Re: Project 53911 Aggregated Distributed Energy Resource ERCOT Pilot Project

Dear Commissioner Glotfelty,

In response to your memo filed in this project on August 14, 2024, OhmConnect Texas (OhmConnect) respectfully requests to be added to the Aggregated Distributed Energy Resource Task Force. As you may recall, OhmConnect is a Retail Electric Provider (REP) serving Texas residential customers inside ERCOT competitive areas. We began with a special focus on creatively engaging customers through participation in demand response and were the first REP to make DR an integrated component of our retail offering. Our roadmap includes incorporation of additional distributed energy resources, with the ultimate goals of helping our customers manage their onsite assets to either curtail demand or export power as appropriate. Properly crafted policies will reduce customer costs and add much needed reliability to the electric grid.

Thank you for your consideration.

Respectfully,

A handwritten signature in black ink, appearing to read "Don B. Whaley".
