<b>APPLICATION OF CSWR-TEXAS</b>	<b>§</b>	<b>PUBLIC UTILITY COMMISSION</b>
<b>UTILITY OPERATING COMPANY,</b>	<b>§</b>	
<b>LLC AND PATTERSON WATER</b>	<b>§</b>	<b>OF TEXAS</b>
<b>SUPPLY, LLC FOR SALE, TRANSFER,</b>	<b>§</b>	
<b>OR MERGER OF FACILITIES AND</b>	<b>§</b>	
<b>CERTIFICATE RIGHTS IN DALLAS,</b>	<b>§</b>	
<b>DENTON, PARKER, TARRANT, AND</b>	<b>§</b>	
<b>WISE COUNTIES</b>	<b>§</b>	

**COMMISSION STAFF’S RECOMMENDATION ON APPROVAL OF THE TRANSACTION**

On June 15, 2022, CSWR-Texas Utility Operating Company, LLC (CSWR-Texas) and Patterson Water Supply, LLC (Patterson Water) (jointly, Applicants) filed an application for approval of the sale, transfer, or merger of facilities and certificate of convenience and necessity (CCN) rights in Dallas, Denton, Parker, Tarrant, and Wise counties. Applicants filed supplemental information on June 15, 2022, June 20, 2022, July 29, 2022, August 11, 2022, August 15, 2022, August 16, 2022, and September 6, 2022. Applicants filed proof of notice on October 4, 2022.

On October 13, 2022, the administrative law judge (ALJ) filed Order No. 4 requiring the Staff of the Public Utility Commission of Texas (Staff) to file a recommendation on approval of the sale and on the CCN amendment or to request a hearing on or before November 7, 2022. Therefore, this pleading is timely filed.

**I. STAFF’S RECOMMENDATION**

Staff has reviewed the application and supplemental information and, as detailed in the attached memoranda of Patricia Garcia of the Infrastructure Division and Ethan Blanchard of the Rate Regulation Division, recommends that the proposed transaction satisfies the relevant statutory and regulatory criteria, including those factors identified in Texas Water Code Chapter 13 and under 16 Texas Administrative Code Chapter 24. Additionally, based upon its review, Staff recommends that CSWR-Texas has demonstrated that it possesses the financial, technical, and managerial capability to provide continuous and adequate service to the area subject to the proposed transaction. Therefore, Staff recommends that the transaction will serve the public interest and should be allowed to proceed without a public hearing.

## II. CONCLUSION

For the reasons detailed above, Staff respectfully requests that an order be issued allowing the proposed transaction to proceed.

Dated: November 7, 2022

Respectfully submitted,

**PUBLIC UTILITY COMMISSION OF TEXAS  
LEGAL DIVISION**

## **Memorandum**

**TO:** Andrew Aus and Ian Groetsch, Attorneys  
Legal Division

**FROM:** Patricia Garcia, Infrastructure Analysis Section Director  
Infrastructure Division

**DATE:** November 7, 2022

**RE:** Docket No. 53721 – *Application of CSWR-Texas Utility Operating Company, LLC and Patterson Water Supply, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Dallas, Denton, Parker, Tarrant, and Wise Counties*

---

### **1. Application**

CSWR-Texas Utility Operating Company, LLC (CSWR-Texas) and Patterson Water Supply, LLC (Patterson Water) (collectively, Applicants) filed an application for sale, transfer, or merger (STM) of facilities and certificate rights in Dallas, Denton, Parker, Tarrant, and Wise counties, Texas, under Texas Water Code (TWC) § 13.301 and 16 Texas Administrative Code (TAC) § 24.239.

Specifically, CSWR-Texas, Certificate of Convenience and Necessity (CCN) Nos. 13290 and 21120, seeks approval to acquire facilities and to transfer a portion of the water service area from Patterson Water under water CCN No. 13248 and all of the sewer facilities and sewer service area under sewer CCN No. 20566.

Based on the mapping review by Hank Journey, Infrastructure Division:

- The requested area 1 includes 243 customer connections and approximately 276 acres of transferred area from (CCN No. 13248).
- The requested area 2 includes 134 customer connections and approximately 59 acres of transferred area from (CCN No. 13248).
- The requested area 3 includes 406 customer connections and approximately 78 acres of transferred area from (CCN No. 13248).
- The requested area 3 sewer includes 362 customer connections and approximately 78

acres of transferred area from (CCN No. 20566).

