§25.53 Electric Service Emergency Operations Plans Requirement	LCRA Response
<p>§25.53 (d)(1) An approval and implementation section that:</p> <p>(A) introduces the EOP and outlines its applicability</p> <p>(B) lists the individuals responsible for maintaining and implementing the EOP, and those who can change the EOP</p> <p>(C) provides a revision control summary that lists the dates of each change made to the EOP since the initial EOP filing pursuant to paragraph (1) of this subsection</p> <p>(D) provides a dated statement that the current EOP supersedes previous EOPs</p> <p>(E) states the date the EOP was most recently approved by the entity</p>	<p>(A) Introduction of the EOP and outline of applicability:</p> <ul style="list-style-type: none"> • LCRA Emergency Management Master Plan Rev. 9.2: Purpose and Scope The LCRA Emergency Management Master Plan is the basis of an effective response to any emergency and applies to all areas (e.g., subsidiaries, departments, workgroups, facilities, properties, and personnel) within the corporate limits of the Lower Colorado River Authority and LCRA Transmission Services Corporation. This plan is an umbrella document that incorporates and unifies all LCRA emergency plans and efforts. All levels of management and employees involved in critical operations and emergency response are responsible for being familiar with the plan and its appendices and annexes. It specifies lines of authority, responsibilities, the coordination of activities and other protocols employed by LCRA during emergencies, incidents, business disruptions, contingencies, and disasters. ➤ Bates page 8 • LCRA Facility Emergency Operations Plans (FEOPs): Plan Overviews Each LCRA generation facility maintains a site-specific Facility Emergency Operations Plan (FEOP) that provides coordinated procedures for minimizing loss of life or injuries and protecting property in response to natural and manmade threats. ➤ Bates pages 109 (T.C. Attachment B

AFFIDAVIT OF PHIL WILSON

STATE OF TEXAS §
 §
COUNTY OF TRAVIS §

BEFORE ME, the undersigned authority, on this day personally appeared Phil Wilson, and being by me duly sworn, upon oath declared that the statements and capacity acted in are true and correct.

“My name is Phil Wilson. I am over eighteen years of age and am competent to make this Affidavit. I am the General Manager and highest-ranking officer of the Lower Colorado River Authority (LCRA). I am also the President and Chief Executive Officer of GenTex Power Corporation. The facts contained herein are true and correct to the best of my knowledge and belief:

- (i) Relevant operating personnel are familiar with and have received training on the applicable contents and execution of the EOP, and such personnel are instructed to follow the applicable portions of the EOP except to the extent deviations are appropriate as a result of specific circumstances during the course of an emergency.
- (ii) The EOP has been reviewed and approved by the appropriate executives.
- (iii) Drills have been conducted to the extent required by 16 TAC § 25.53(f). However, the drills that LCRA has conducted as of the date of this affidavit preceded the revisions to 16 TAC § 25.53, including the revised notice requirements in 16 TAC § 25.53(f). Accordingly, 30 days’ prior notice of those drills was not provided to commission staff. LCRA will provide notice of any additional drills to be performed in calendar year 2022 in accordance with new 16 TAC § 25.53(f).
- (iv) The EOP or an appropriate summary has been distributed to local jurisdictions as needed.
- (v) LCRA maintains a business continuity plan that address returning to normal operations after disruptions caused by an incident.
- (vi) Emergency management personnel who are designated to interact with local, state, and federal emergency management officials during emergency events have received the latest IS-100, IS-200, IS-700, and IS-800 National Incident Management System training.”

AFFIANT: Phil Wilson

SWORN TO AND SUBSCRIBED BEFORE ME this the 18 day of April, 2022.
