as possible, as an intervention deadline will be imposed. A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline for intervention in the proceeding is 45 days after the date the application was filed with the commission. All communications should refer to Docket No. 53719.

Since March 2020, the preferred method for you to file your request for intervention is electronically, and you will be required to serve the request on other parties by email. Therefore, please include your own email address on the intervention request. Instructions for electronic filing via the "PUC Filer" on the Commission's website can be found here: <https://interchange.puc.texas.gov/filer>. Instructions for using the PUC Filer are available at: http://www.puc.texas.gov/industry/filings/New_PUC_Web_Filer_Presentation.pdf. Once you obtain a tracking sheet associated with your filing from the PUC Filer, you may email the tracking sheet and the document you wish to file to: centralrecords@puc.texas.gov. For assistance with your electronic filing, please contact the Commission's Help Desk at (512) 936-7100 or helpdesk@puc.texas.gov. You can review materials filed in this docket on the PUC Interchange at: <http://interchange.puc.texas.gov/>.

NOTICE OF RATE CHANGE REQUEST

On July 1, 2022, Entergy Texas, Inc. ("ETI" or the "Company") filed its STATEMENT OF INTENT AND APPLICATION FOR AUTHORITY TO CHANGE RATES ("Application"). ETI filed its Application with the Public Utility Commission of Texas ("Commission") and with the municipal authorities in its service territory that have original jurisdiction over the Company's electric rates.

Statement of Intent to Change Rates

In the Application, ETI proposes an increase in its base rates designed to collect a total non-fuel retail amount for ETI of approximately \$1.2 billion per year, which is an increase of approximately \$131.4 million, or 11.2%, compared to adjusted test year retail base rate and rider revenues, exclusive of fuel revenues. This proposal represents an increase in overall revenues, including fuel, of 6.95%.

The Application is based on a 12-month test year ending December 31, 2021. ETI requests inclusion in rate base of capital additions closed to plant in the period of January 1, 2018 through the end of the test year.

In addition to approval of ETI's reasonable and necessary operating expenses and capital additions closed through December 31, 2021, the Application also includes the following requests, among others:

- approval of a request to place in base rates costs currently being recovered through ETI's Generation Cost Recovery Rider, Distribution Cost Recovery Factor and Transmission Cost Recovery Factor;
- approval of two new voluntary riders to address its customers' increasing adoption of transportation electrification ("TE") technologies;

- approval of the Green Future Option Schedule tariff, which would provide a new voluntary option for ETI customers to receive benefits of renewable power associated with ETI's utility-scale renewable resources;
- approval of the Market Valued Demand Response ("MVDR") Rider, which is designed to facilitate the transparency of ETI's customers and aggregators of those customers in providing demand response solutions;
- approval of a limited-term Rate Case Expense ("RCE") Rider to recover approximately \$9.2 million over three years, which includes currently estimated costs associated with this proceeding and the actual costs incurred in ETI's prior fuel reconciliation (Docket No. 49916);
- approval of multiple tariff changes described ETI's Application and accompanying testimonies;
- approval of new depreciation rates; and
- approval of requested waivers to certain Commission rules.

To the extent a proposed new rider or schedule is not approved as a separate rider or schedule, ETI proposes to recover such costs through its base rates.

Effect on Customer Classes

The rate change proposed in the Application will affect all customers and classes of customers receiving retail electric service from ETI. The following table shows the effect of the proposed base rate, rider and tariff changes on existing rate classes:

RATE CLASS	NUMBER OF CUSTOMERS AT TEST YEAR END	CHANGE IN NON-FUEL REVENUES*	CHANGE IN TOTAL REVENUES**
Residential	422,815	13.68%	9.84%
Small General	38,207	7.12%	5.10%
General	20,085	8.52%	5.55%
Large General	390	6.29%	3.65%
Large Industrial Power	124	9.28%	3.86%
Lighting	2,744	11.38%	9.40%
Total Retail	484,365	11.20%	6.95%

* Includes the effects of changes to base rates and ongoing and new riders.

** Includes fuel revenues as well as the effects of changes to base and ongoing and new riders.

The Application proposes an effective date for this rate change of 35 days after the date of this filing. Accordingly, the proposed effective date is August 5, 2022. The proposed effective date is subject to suspension and extension by actions of the Commission or other regulatory authorities.

Contact Information

Persons with questions or who want more information on this petition may contact ETI at Attn: Customer Service, 350 Pine Street, Beaumont, Texas 77701, or call (866) 981-2602 during normal business hours. Persons may also email tcr@entergy.com with questions or to request more information or a copy of the Application. A complete copy of this Application, including the Rate Filing Package, is available for inspection at the address listed above.

Persons who wish to intervene in or comment upon these proceedings should notify the Public Utility Commission of Texas (commission) as soon

as possible, as an intervention deadline will be imposed. A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline for intervention in the proceeding is 45 days after the date the application was filed with the commission. All communications should refer to Docket No. 53719.