- The requested area 4 includes 75 customer connections and approximately 253 acres of transferred area from (CCN No. 13248).
- The requested area 5 includes 55 customer connections and approximately 23 acres of transferred area from (CCN No. 13248).
- The requested area 6 includes 188 customer connections and approximately 1,164 acres of transferred area from (CCN No. 13248).
- The application proposes the subtraction of approximately 1,853 acres from CCN No. 13248 and the addition of approximately 1,853 acres to CCN No. 13290.
- The application proposes the subtraction of approximately 78 acres from CCN No. 20566 and the addition of approximately 78 acres to CCN No. 21120.
- 1,775 acres will be single certification of CCN No. 13290, and 78 acres will be dual certification between CCN No. 13290 and CCN No. 10195.

## 2. Notice

CSWR-Texas provided notice consistent with 16 TAC § 24.239(c). The deadline to intervene was October 31, 2022; there were no motions to intervene, protests, or opt-out requests received.

## 3. Factors Considered

Under TWC §§ 13.241, 13.246, and 13.301 and 16 TAC §§ 24.11(e), 24.227 and 24.239, the Commission must consider certain factors when granting or amending a water or sewer CCN. These factors are addressed below.

- 3.1. *Consideration of the adequacy of service currently provided to the requested area and system compliance (TWC §13.246(c)(1), 13.301(e)(3)(A); 16 TAC §§ 24.227(a) and (e)(1), 24.239(h)(3)(A), (h)(5)(A), and (h)(5)(D)).*

Patterson Water will be transferring six Texas Commission on Environmental Quality (TCEQ) approved public water systems (PWS) registered as:

*Table 1 - PWS Listing and Investigation Date*

<b>PWS ID</b>	<b>Name</b>	<b>Last CCI</b>	<b>Violations</b>
0570044	Danieldale Community Water Service	April 5, 2021	Paperwork violation
0610041	Rocky Point Community	October 14, 2021	Paperwork violation
0610052	Vacation Village	January 2, 2020	Pressure Violation

<b>PWS ID</b>	<b>Name</b>	<b>Last CCI</b>	<b>Violations</b>
1840024	Crazy Horse Ranch	August 5, 2020	Capacity violation
2200117	Cooley Point	February 22, 2019	No Violations
2490049	Hills of Briar Oaks PWS	February 22, 2019	No Violations

As noted above some of Patterson Water’s public water systems have active violations listed in the TCEQ database. CSWR has stated its intent to invest the capital required to make the upgrades, renovations, and repairs necessary to bring the water systems into compliance with TCEQ regulations and to ensure that customers receive safe and reliable service. The needed improvements will begin when the systems are officially transferred to CSWR-Texas.

Patterson Water does not have a wastewater permit associated with it’s sewer CCN instead Patterson Water has sewer collection lines which transport wastewater to the City of Denton for treatment. The Commission’s complaint records, which date back to 2017, show 14 complaints against Patterson Water each of which have been investigated by the Commission’s Consumer Protection Division.

**3.2. *Consideration of the need for additional service in the requested area (TWC § 13.246(c)(2); 16 TAC §§ 24.227(e)(2) and 24.239(h)(5)(B)).***

The purpose of the transaction is to transfer a portion of Patterson Water’s public water systems and all of it’s sewer CCN service area and customers to CSWR-Texas. The customers are currently receiving water and sewer service from Patterson Water’s water and sewer systems.

**3.3. *Consideration of the effect of granting an amendment on the recipient of the certificate or amendment, on the landowners in the area, and on any other retail public utility of the same kind already servicing the proximate area (TWC § 13.246(c)(3), 16 TAC §§ 24.227(e)(3), 24.239(h)(5)(c)).***

CSWR-Texas will be the certificated entity for the requested area and be required to provide continuous and adequate service to the requested area.

There will be no effect on landowners as the area is currently certificated.

There will be no effect on any retail public utility servicing the proximate area. All retail public utilities in the proximate area were provided notice of the transaction taking place in this application and did not request to intervene.

**3.4. *Consideration of the managerial and technical ability of the applicant to provide adequate service (TWC §§ 13.241(a) and (b), 13.246(c)(4); and 13.301(b) and (e)(2); 16 TAC §§ 24.227(a) and (e)(4), and 24.239(f) and (h)(5)(D)).***

CSWR-Texas has the ability to provide adequate service in the requested area. CSWR-Texas has purchased several TCEQ approved public water systems and wastewater

treatment plants. The Commission's complaint records, which date back to 2017, show 12 complaints against CSWR-Texas.

