest IS-100, IS-200, IS-700, and IS-800 National Incident Management System training.