Since March 2020, the preferred method for you to file your request for intervention is electronically, and you will be required to serve the request on other parties by email. Therefore, please include your own email address on the intervention request. Instructions for electronic filing via the "PUC Filer" on the Commission's website can be found here: <https://interchange.puc.texas.gov/filer>. Instructions for using the PUC Filer are available at: http://www.puc.texas.gov/industry/filings/New_PUC_Web_Filer_Presentation.pdf. Once you obtain a tracking sheet associated with your filing from the PUC Filer, you may email the tracking sheet and the document you wish to file to: centralrecords@puc.texas.gov. For assistance with your electronic filing, please contact the Commission's Help Desk at (512) 936-7100 or helpdesk@puc.texas.gov. You can review materials filed in this docket on the PUC Interchange at: <http://interchange.puc.texas.gov/>.

NOTICE OF RATE CHANGE REQUEST

On July 1, 2022, Entergy Texas, Inc. ("ETI" or the "Company") filed its STATEMENT OF INTENT AND APPLICATION FOR AUTHORITY TO CHANGE RATES ("Application"). ETI filed its Application with the Public Utility Commission of Texas ("Commission") and with the municipal authorities in its service territory that have original jurisdiction over the Company's electric rates.

Statement of Intent to Change Rates

In the Application, ETI proposes an increase in its base rates designed to collect a total non-fuel retail amount for ETI of approximately \$1.2 billion per year, which is an increase of approximately \$131.4 million, or 11.2%, compared to adjusted test year retail base rate and rider revenues, exclusive of fuel revenues. This proposal represents an increase in overall revenues, including fuel, of 6.95%.

The Application is based on a 12-month test year ending December 31, 2021. ETI requests inclusion in rate base of capital additions closed to plant in the period of January 1, 2018 through the end of the test year.

In addition to approval of ETI's reasonable and necessary operating expenses and capital additions closed through December 31, 2021, the Application also includes the following requests, among others:

- approval of a request to place in base rates costs currently being recovered through ETI's Generation Cost Recovery Rider, Distribution Cost Recovery Factor and Transmission Cost Recovery Factor;
- approval of two new voluntary riders to address its customers' increasing adoption of transportation electrification ("TE") technologies;

- approval of the Green Future Option Schedule tariff, which would provide a new voluntary option for ETI customers to receive benefits of renewable power associated with ETI's utility-scale renewable resources;
- approval of the Market Valued Demand Response ("MVD") Rider, which is designed to facilitate the transparency of ETI's customers and aggregators of those customers in providing demand response solutions;
- approval of a limited-term Rate Case Expense ("RCE") Rider to recover approximately \$9.2 million over three years, which includes currently estimated costs associated with this proceeding and the actual costs incurred in ETI's prior fuel reconciliation (Docket No. 49916);
- approval of multiple tariff changes described ETI's Application and accompanying testimonies;
- approval of new depreciation rates; and
- approval of requested waivers to certain Commission rules.

To the extent a proposed new rider or schedule is not approved as a separate rider or schedule, ETI proposes to recover such costs through its base rates.

Effect on Customer Classes

The rate change proposed in the Application will affect all customers and classes of customers receiving retail electric service from ETI. The following table shows the effect of the proposed base rate, rider and tariff changes on existing rate classes:

RATE CLASS	NUMBER OF CUSTOMERS AT TEST YEAR END	CHANGE IN NON-FUEL REVENUES*	CHANGE IN TOTAL REVENUES**
Residential	422,815	13.68%	9.84%
Small General	38,207	7.12%	5.10%
General	20,085	8.52%	5.55%
Large General	390	6.29%	3.65%
Large Industrial Power	124	9.28%	3.86%
Lighting	2,744	11.38%	9.40%
Total Retail	484,365	11.20%	6.95%

* Includes the effects of changes to base rates and ongoing and new riders.

** Includes fuel revenues as well as the effects of changes to base and ongoing and new riders.

The Application proposes an effective date for this rate change of 35 days after the date of this filing. Accordingly, the proposed effective date is August 5, 2022. The proposed effective date is subject to suspension and extension by actions of the Commission or other regulatory authorities.

Contact Information

Persons with questions or who want more information on this petition may contact ETI at Attn: Customer Service, 350 Pine Street, Beaumont, Texas 77701, or call (866) 981-2602 during normal business hours. Persons may also email tc@entergy.com with questions or to request more information or a copy of the Application. A complete copy of this Application, including the Rate Filing Package, is available for inspection at the address listed above.

Persons who wish to intervene in or comment upon these proceedings should notify the Public Utility Commission of Texas (commission) as soon

NOTICE OF
APPLICATION OF
ENTERGY TEXAS, INC. FOR
AUTHORITY TO RECONCILE FUEL
AND PURCHASED POWER COSTS

On September 19, 2019, Entergy Texas, Inc. ("Entergy Texas") filed an Application with the Public Utility Commission of Texas ("Commission") for authority to reconcile its eligible fuel and purchased power costs incurred during the period of April 1, 2016 to March 31, 2019 ("Reconciliation Period"). This filing was made pursuant to Section 36.203 of the Texas Utilities Code and 16 Texas Administrative Code § 25.236. The Commission has assigned Docket No. 49916 to the Application.

