PROJECT NO. 53911

AGGREGATED DISTRIBUTED ENERGY RESOURCE (ADER) ERCOT PILOT PROJECT § **PUBLIC UTILITY COMMISSION OF TEXAS**

FARMERS ELECTRIC COOPERATIVE, INC.'S NOTICE OF INTEREST TO PARTICIPATE IN ON THE ADER TASK FORCE

In response to Commissioner Glotfelty's August 14, 2024 memorandum, Farmers Electric Cooperative, Inc. ("Farmers") submits its Notice of Interest to participate as a member and representative in the Aggregated Distributed Energy Resource ("ADER") Task Force. Farmers would like to participate as a member of the Task Force and respectfully requests that Samantha Crouch, Sr. Director of Power Supply and Energy Services, be designated as the company's representative.

Farmers is a distribution cooperative which serves close to 100,000 homes and businesses in twelve northeast Texas counties. The DER unit of Farmers is engaged in the deployment, utilization and control of various distribution interconnected resources, both front of- and behind-meter.

As a member-owned, not-for-profit distribution cooperative, Farmers is uniquely situated as a provider of both retail energy and distribution infrastructure services. Farmers is therefore keenly aware of the need for and importance of distributed energy resources and looks forward to the opportunity to engage in the critical discussions to shape the future of DERs in Texas.

Thank you for considering Farmers Electric Cooperative, Inc. for our participation.

Respectfully submitted,

DocuSigned by:
