July 29, 2022

Public Utilities Commission

Dear Sir:

On as General Partner of HEJAR,LTD, owner of property affected by proposed construction of utility lines in Cameron County as per Docket #53727, San Benito, TX , I wish to intervene in the selection of the line route.

The land has the potential of prime development land, especially since the construction of a bridge spanning the Resaca along San Jose Road. My land is bisected by San Jose Road, and lies along the Resaca. The road has opened up a great deal of traffic, making a housing or commercial development viable and desirable. Two of the proposed routes will destroy the value of my property. Therefore, I seek to prevent the choosing of these routes for your transmission lines.

Sincerely,

Judith A Keillor  
General Partner