CSWR-Texas stated its intent to invest the capital required to make the upgrades, renovations, and repairs necessary to bring the water systems into compliance with TCEQ regulations and to ensure customers receive safe and reliable service. The needed improvements will begin when the systems are officially transferred to CSWR-Texas. Once the water systems are compliant with TCEQ regulations, the service provided to the requested area will be adequate.

TCEQ rule, 30 TAC § 290.46, Minimum Acceptable Operating Practices for Public Drinking Water Systems, requires the operation of a PWS by trained and licensed personnel. The production, treatment, and distribution facilities at the PWS must be operated at all times under the direct supervision of a water works operator who holds an applicable, valid license issued by the TCEQ executive director. The licensed operator of a PWS may be an employee, contractor, or volunteer. CSWR-Texas plans to use a contract operator for plant operations, which would include one or more appropriately qualified and licensed operator(s). The contract operator(s) would be responsible for day-to-day inspections, checks, sampling, reporting, meter reading, and any necessary system repairs.

TCEQ rule, 30 TAC §30.331(b), Wastewater Operators and Operations Companies, requires the operators of a domestic wastewater treatment facility to have a valid license issued by the TCEQ executive director. CSWR-Texas will have qualified TCEQ licensed operators licensed in wastewater treatment to run the acquired systems.

Based on orders filed in previous CSWR-Texas dockets where the administrative law judge requested Staff take into consideration all prior CSWR-Texas STM dockets in which Staff recommended the transaction should be allowed to proceed, Staff is including the list of dockets reviewed below:

- Docket No. 50251:<sup>1</sup> CSWR-Texas acquired the PWS, Coletto Water, PWS No. 2350036, and associated facilities, approximately 438 acres of service area, and 211 connections in Victoria County from JRM Water, LLC.
- Docket No. 50276:<sup>2</sup> CSWR-Texas acquired the PWS, North Victoria Utilities, PWS No. 2350049, and associated facilities, approximately 307 acres of service area, and 77 connections in Victoria County from North Victoria Utilities, Inc.

---

<sup>1</sup> *Application of JRM Water LLC and CSWR-Texas Utility Operating Company, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Victoria County*, Docket No. 50251 (Mar. 12, 2021).

<sup>2</sup> *Application of North Victoria Utilities, Inc. and CSWR-Texas Utility Operating Company, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Victoria County*, Docket No. 50276 (Mar. 11, 2021).

- Docket No. 50311:<sup>3</sup> CSWR-Texas acquired the PWS, Copano Heights Water, PWS No. 0040017, and associated facilities, approximately 61 acres of service are, and 110 connections in Aransas County from Copano Heights Water Company.
- Docket No. 51065:<sup>4</sup> CSWR-Texas acquired the PWS Treetop Estates, PWS No. 1840134, and associated facilities, approximately 93 acres of service area, and 35 connections in Parker County from Treetop Utilities, LLC.
- Docket No. 51118:<sup>5</sup> CSWR-Texas acquired the public water systems, Shady Oaks Water, PWS No. 2470017; Hickory Hill Water, PWS No. 2470018; Arrowhead Water, PWS No. 2470025; and C Willow Water, PWS No. 2470019, and associated facilities, approximately 1,828 acres of service area, and 560 connections in Wilson County from Shady Oaks Water Supply Company, LLC.
- Docket No. 51026:<sup>6</sup> CSWR-Texas acquired the PWS, Tall Pines, PWS No. 1010220, and associated facilities, approximately 42 acres of service are, and 73 connections in Harris County from Tall Pines Utility, Inc.
- Docket No. 51031:<sup>7</sup> CSWR-Texas acquired the public water systems, Council Creek Village, PWS No. 0270014; South Council Creek 1, PWS No. 0270079; and South Council Creek 2, PWS No. 0270080, and associated facilities, approximately 275 acres of service area, and 176 connections in Burnet County from Council Creek Village, Inc. dba Council Creek Village dba South Council Creek 2.
- Docket No. 51047:<sup>8</sup> CSWR-Texas acquired the PWS, South Silver Creek I II & III, PWS No. 0270041, and associated facilities, approximately 169 acres of service area, and 103 connections in Burnet County from Jones-Owen dba South Silver Creek I II & III.

