Re: Project No. 53911, Aggregate Distributed Energy Resource (ADER) ERCOT Pilot Project

To: The Public Utility Commission of Texas

Rhythm Ops, LLC ("Rhythm"), in response to Commissioner Glotfelty's memorandum issued in this project on August 14, 2024, files this letter to indicate its interest in participating in the Commission's ADER Task Force. Rhythm launched in 2021 and today is one of the largest and fastest-growing independent retail electricity providers in Texas. At the core of Rhythm's mission is our commitment to supporting the energy transition and a more resilient grid. We are the energy provider to a large percentage of Texas's rooftop solar and storage homes, we provide a service to support our customers going solar, our lead – and fastest growing – electricity offering is a suite of wholesale-shaped time-of-use products, and we've launched our own VPP, integrating directly with leading device manufacturers. Growing the community of DERs, and helping Texas make effective use of this growth is key to Rhythm's roadmap. As such, we would greatly value the opportunity to serve on the ADER Task Force and thank you for your consideration.

Respectfully,

A handwritten signature in black ink, appearing to read "Matthew A. Tolliver".
