BASE POWER COMPANY NOTICE OF INTENT TO PARTICIPATE

Base Power Company (“Base”) appreciates the opportunity to provide supportive comments in Project No. 53911 on the ADER Barrier Workshops Proposal (“Workshops Proposal”) filed July 24, 2024,¹ and looks forward to participating in future public workshops scheduled by the ADER Task Force. The topics addressed in the Workshops Proposal are critical for advancing residential Distributed Energy Resource (DER) installations in Texas, addressing market access barriers, and enhancing home resilience for Texas residents.

Base Power respectfully requests to participate as a presenter on the following topics in future ADER Task Force Workshops:

- I. Review of current limitations on DER system sizes and how to solve for them
- II. Limited visibility to distribution systems today and how to solve for surprise costs during installation of larger residential systems
- III. How to coordinate strategically with utilities on where to install more DERS
- IV. Interrelated Projects Open at the PUC of Texas: Cost Recovery for Upgrades Caused by DERs
- V. Permit and Interconnection Reviews Best Practices & Electronic-Only Standardization
- VI. Meter Socket Adapters

We look forward to coordinating our participation with other stakeholders interested in supporting or co-presenting, and sharing more information with members of the ADER Task Force. Please contact our policy lead at the information below.

Zach Dell, CEO, Base Power Company