<sup>26</sup> *Application of Carroll Water Company, Inc. and CSWR-Texas Utility Operating Company, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Ellis County, Docket No. 52879 (Approved Jun. 10, 2022)*

- Docket No. 51126:<sup>27</sup> CSWR-Texas has acquired the TCEQ PWS registered with the TCEQ as Aero Valley Water Service, PWS No. 0610243, and associated facilities, approximately 46.5 acres of service area which includes 14 acres of dual certification with Town of Northlake's CCN No. 12915, and 42 connections in Denton County from Aero Valley Water Service.
- Docket No. 52880:<sup>28</sup> CSWR-Texas has acquired the TCEQ approved public water systems registered as Texas Landing Utilities Deerwood, PWS ID No. 1700798, Texas Landing Utilities Goode City, PWS ID No. 1700744, Texas Landing Utilities, PWS ID No. 1870151 and a WWTP registered as Texas Landing Utilities, Wastewater Discharge Permit No. WQ-13147-001, and associated facilities, approximately 844 acres of water service area, 310 water customer connections, approximately 93 acres of sewer service area, and 119 sewer customer connections in Polk and Montgomery counties from Texas Landing Utilities.
- Docket No. 52700:<sup>29</sup> RJR Water Company, Inc. (RJR Water) has a TCEQ PWS registered under PWS ID No. 1840077. The last TCEQ compliance investigation of the RJR Water system was on September 9, 2021. All violations or concerns noted as a result of that investigation have been resolved. For this docket, CSWR-Texas is seeking to transfer approximately 346 acres and 136 connections in Parker and Palo Pinto Counties.
- Docket No. 52803:<sup>30</sup> Copano Cove Water Company, Inc. (Copano Cove) has a TCEQ PWS registered as Copano Cove Subdivision under PWS ID No. 0040003 and Copano Ridge Subdivision under PWS ID: 0040029. The last TCEQ compliance investigation of the Copano Cove Water system was on August 31, 2021. There are several violations listed in the TCEQ database for the Copano Cove Water public water system. The last TCEQ compliance investigation of the Copano Ridge Subdivision was on June 23, 2020. There no violations listed in the TCEQ database for the Copano Ridge Subdivision. CSWR-Texas will address the violations and deficiencies to ensure that, after closing the sale, the full operation of this public water system can continue in accordance with Commission and TCEQ rules. For this docket, CSWR-Texas is seeking to transfer approximately 1,267 acres and 713 connections in Aransas County.

<sup>39</sup> *Application of Simply Aquatics, Inc. and CSWR-Texas Utility Operating Company, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Montgomery, Sabine, and San Augustine Counties, Docket No. 53238 (pending)*

investigations. For this docket, CSWR-Texas is seeking to transfer approximately 523 acres and 254 connections in Montgomery, Sabine, and San Augustine counties.

- Docket No. 53483:<sup>40</sup> North Orange Water & Sewer, LLC (North Orange) has two public water systems registered as Longford Place Water System, PWS ID No. 1810015 and Country Squire Water & Sewer, PWS ID No. 1810060 and two wastewater treatment plants registered as Longford Place with the wastewater discharge permit number, WQ0011155001 and Country Squire Plant with the wastewater discharge permit number, WQ00111589001. The last TCEQ compliance investigations for each system were Longford Place Water System on December 30, 2020, Longford Place WWTP on February 14, 2019, Country Squire Water & Sewer system on August 3, 2021, and Country Squire Plant on January 30, 2019. Each investigation resulted in violations. For this docket, CSWR-Texas is seeking to transfer approximately 299 acres and 346 connections in Orange County
- Docket No. 53538:<sup>41</sup> Amberwood Utility Co (Amberwood) has a PWS registered as Amberwood Subdivision, PWS ID No. 1011920. The last TCEQ compliance investigation of the Amberwood system was on July 18, 2018. No violations were noted as a result of the investigation, however there are violations listed in the TCEQ database from February 2022 for failure to maintain the facilities. For this docket, CSWR-Texas is seeking to transfer approximately 78 acres and 54 connections in Harris County.

In each of the above applications, CSWR-Texas has stated that it intends to contract with an operations company.