In its Application, Entergy Texas seeks to reconcile approximately \$1.613 billion of fuel and purchased power expenses incurred during the Reconciliation Period to generate and purchase electric energy for its retail customers. The purpose of the reconciliation proceeding is for the Commission to review Entergy Texas' eligible fuel and purchased power expenses incurred during the Reconciliation Period to determine whether they were reasonable and necessary to serve retail customers.

Entergy Texas collected approximately \$1.700 billion in fixed fuel factor revenues through rates that were in effect during the Reconciliation Period. Entergy Texas' under-recovery balance for the Reconciliation Period (expenses less revenues) totals approximately \$25.8 million, which includes interest expense on the under-recovered amounts. Entergy Texas does not seek to implement a fuel-related refund or surcharge of its eligible fuel costs in this case. Entergy Texas proposes to roll any ending fuel balance resulting from this proceeding forward to serve as the beginning balance for the next reconciliation period.

All customers and classes of customers receiving retail electric service from Entergy Texas whose electric service rates include charges pursuant to Rate Schedule FP (fixed fuel factor) will be affected by the reconciliation of fuel and purchased power costs contained in the Application. This Application has no effect on Entergy Texas' non-fuel rates. Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service—Fuel Reconciliation, 350 Pine Street, Beaumont, Texas 77701, or call 1-866-981-2602 during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989. A deadline for intervention will be established for this proceeding. All communications should refer to Docket No. 49916.

A message from Entergy Texas, Inc.

Job #E-111901

What's yours? What's ours?

Attached to your home or business is the equipment needed for us to deliver power to you. Some of the equipment is ours and some is yours. If you have damage caused by a storm, you must have a qualified electrician repair the damaged equipment belonging to you before we can restore your power. Repairs may require inspection by a local authority before we can restore your power.

If your power is delivered to your location through overhead wires:

Equipment at your location you must have repaired includes:

- The meter base, a metal box housing our meter and protecting your connections to it.
- The pipe rising from the meter base that protects the lines entering your home or business and the point where your lines connect to ours.
- The weatherhead that sits on top of the pipe. It contains the connection wires and is shaped like a hood, with the face pointing downward at an angle.

Equipment at your location Entergy workers will repair includes:

- Our service wire carrying energy from the service pole to your home or business.
- Our electric meter that measures how much energy you use.

For more details check out our video at entergystormcenter.com/weatherhead

Winter Safety Tips

Our top priorities are safety and restoring power as quickly as possible.

AFTER THE STORM: Wet tree limbs and wood can conduct electricity. Be especially careful when clearing debris. It may hide downed power lines that are energized and deadly. Keep your distance from power lines and report any hazards immediately at **1-800-9OUTAGE** (968-8243).

Avoid walking near or around ice-covered power lines. During ice storms, the weight of the ice on power lines can cause them to snap and fall without warning.

When using generators, follow all manufacturers' instructions. Never operate generators indoors—the exhaust is deadly. Have a licensed electrician connect your generator to your house. An improperly installed generator can send electricity back into the service wires, endangering your family, neighbors and our workers.

Have a licensed electrician inspect all damaged wiring, equipment and electrical appliances before use (see back panel for more information).

Michael Bailey, Operations Coordinator

Be prepared.
Be informed.

We know you need information from us to make critical decisions before, during and after the storm. That's why we offer you several options to get the timely, accurate information you want.

Download the Entergy app for storm information at your fingertips with outage maps featuring weather radar and text alerts. Download at the App Store or Google Play.

Register for automatic text alerts at enterytext.com or text "REG" to 368374.

Visit entergystormcenter.com for storm updates and safety tips and look through our *Operation: Storm Ready Guide* for information you need to prepare for storms.

Follow Entergy on Facebook and Twitter to keep up to date on outages during a storm.

To report an outage or an electrical emergency such as downed power lines and other hazards, call **1-800-9OUTAGE** (968-8243).

We monitor.
We mobilize.
We act.

Even when you don't see our crews in your neighborhood, we are working to restore your power.

Here is our restoration process:

- 1 When the storm passes, Entergy personnel must assess damage to electric equipment and facilities to determine corrective actions.

- 2 Power plants, the primary source of power production, are restored.

- 3 Large transmission lines are repaired and restored, delivering power to cities, towns and major industrial facilities.

- 4 Substations are brought online and power is restored to emergency services, life support facilities, police and communications networks.

- 5 Power is restored to areas with the largest number of customers including businesses and neighborhoods.

Bucket trucks are safe to use when winds fall below 30 mph.

- 6 Individual services, often the most time-consuming repairs, are restored.
