**Control Number - 53385**

**Item Number - 3786**

redacted version of the Plan and supporting documents. Rocksprings is a registered power generation company operated by Akuo Energy USA. The Plan is a comprehensive document from Akuo Energy USA with the necessary Texas- and site-specific details incorporated.

**A. Contents and Policies – 16 TAC§ 25.53(c)(1)(A)(i)(I)**

Attachment A to this Executive Summary contains a redacted copy of Rocksprings' Emergency Preparedness and Response Plan (EPRP). The purpose of the Plan is to support employees, contractors, subcontractors, suppliers, and management in making informed decisions during a crisis. It offers guidance on the appropriate actions to take to prevent injury and property damage, reduce hazards to human health and safety, and protect the environment from potential risks such as fire, explosion, or the accidental release of hazardous materials into the air, soil, surface water, or groundwater, as well as from natural or human-caused disasters. While the Plan serves as a guideline in emergencies, it is recognized that no document can cover every possible scenario in detail. The steps outlined may not always follow the same order in each situation, but the Plan provides foundational instructions on the most common actions necessary to manage each type of emergency.

The Plan contains the following sections:

<b>Content/Policies</b>	<b>Plan Reference</b>
Purpose & Scope	Page 2
Definitions	Page 2
References	Page 2
Attachments	Page 3
Roles and Responsibilities	Page 3
EPRP Distribution	Page 3
