Public Utility Commission of Texas

TO: All Parties of Record
FROM: Stephen Journey, Commission Counsel
DATE: 06 December 2022
RE: Docket No. 53727; SOAH Docket No. 473-22-05831 – *Joint Application of AEP Texas Inc. and Sharyland Utilities LLC to Amend Their Certificates of Convenience and Necessity for the La Palma to Kingfisher Double-Circuit 345-kV Transmission Line in Cameron County.*

The Office of Policy and Docket Management (OPDM) has identified the following evidentiary issue that requires a response from the parties.

Please identify the location in the evidentiary record that identifies, using verifiable landmarks, the precise dividing point between AEP Texas's and Sharyland's ownership and operation of the La Palma-to-Kingfisher transmission line along routes 2, 4, 5, 6, and 19 discussed in the proposal for decision. It appears that the applicants have identified the precise dividing point to compute the cost estimates in the application.¹ The precise dividing point, including identification and ownership of the demarcating structure, must be identified in the Order.²

OPDM requests responses to this issue by Friday, December 9, 2022 at 3:00 PM. If the requested information is not in the evidentiary record, please file a motion to admit additional evidence.
