Question No.: TIEC 1-40

Part No.:

Addendum: 1

The following discovery requests pertain to the Direct Testimony of Kristin Sasser.

Question:

Did ETI's customers experience outages during Winter Storm Uri? If so, provide ETI's assessment of the kWh sales that ETI was unable to supply to its customers.

Response:

Yes, ETI's customers experienced outages during Winter Storm Uri. Based on a comparison of 2019 to 2020 data, ETI sales were lower by approximately 44,290,000 kWh.

Addendum 1:

Due to a calculation error, the Company's initial response was incorrect. Based on a comparison of 2019 to 2020 data, ETI sales were lower by approximately 39,200,000 kWh not 44,290,000 kWh. Please see the Company's response to TIEC 6-1.