**3.5. *The applicants' demonstration that regionalization or consolidation with another retail public utility is not economically feasible when construction of a physically separate water or sewer system is required to provide service to the requested area. (TWC § 13.241(d); 16 TAC § 24.227(b)).***

The construction of a physically separate system is not necessary for CSWR-Texas to serve the requested area. Therefore, concerns of regionalization or consolidation do not apply.

**3.6 *Consideration of the feasibility of obtaining service from an adjacent retail public utility (TWC § 13.246(c)(5); 16 TAC §§ 24.227(e)(5) and 24.239(h)(5)(E)).***

Patterson Water is currently serving customers in the requested areas. Obtaining service from an adjacent retail public utility would likely increase costs to customers because new facilities will need to be constructed. At the minimum, an interconnect would need to be installed in order to connect to a neighboring retail public utility. Therefore, it is not feasible to obtain service from an adjacent retail public utility.

---

<sup>40</sup> *Application of CSWR-Texas Utility Operating Company, LLC and North Orange Water & Sewer, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Orange County, Docket No. 53483 (pending)*

<sup>41</sup> *Application of Amberwood Utility Co. and CSWR-Texas Utility Operating Company, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Harris County, Docket No. 53538 (pending)*

- 3.7. *Consideration of the financial ability of the applicant to pay for facilities necessary to provide continuous and adequate service (TWC §§ 13.246(c)(6) and 13.301(b); 16 TAC §§ 24.227(a) and (e)(6), 24.11(e), and 24.239(f) and (h)(5)(F)).*

The Rate Regulation Division will be addressing this criterion in a separate memo.

- 3.8. *Requirement of the applicant to provide a bond or other financial assurance in a form and amount specified by the Commission to ensure that continuous and adequate utility service is provided (TWC §§ 13.246(d), 13.301(c); 16 TAC §§ 24.227(f), 24.239(f)).*

The Rate Regulation Division will be addressing this criterion in a separate memo.

- 3.9. *Consideration of the environmental integrity and the effect on the land to be included in the certificated area (TWC § 13.246(c)(7) and (9); and 16 TAC §§ 24.227(e)(7) and (9) and 24.239(h)(5)(G)).*

The environmental integrity of the land will be minimally affected as CSWR-Texas makes necessary improvements to the systems to provide service to the requested area.

- 3.10. *Consideration of the probable improvement in service or lowering of cost to consumers (TWC § 13.246(c)(8); 16 TAC §§ 24.227(e)(8), 24.239(h)(5)(H)).*

The customers' rates will not change from the current rates paid to Patterson Water. Reliability and quality of water service is expected to improve under CSWR-Texas's management.

The Applicants meet all of the applicable statutory requirements of TWC Chapter 13 and the Commission's Chapter 24 rules. Approving this application is in the public interest and necessary for the service, accommodation, convenience and safety of the public.

#### **4. Recommendation**

Based on the above information, I recommend that the Commission find that the transaction will serve the public interest and that the Applicants be allowed to proceed with the proposed transaction. There are no deposits held by Patterson Water for the customers being served in their water and sewer service areas. I further recommend that a public hearing is not necessary.

## **Memorandum**

**TO:** Andrew Aus and Ian Groetsch, Attorneys

Legal Division

**FROM:** Ethan Blanchard  
Rate Regulation Division

**DATE:** November 7, 2022

**RE:** Docket No. 53721 – *Application of CSWR-Texas Utility Operating Company, LLC and Patterson Water Supply, LLC for Sale, Transfer, or Merger of Facilities and Certificate Rights in Dallas, Denton, Parker, Tarrant, and Wise Counties*

---

On June 15, 2022, CSWR-Texas Utility Operating Company (CSWR-Texas), CCN No. 13290, and Patterson Water Supply, LLC, CCN No. 13248, filed an application for the sale and transfer of facilities and certificate rights in Dallas, Denton, Parker, Tarrant, and Wise Counties under the provisions of Texas Water Code § 13.301 and 16 Texas Administrative Code § 24.239.

An owner or operator of a retail public utility must have the financial resources to operate and manage the utility and to provide continuous and adequate service to the current and requested utility service areas, as established by 16 Texas Administrative Code (TAC) § 24.11. CSWR-Texas must demonstrate that it meets one of the five leverage tests under 16 TAC § 24.11(e)(2) as well as the operations test under 16 TAC § 24.11(e)(3).

### ***Leverage Test***

CSWR-Texas filed an affidavit stating that CSWR, LLC is capable, available, and willing to cover temporary cash shortages, fund initial necessary capital improvements, and cover operating expense shortfalls.<sup>1</sup>

My analysis is based on financial statements ending December 31, 2021. These financial statements contain an unqualified auditor's opinion from RSM US LLP stating that the financial statements present fairly, in all material respects, the financial position of CSWR, LLC as of December 31, 2021.<sup>2</sup>

CSWR-Texas provided the financial statements CSWR, LLC, which demonstrates a debt-to-equity ratio of 0.11.<sup>3</sup> Because the ratio is less than one, I recommend a finding that CSWR, LLC meets the leverage test specified in 16 TAC § 24.11(e)(2)(A). Therefore, I recommend a finding that—through its affiliate—CSWR-Texas meets the leverage test as specified in 16 TAC § 24.11(e)(2)(E).

### ***Operations Test***

An owner or operator must demonstrate sufficient available cash to cover projected cash shortages for operations and maintenance expense during the first five years of operations; or an affiliated interest may provide a written guaranty of coverage of temporary cash shortages if the affiliated interest also satisfies the leverage test, as required by 16 TAC § 24.11(e)(3).

The affidavit provided by CSWR, LLC demonstrates a written guarantee of coverage of temporary cash shortages from an affiliated interest. Additionally, CSWR-Texas's financial projections show that there are no projected operations or maintenance shortages in the next five years of operations.<sup>4</sup> Therefore, I recommend a finding that CSWR-Texas meets the operations test specified in 16 TAC § 24.11(e)(3).

### ***Planned Capital Improvements and Purchase Price***

---

<sup>1</sup> Application, *Confidential 53721 CSWR Supplemental Attachment G-1 to Application*, item no. 11, at 6 (Jun. 20, 2022).

<sup>2</sup> Application, *Confidential 53721 CSWR's Attachment F to Application*, item no. 6, at 4 (Jun. 15, 2022).

<sup>3</sup> *Id.*, at 5. The calculations for which can be found in confidential Attachment EB-1.

<sup>4</sup> *Id.*, at 26.

An applicant proposing service to a new CCN area must provide documentation of adequate funding for the purchase of an existing system plus any improvements necessary to provide continuous and adequate service to the existing customers per 16 TAC § 24.11(e)(5)(A).

The applicant has filed documentation demonstrating adequate cash funding of the purchase price and planned system improvements for the Patterson water system alongside all of CSWR-Texas's other purchased systems and planned system improvements.<sup>5</sup> The calculations for which can be found in confidential Attachment EB-1. Therefore, I recommend a finding that CSWR-Texas satisfies the requirements of 16 TAC § 24.11(e)(5)(A).

### ***Fair Market Valuation***

Because CSWR-Texas has filed notice with the Commission of its intent to use a fair market value (FMV) process to determine the ratemaking rate base of the Patterson water system, Subsection (g) of Texas Water Code (TWC) § 13.305 shall apply to this proceeding, which states:

(g) For an acquisition of a selling utility, the ratemaking rate base of the selling utility is the lesser of the purchase price negotiated by the acquiring utility and the selling utility or the fair market value. The ratemaking rate base of the selling utility shall be incorporated into the rate base of the acquiring utility during the utility's next rate base case under Subchapter F.

Consistent with the above statutory provisions, the table in confidential Attachment EB-1 shows the FMV appraisal amount reported by each of the utility valuation experts and the resulting average amount.

Because the average of the three appraisals yields a FMV which is more than the sales price, the ratemaking rate base for the Patterson water system is the sales price amount, as prescribed by the provisions of TWC § 13.305(g).<sup>6</sup>

### ***Recommendation***

Because CSWR-Texas meets the financial tests, I do not recommend that the Commission require additional financial assurance.

---

<sup>5</sup> Application, *Confidential 53721 Attachment G to Application*, item no. 20, at bates 8 (Aug. 16, 2022). The calculations for which can be found in confidential Attachment EB-1

<sup>6</sup> The calculations for which can be found in confidential Attachment EB-1.

Consequently, I recommend a finding that CSWR-Texas demonstrates the financial and managerial capability needed to provide continuous and adequate service to the area subject to this application. My conclusions are based on information provided by CSWR-Texas before the date of this memorandum and may not reflect any changes in CSWR-Texas's status after this review.
